

HOOVER SEEKS LIQUOR WAR AID

President Calls on Citizens to Aid in Battle

He Deplores Rum Slayings, But Stands Firm

Bootleggers Reported to be Thicker on Border

(Continued from First Page)

In an effort to arrive at a method of stopping the flow of illegal beer in that section.

Doran said reports show unsatisfactory conditions in the Albany district and that he is going over the entire situation. No action will be taken until he has reviewed it thoroughly, he added.

While the executive branch was buying itself with the Canadian border situation, the Senate adopted the Caraway resolution calling on the Washington police to give it the names of all foreign diplomats and their representatives who have been arrested here or warned for driving their automobiles while under the influence of liquor.

In the preamble of the resolution, Senator Caraway called attention to published accounts of the recent arrest in Virginia of Kemal Denseny Bey, second secretary of the Turkish legation, and of his release on a claim of diplomatic immunity.

BENEFITS SOUGHT
Another legislative proposal was laid before the House under which the dependents of prohibition enforcement officers killed while discharging their duty would receive \$25,000. The bill, introduced by Representative Cagney, Democrat, South Carolina, would extend to the widows and children of slain officers the same benefits that have been proposed for the dependents of those who might be killed by officers.

With it was introduced a bill by Representative Pittenger, Republican, Minnesota, which would authorize payment of \$20,000 to the widow and two daughters of Henry Virkula, killed several days ago by a customs border patrolman near International Falls, Minnesota.

New protests and approvals of the Treasury stand on the shooting have been received by Lowman. The assistant secretary said Customs Border Patrolman White is in the hands of the courts and that he has "full confidence" in the State and Federal courts of Minnesota will give White a fair trial.

MESSAGE PREPARED
President Hoover is preparing a reply to be sent to the citizens of International Falls, who have protested against the shooting. It has been indicated that this message will be of the same tenor as his statement today.

The Detroit controversy came to the fore again in the House with the introduction in the Congressional Record by Representative Cagney, Republican, Michigan, of a statement replying to a speech made yesterday by Representative Hudson, Republican, Michigan, criticizing Cagney. Cagney said Hudson formerly was associated with the Anti-Saloon League in Michigan and has been a "political enemy" ever since he

was a member of the Anti-Saloon League.

ONE O'CLOCK - SATURDAY

Must Men Fear 40?

Medical authorities agree that 65 per cent of all men past middle age (many much younger) are afflicted with a disorder of the prostate gland. Aches in feet, legs and back, frequent night urinations, sciatic pains, are some of the signs—and now a member of the American Association for the Advancement of Science has written a remarkably interesting Free Book that tells of other symptoms and just what they mean. No longer should a man approaching or past the prime of life be content to regard these pains and conditions as inevitable signs of approaching age. Already more than 50,000 men have used the amazing method described in this book to restore their health and vigor—and to restore the prostate gland to its proper functioning. Arrange immediately for this book. Mail in person if possible, otherwise mail your request to The Electro-Thermal Company, Dept. B-149, 303 Van Nuys Bldg., Los Angeles—the concern that is distributing this book absolutely free, without obligation. Simply send name and address. But don't delay, for the edition of this book is limited.

WARSHIPS FOR BEACH CITY

Santa Monica Will Get to See Destroyers by Fourth of July Order

WASHINGTON, June 18. (Exclusive)—The Navy Department today ordered two destroyers to Santa Monica to participate in the Fourth of July celebration there. The request for the destroyers was made by the Santa Monica Chamber of Commerce through Senator Shortridge.

The beach city also wanted an aircraft carrier, but this necessarily was denied, as all the naval carriers will be engaged in maneuvers at the time.

has been in public life. He charged that the Anti-Saloon League had tried to defeat him in one of his campaigns for Congress.

Cagney also made public an affidavit by Louis E. Jacques of Detroit, former customs border patrol agent, to the effect that "could not remain connected with an organization which countenanced promiscuous shooting."

The affidavits charged that Joseph Cox, another agent, had endangered the lives of innocent citizens by promiscuous firing on the night of the 12th inst., when Archibald Ruppert was killed.

ANOTHER INCIDENT

Aid of the customs force in an investigation of the killing of Arthur Gordon was asked of Lowman by Dist. Atty. O'Connell of Clinton county, New York. Gordon was killed Saturday morning.

Lowman telegraphed O'Connell that the court should issue a subpoena for the men whose testimony it desires. The district attorney complained that the customs force had not co-operated in the investigation and had caused it to be postponed until the 24th inst.

Commissioner Doran took cognizance of assertions by Representative Cagney that a threat had been made to cut off the heads of officials in Detroit who did not agree to follow his policy in prohibition enforcement.

The statement is entirely erroneous, Doran said. "I not only have never transmitted such orders but I could not issue such orders in the hands of the courts and that he has 'full confidence' in the State and Federal courts of Minnesota will give White a fair trial."

FRESEYTERIANS APPOINT LOYALTY COMMISSION

PHILADELPHIA, June 18. (P)—Appointment of a national loyalty commission consisting of seven ministers and eight ruling elders was announced today by Dr. Cleveland B. McGowan, moderator of the Presbyterian General Assembly, from the headquarters of this assembly here.

This commission is to assemble in New York avenue Presbyterian Church, Washington, tomorrow morning and then call on President Hoover and tender to him the support of the Presbyterian church in its stand for law observance. The commission was authorized by the General Assembly at St. Paul, May 27.

The avowed purpose is to give encouragement to the President in carrying out his policies for law observance and enforcement, and to quicken the consciences of Presbyterians to observe the law themselves both as citizens and as Christians.

The commission will have a luncheon conference with Presbyterian members of the Cabinet and will adopt a plan of national campaign for law observance. It also will issue a proclamation to all Presbyterians to observe Sunday, the 30th inst., as National Loyalty Sunday.

SHOOTING INQUIRY RUNS INTO BLIND ALLEY

PLATTSBURGH (N. Y.) June 18. (P)—Investigation into the fatal shooting of Arthur Gordon, 22 years of age, of this city, on "boose trail" near here, appeared tonight to have run into a blind alley through inability of county officials to serve subpoenas on two customs border patrolmen who are reported to have killed Gordon "accidentally" four days ago.

Gordon was buried here today. Seymour Lowman, assistant Secretary of the Treasury in charge of prohibition, today was asked by Dist. Atty. O'Connell of Clinton county, "at once to request John C. Tullock, (collector of the port of Ogdensburg) to co-operate with me by having men who are under his jurisdiction present at an adjourned hearing at 9:30 o'clock Monday morning, June 24, at Plattsburgh."

These particularly wanted among the officers are Weldon J. Chestnut and E. L. Coveney, stationed at Moores at the time of the shooting. Secretary Lowman tonight wired this reply:

"Telegram received, suggest if you desire attendance of witnesses that you issue subpoenas for them to appear according to the usual legal proceedings."

SPEEDBOAT MAN ADMITS STORY OF BULLETS FALSE

WINDSOR (Ont.) June 18. (P)—Carl Raymond of Monroe, Mich., admitted tonight that the shattered windshield of his speedboat was due to a collision with a United States Coast Guard cutter rather than to the machine-gun fire with which he had charged the "rum chaser" had greeted him yesterday.

Raymond's admission, announced by both United States and Canadian authorities, corroborated the statement of Arthur Gobel, captain of the rum chaser, that blank shells from a one-pound gun had been fired at the suspected rum-runners.

SLAYING HEARING PUT OFF

EL DORADO, ARIZ., June 17. (P)—Due to the absence of J. J. Jarragin, former undersheriff and State witness, Justice Courts today announced continuance until the 28th inst. of the preliminary hearing of Owen Oberg, accused of slaying and burning seven members of his family.

DETROIT LIQUOR DRIVE MAPPED

Results Will Help to Guide Hoover Commission

Canada May Give Help if Dry Forces Show Gains

Rum Runners Desperate as Net Grows Tighter

(This is the third of a series of articles describing the warfare being waged against the Federal government and the rum-runners in the Detroit area.)

DETROIT, June 18.—One of the first uses to be made of the results achieved by the government in its concentrated drive to dry up the Detroit-Canadian border is to lay them before President Hoover's commission on law enforcement.

To enable the ten men and one woman selected by the President for the personnel of the commission to decide whether the prohibition laws as they now stand can be enforced, and to determine methods necessary for strict enforcement, the present mobilization of the dry forces of the government has been ordered. The commission is to be given a concrete example of the degree of enforcement which can be achieved with the forces now at Washington's disposal. The commission's judgment on the success or failure of the Detroit drive will have an important bearing on the subject of prohibition.

ANOTHER SIDE
The result of the drive will have its effect in another direction. So far, the attitude of the Canadian government has been that the United States must enforce its own laws without aid from its neighbor, although many high Canadian officials have expressed sympathy with the United States government's effort.

The demand of the American delegation to the Ottawa rum-smuggling conference in January for Canadian legislation to prohibit support of liquor to the United States was rejected by dominion representatives, but the question is not a closed one.

The Canadian delegates expressed doubt concerning the effectiveness of American enforcement. The present drive is, therefore, regarded as the nation's answer to the Canadian challenge. Some observers believe that by showing a high degree of success in the enforcement drive, Washington will win fuller co-operation from Canada and perhaps stop all smuggling for all time.

SMUGGLERS ON DEFENSIVE
The rum smugglers will fight to retain their profitable "racket." Their desperate character is the reason assistant Secretary Seymour Lowman, in charge of the prohibition forces must continue to be armed, although the government men have been warned not to shoot except in emergency.

In the past, the "pullers" of the liquor boats have not been armed. The extra equipment they have carried has been usually for fishing tackle, with which to pose as fishermen if government craft drew up. But on the Detroit shore, the landing forces are armed. Gunmen guard the unloading and convey the liquor to its destination.

There was a recent battle, without casualties, between twenty rum runners and a half-dozen customs border patrol inspectors over a cargo of liquor just landed on the Detroit waterfront in which the firing was limited.

So far this year there have been three deaths in the liquor warfare along the border here and a number of wounding. An immigration patrol boat was fatally wounded by a rum runner on the St. Clair River. A rum runner was fatally wounded by State troopers near Monroe, Mich., on Lake Erie, last February.

FOUR UNARMED
Last week a customs border patrol inspector, fatally wounded a young man who was approaching with three others to retrieve their bullet-riddled boat, beached a few hours previously during a chase by inspectors, who fired on the fleeing craft. The inspector said he feared the four would "gang" him and he fired when they did not heed his command to halt. The four were unarmed. This took place at the western limits of Detroit, down the river.

But Detroit still will remain wet after the importing of liquor has been stopped if no attention is paid to the breweries and alcohol cooking plants in the city. For this reason it is believed that the dry army now mobilized also will strike hard at the domestic liquor manufacturers.

In the last few months huge underground breweries, burrowing under alleys and highways, equipped with secret doors and panes, with apparatus and stocks valued at \$500,000 in individual instances, have been discovered by Federal agents.

More are known to exist, for while Canadian beer is at present unobtainable in nearly all Detroit's 15,000 to 20,000 blind pigs, "alley beer" is plentiful.

ALCOHOL ABUNDANT
Alcohol, converted by the purchaser into synthetic gin, whiskey, cordials and liqueurs, is also plentiful.

What the government has to contend with here in that regard is illustrated by figures given out by Thomas E. Stone, Federal prohibition administrator for Michigan, for the Detroit district during the month of April alone. Dry agents raided nineteen breweries, twenty-nine distilleries, fifteen stills and seventeen still "worms." Contraband and property valued at \$427,350 were confiscated by the agents, who also seized thirty-six automobiles valued at \$11,800.

That the government expects results from its new drive is now shadowed by the announcement that additional assistants will be given the Detroit district. The growth of liquor cases clogging the Federal dockets here dictated the appointment of an additional judge, making three in all functioning in the eastern district of Michigan.

With the Jones law in effect, capture by Federal officers is being zealously avoided by rum runners and blind-pig operators, and is being accounted for the shooting skirmishes between the Federal and the outlaws.

INDIANAN LOOKS FORWARD

Traction Attorney Leaves \$50,000 to Pile Up to \$193,000,000 Benefactions 200 Years Hence

INDIANAPOLIS, June 18. (P)—Public bequests of approximately \$190,000,000 to be available in 2129 are made in a will filed for probate here. It provides for \$50,000 to be kept intact for 200 years at compound interest.

The will is that of Will H. Latta, Indianapolis Street Railway Company attorney, who was killed last Wednesday night when an automobile he was driving was struck by a passenger train near Carmel, Ind., as he was en route to Fort Wayne, where he was to marry Miss Edna Margaret Sander. Miss Sander was given one-fourth of the remainder of the estate after the public bequests. Latta wrote the will in longhand six days before his death.

De Pauw University, the Art Association of Indianapolis and the city of Ligonier, Ind., are the only public beneficiaries now in existence. The others are created in the will.

ARIZONA NEARS NEW ZEALAND'S DAM ZERO HOUR

(Continued from First Page)

to get the finances programmed. Completion of the dam will be a necessary part of this work, the Secretary declared, so the government can call for bids and launch action to settle the power controversy.

That no time will be lost is evident from Secretary Wilbur's announcement that he will leave for Las Vegas the latter part of this week. His tentative plan is to leave Palo Alto Friday morning, so he may spend Saturday and Sunday at Las Vegas.

CONFERENCE WITH MEAD
He will confer there with Dr. Elwood Mead, commissioner of reclamation, to whose office much of the details of the dam project will be referred. He also will confer with the engineers previously named by Secretary Wilbur. These are Louis C. Hill of Colorado, Andrew J. Wiley of Idaho and William F. Durand of California. They are to be the consulting engineers in direct supervision of the building project.

Many conferences remain for discussion of the details of the dam construction. Secretary Wilbur declared. These, however, are not the pressing necessity at this time as the need to begin work and, he added, these will be taken up as they develop.

DR. MEAD SAYS DAM POWER CONTRACTS ASSURE BUILDING
DENVER, June 18. (P)—The last barrier to construction of Boulder dam, involving the expenditure of about \$150,000,000, was announced as virtually having been removed by the assurance of satisfactory power contracts for the dam when Dr. Elwood Mead, Commissioner of Reclamation, stopped off in Denver today for a conference with business engineers.

Los Angeles and a score of other Pacific Coast towns and cities will furnish the guarantees on contracts. Dr. Mead said the dam project, which the federal government in fifty years.

SURE OF CONTRACTS
"There is no doubt," said Dr. Mead, "about the validity of the contracts for power that we will be able to make with California and other cities and towns. Part of our work in California will be to investigate the proposals we have received from California cities and towns for the sale of power, and we feel assured that these will be valid, for behind them will be the guarantees of millions of dollars in property value."

"The cost of the all-American canal will be guaranteed by the farmers of Imperial Valley and the Colorado River. This accounts for \$40,000,000 of the \$150,000,000 voted in the Swing-Johnson bill to the \$120,000,000 estimated for the Boulder dam will be the only cost that the sale of power will have to carry."

TELLS OF SCENIC ROAD
When Congress meets in December, the Secretary of the Interior, Dr. Ray Lyman Wilbur, will be prepared to request the necessary appropriations, in the reclamation chief's opinion. He characterized as "spectacular bit of engineering" the proposed feat of constructing a rail line from the top of a tableland above the site of the dam down 1400 feet to the river level in a distance of eight miles, and predicted that the spur will be a popular scenic road after the dam is completed.

COLORADO FAILS AS FLOOD PERIL

(Continued from First Page)

smaller streams fed from the higher altitudes are low for this season of the year.

REASSURING REPORTS
The stage of the river here depends far more upon temperatures prevailing through late May and June than upon the amount of snow in the mountains and this year those weather conditions have been ideal to avert a flood.

Reassuring reports have been received from over the drainage shed of the White, Green and Dolores, emptying into the Colorado River below this point, and there also the belief prevails that the flood threat has been passed for the year. Usually more or less minor road and bridge losses result during the flood season. This year such losses have been held to the minimum by the cold, which has so regulated the flow that the rivers have run bank full, but without flood conditions prevailing.

WEDNESDAY MORNING, JUNE 19, 1935. VOL. XLVIII, NO. 198

LAW SURVEYORS TO PICK STAFF

Experts on Various Phases to Aid Commission

Investigators to Ascertain Facts for Study

Data Already Obtained by Members Considered

WASHINGTON, June 18. (Exclusive)—A staff of experts on various phases of law enforcement and law violations will be selected at once by the Hoover law enforcement commission and assigned to prepare data for later study by the investigators. It was disclosed by Chairman George W. Wickersham today.

According to Mr. Wickersham men will be selected to prepare the groundwork for the commission's deliberations who are suited by experience and other qualifications to turn out the very best caliber work. Enforcement of the liquor and narcotic laws will be among the subjects which the experts will be assigned to study.

Today's session of the commission was largely devoted to the study of crime commission reports on Chicago, Baltimore, New York, Cleveland, Boston and other large cities. Chairman Wickersham summarized these reports, together with statistics of crime received from the States of Illinois and Missouri last week, in order to expedite the work of the commissioners. Seven members of the President's staff were present today, the first session held since June 7.

Statistics on crime in several large cities which were assembled by Leonard V. Harrison, statistician for the commission, were placed before the commissioners today. These statistics were so arranged that the commission can compare them and weigh the conclusions drawn by Federal authorities, crime reform organizations and other agencies.

PRISCILLA DEAN IN LAW TANGLE

(Continued from First Page)

coast, but it is believed likely Arnold will come here to seek a reconsideration of today's ruling which makes him and Priscilla merely common-law mates.

Arnold was not present at today's hearing, but was represented by counsel. The fraud charged by Mrs. Arnold is that she was not served with papers in the case when Arnold filed suit for divorce on grounds of desertion in the local courts on March 9, 1935. The final decree was granted in April, 1935, and Mrs. Arnold testified that she had not heard of any of the proceedings until later.

ARNOLD AND ACTRESS ON WAY FROM NORTH BY AUTO
The action of the Fulton Superior Court at Atlanta in setting aside the divorce granted three years ago to Leslie Philip Arnold came as a shock and a complete surprise to his mother-in-law, Mrs. Mary Dean, former stage actress, according to her statement yesterday. Her daughter, Priscilla Dean, motion-picture actress, and Arnold were en route to Los Angeles last night from San Francisco by automobile and as far as she knows they have not been advised.

"It is terrible that the former Mrs. Arnold should take such an action after all these years," Mrs. Dean asserted. "Mr. Arnold is such a prince of a chap and I know that he will do the right thing to clear this matter. He has been separated from her for more than ten years and it is just too bad that such a thing as this has to happen to bring trouble to two such happy people."

"I am positive Mr. Arnold will rectify the mistake at once. They're the happiest couple on earth and this is certainly an injustice to them. It is all done, I am positive, for notoriety."

According to Mrs. Dean, her daughter and Arnold left San Francisco by automobile yesterday morning. She tried to communicate with them by telephone, but they had left their hotel. They are expected to arrive late tonight, she asserted.

JAPANESE VOLCANO WIPES OUT VILLAGES

TOKIO, June 18. (Exclusive)—The eruption of Mt. Komagatake in Hokkaido has been subsiding since 10 o'clock this morning, leaving four villages totally wiped out, with molten lava flowing deep for three miles about and ash and dust falling for miles around.

It is estimated that 20,000 persons are homeless; the casualties still are unknown. Thirty persons were buried in six feet of ash while fleeing from a mountain-side resort. Two hundred school children caught in Shikabe, thought to be later rescued, were in a pool of water where the teachers had kept them.

Coal mines in the Kanobe district were set afire by the fiery rain from the volcano and houses were obliterated. Tonight the volcano is smoking and issuing ashes but no lava is flowing. Refugees who started for home at 5 o'clock this morning were chased back by rumbling and ash at 9 o'clock.

CURB PLACED ON AMERICANS

(Continued from First Page)

from Mexico City and that the matter was out of his hands.

This is the second time within a week that Americans have been affected by restrictive measures originating in Mexico. A week ago Gov. Rodriguez advised railroad companies operating across the California-Mexico border that after July 1 they must limit their train schedules to the same hours as pedestrian and motor travel. This would close the line to Southern Pacific trains operating through this city at 9 p.m. daily and to San Diego and Arizona trains operating at 11 p.m. daily.

At a conference of representatives from all Imperial Valley towns held here last night a letter was addressed to the Lower California Governor for a national extension of time in the execution of the order and urging that a conference be held to discuss economic phases of the problem. It was pointed out that Mexican citizens as well as American will be penalized if the ruling is carried out, as large numbers of Mexicans now employed on the railroads operating through Lower California would be thrown out of work.

Rodriguez left yesterday for Mexico City in answer to a telephonic request from ex-President Calles. The latter is leaving soon for a trip to Europe and is expected to stop to confer with the local Governor before his departure.

KIDNAPERS PLEAD GUILTY
LEWISTON (Idaho) June 18. (P)—Four men who had been identified by Lieut.-Gov. W. B. Kinn as the persons who abducted and robbed him last week today pleaded guilty to kidnapping charges before Judge Johnson. They will be sentenced Thursday.

INCREASES SHOWN
Thirty-two of the States and territories of the United States reported the value of their exports over 1927. Texas registered the greatest increase, \$169,975,941, followed by New York which showed a gain of \$91,812,028; Michigan, \$40,373,562; California, \$35,891,912; Washington, \$13,991,692; Wisconsin, \$10,757,541; Ohio, \$10,426,843; North Carolina, \$8,204,853; Massachusetts, \$6,763,853; Louisiana, \$6,163,324; Tennessee, \$6,117,498; Virginia, \$4,027,374; Arizona, \$3,385,550; Oklahoma, \$3,023,418; Iowa, \$1,940,764; Kansas, \$1,638,968; Pennsylvania, \$1,589,267; Arkansas, \$1,140,557; and New Mexico, \$1,067,208. Other States to show increases were Florida, Rhode Island, New Hampshire, Montana, South Dakota, Delaware, Vermont, Hawaii, Colorado, Idaho and North Dakota, as well as Alaska and Washington, D. C.

TABLE OF FIGURES
Following are the figures on exports by States:

	1928	1927
New York	\$91,812,028	\$76,944,894
Texas	\$169,975,941	\$153,980,000
Michigan	\$40,373,562	\$36,361,437
California	\$35,891,912	\$32,300,000
Pennsylvania	\$1,589,267	\$1,430,713
Louisiana	\$6,163,324	\$5,500,000
New Jersey	\$22,530,469	\$22,779,892
Ohio	\$10,426,843	\$9,381,245
Virginia	\$4,027,374	\$3,600,000
Washington	\$13,991,692	\$12,700,000
Minnesota	\$7,128,813	\$6,446,440
Maryland	\$7,128,813	\$6,446,440
Crescent	\$6,763,853	\$6,163,324
No. Carolina	\$8,204,853	\$7,400,000
Indiana	\$6,117,498	\$5,500,000
Tennessee	\$6,117,498	\$5,500,000
Connecticut	\$2,784,788	\$2,500,000
Alabama	\$4,027,374	\$3,600,000
Mississippi	\$4,027,374	\$3,600,000
West Virginia	\$4,027,374	\$3,600,000
Missouri	\$4,027,374	\$3,600,000
Iowa	\$1,940,764	\$1,700,000
Florida	\$1,940,764	\$1,700,000
Arkansas	\$1,140,557	\$1,000,000
Kentucky	\$1,140,557	\$1,000,000
Rhode Island	\$1,140,557	\$1,000,000
Arizona	\$1,140,557	\$1,000,000
Nebraska	\$1,140,557	\$1,000,000
Idaho	\$1,140,557	\$1,000,000

British Investigation Starts Over Channel Crash
Accident Due to Breaking of Shaft to Engine
American Business Man Gets Praise for Rescues

LONDON, June 18. (Exclusive)—While search is being continued today for the bodies of three women passengers who were among the seven drowned when the Imperial Airways Paris liner fell into the English Channel yesterday, an official investigation began this morning and has thrown some light on the cause of the disaster.

THE "L.A.I." PLAN MEANS A BETTER HOME AT LOWER COST
YOUR CHOICE
of all or any one of these 3 services
DESIGNING FINANCING CONSTRUCTION
Under the "L. A. I." Home Building Plan

Home of Mr. A. H. Jeffries, in Riviera Architect, C. E. Colcord, Beverly Hills

HERE is an entirely new idea of service to prospective home builders. Under the "L.A.I." Home Building Plan of Designing, Financing and Construction you have the privilege of using all or any of these three services.

- What This Means To You**
- Perhaps your plans are already completed. Then our Financing or Building Service or both are available to you. Or, if you have your own contractor, you have the privilege of using our Designing and Financing Service.
- Only the "L.A.I." Plan offers you this choice. It has been arranged entirely for your own convenience.
- The 3 Services of the "L. A. I." Plan—what they are**
1. **DESIGNING**—we go over your own ideas or rough sketches with you. Then prepare a complete set of plans, at nominal cost, which you will own.
 2. **FINANCING**—your choice of two liberal plans: (1) *Monthly Repayment*, like rent, including interest and constant reduction of principal. (2) *Straight Loan Plan*, at 7% interest. Or we build for cash. Generous financing in approved districts.
 3. **CONSTRUCTION**—we do all the major construction work ourselves. Thus we can guarantee that only quality materials are used, that workmanship is of the finest. We own our own lumber yard, planing mill and hardware store. Thus we buy materials at lowest cash prices in large quantities. These savings are passed on to you.

To Borrow Or Save—Padway Is Safeway

6%

We pay 6% interest on savings FROM DAY OF DEPOSIT TO DAY OF WITHDRAWAL. Pass book accounts may be opened with \$1 and up.

Full paid certificates are issued in multiples of \$100. By state law, they are legal investment for banks, insurance companies, and trust funds.

We Guarantee Principal and Interest.

Story of a Salesman's Success

A salesman, 38 years of age, came to one of our offices four years ago to take up a new line of business—a line against which he had been prejudiced, but which he knew carried great rewards for the successful. At the time he changed positions he was making \$4,500 a year. He made nearly double that amount his first year in the business and today is the manager of one of our successful agencies with compensation already nearly three times as much as he had made before he started the new work.

We are enlarging our organization in Southern California and have similar openings for two good men with successful records in other lines. Under our methods of training, our advanced lead system and the strong backing of continuous National Advertising, failure is well-nigh impossible to the man who is willing to follow our instructions and pay the price in hard work. No business is growing faster or offers more unlimited opportunities than does life insurance at the present time.

Only applicants financially solvent and of unquestionable integrity who are desirous of bettering their present position—men with high grade references—will be considered. If your letter indicates that a personal conference will be mutually beneficial an appointment will be arranged. Address by letter only.

Los Angeles, California.

BAKER IMPUGNS CALIFORNIA FIG

Tariff Committee Informed
Our Fruit Inferior

Quantity Also Trifling, Says
National Biscuit Man

Forkner of Fresno Answers
Traducer Today

WASHINGTON, June 18. (Exclusive)—Contending the California figs are inferior in quality and insufficient in quantity to meet the market demand, Dr. C. E. Clark, representing the National Biscuit Company, protested vigorously today before the Senate Finance Committee against the 3-cent a pound tariff on dried figs in the House tariff bill now before the committee. Senator Copeland of New York also joined the drive against the California agricultural interests.

J. C. Forkner of Fresno, representative of the California fig growers, will go before the Senate committee tomorrow to refute the testimony of Dr. Clark, brought out under the cross-examination of Senator Copeland. Mr. Forkner is pleased that the opponents of the fig tariff were heard first. He feels certain that the facts of the case which he will present tomorrow will turn the opposition upside down.

"SO INFERIOR"
Dr. Clark said California figs are used by the National Biscuit Company only in the Los Angeles bakery for State distribution as the figs are so inferior to the imported product that fig bars made with California fruit would not sell where the "native son complex" is not at work. He added that Californians alone eat the biscuits, made with the State product.

He blamed the inferior quality of the California figs on the disease endocephala, which swept the fig groves some years ago. He also said that little headway has been made against the disease, a statement in direct contradiction to the testimony of Department of Agriculture experts before the House committee on this matter.

AND ANOTHER THING
As for quantity, Dr. Clark asserted that California produces only one-third of all the figs consumed in this country. He stated that it would be many years before the Golden State growers could meet the domestic demand.

The long staple cotton tariff was given support from southern and southwestern Representatives and Senators today when Senator Hayden of Arizona and Representative Douglas of Arizona and Whittington of Mississippi asked the Finance Committee for a tariff of 7 cents a pound on cotton with a staple less than 1 1/2 inches.

The Arizona Representatives pointed out that the only cotton imported into this country is the long staple Egyptian cotton, of which imports have run as high as 200,000 bales annually. For the protection of the domestic grower they asked that the 7-cent tariff be granted on this product. Representative Whittington concurred heartily in this plea. California's request for the increase on long staple cotton will be made soon by one of the grower experts of the State, according to today's information.

FOREIGN TRICKERY INDUCES CHANGES

WASHINGTON, June 18. (P)—Chairman Hawley of the House Ways and Means Committee, said today that foreign criticism of the administrative features of the new tariff bill is not justified and that the changes in the administrative sections were "brought upon themselves by foreigners."

Appearing before the Southern States Agriculture Commissioners' Tariff Conference, Hawley declared that a new method of valuating products was resorted to after "juggling of invoices" and direct refusal to allow the investigation of production costs made it impossible to gain a fair understanding of comparative conditions in production in this country and abroad.

NO INTERFERENCE

The bill, he added, would not interfere with foreign trade. Opposing an ad valorem rate of 25 per cent on shingles as proposed in the bill, J. A. Edgumbe, St. Paul, representing the stained-shingle industry, told the subcommittee on the wood schedule that Canadian shingles were not being sold in "direct competition" with those produced in Oregon and Washington.

"Prices of shingles will not stand any further increase," he declared. "And if there is an increase wood shingles will be displaced by composition ones."

Representative Knutsen, Minnesota, opposing increases on building materials, asserted increased rates would "impose an unnecessary burden on the consumer."

TARIFF ELECTION ISSUE
"It costs more to produce lumber in Canada than it does here," he said. Adding that the wood schedule was the outstanding issue in the Fifth Minnesota Congressional election yesterday in which Lieut. Gov. Nolan, Republican, has a small lead. At the last election, Knutsen said, the Republican candidate was elected by a large plurality.

Representative Strong, Kansas, urged a Senate subcommittee to retain the House tariff bill provision designed to give American wheat millers a Cuban flour market in competition with flour milled in this country from Canadian wheat.

CANADIAN WHEAT
A new provision would make Canadian wheat imported free into this country, milled in bond and exported to Cuba, pay a duty of 20 per cent, which is equivalent to the reduction in the Cuban tariff allowed American flour under a trade reciprocity agreement with the United States.

Among several amendments offered to the House bill today was one by Senator Pine, Oklahoma, proposing a duty of \$1 a barrel on crude and fuel oil and a 50-cent ad valorem on gasoline and other oil products.

Senator Bratton, New Mexico, proposed another amendment to make the House duty on hides 25 instead of 10 per cent.

BITS OF NEWS FROM "TIMES" WANT ADS

Party offers to rent new sedan by the week to responsible parties, with privilege of unlimited mileage.

Owner in Monterey Park offers to sell one-half acre with new three-room house and garage for \$200 down and \$25 a month including interest.

A new five-room flat on Ridgeley Drive is offered for rent for \$50 a month, including Frigidaire and garage.

Pear Growers Set Prices for Season's Crop

SAN FRANCISCO, June 18. (P)—Prices for the 1929 pear crop as set by the California Pear Growers' Association, meeting here today, range between \$75 and \$85 per ton, according to the locality, for No. 1 pears, and 60 per cent of those amounts for pears of the No. 2 grade. Last year's crop brought an average of \$40 per ton for No. 1 pears.

Frank Swett, secretary of the growers' association, declared the crop this year to be 50,000 tons short of last year's production.

CHURCH COLONY OPENED

SPRINGFIELD (Mo.) June 18. (P)—The first members of the reorganized church of Latter Day Saints Colony, to be established on an 11,000-acre tract in Taney county, near Branson, have arrived with large herds of sheep. Other members are to follow from Washington and Oregon, leaders said today.

HOOVER SIGNS BILL ON CENSUS

Reapportionment Measure Also Part of Act

Enumeration Begins in May; 100,000 to Get Jobs

President's Pen Checks Off Two Session Pledges

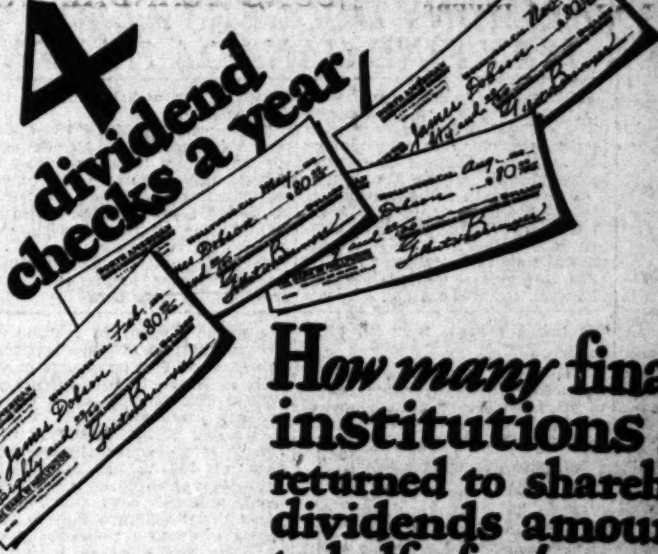

WASHINGTON, June 18. (P)—President Hoover today signed the census and reapportionment bill. The new act has a twofold purpose: provision for the regular decennial count of the population and the setting up of a plan for reapportionment of the House of Representatives. This will be the first reapportionment since 1910.

Under this reapportionment, a number of States will gain additional representation, while several other States will lose seats. The size of the House will be retained at its present number, 435 members.

Disposition of the census-reapportionment question was one of the major tasks listed by President Hoover for the special session. This and farm relief now have been acted on.

The Census Act also provides a continuing arrangement whereby all future decennial censuses and reapportionments will take place automatically without further enactment of law unless the present statute is repealed or superseded.

An army of 100,000 workers, chosen by the Director of the Census, will take the population count beginning early in May, 1930. The task must be completed within two weeks in the cities and one month in rural sections and a report made to Congress the following December.

How many financial institutions have returned to shareholders dividends amounting to half of a two million dollar capital investment within 7 years of date of beginning business?

NAVAL DIVERS SET RECORD

Pressure Equal to That at 353 Feet Withstood by Use of New "Lung."

WASHINGTON, June 18. (AP)—A new mark for divers has been established here by two navy torpedomen who, equipped only with mechanical "lungs" to permit breathing under water, withstood a pressure of 155 pounds in a specially constructed diving tank.

This pressure is equivalent to a depth of 353 feet, which compares with the mark of 305 feet reached in actual diving by navy men in helmets and diving suits in 1915 while salvaging the American submarine F-4 off Honolulu.

Chief Torpedomen, Kolnosky and Hoy, who underwent the latest tests, suffered no ill effects. The "lung" is the Navy's new submarine escape device.

EDITORIAL WRITER DIES

MINNEAPOLIS, June 18. (Exclusive)—John Howard Todd, associate editor and editorial writer of the Minneapolis Tribune, died here early today. He was 65 years of age.

SONG SCANDAL OUSTS STUDENT

Prominent Harvard Man Sent Home Without Degree

Class Hymn Discovered to Contain Obscenity

Friends Declare Anagram Result of Accident

BOSTON, June 18. (AP)—Edward Fitzhugh of Boise, Idaho, author of the Harvard University senior class hymn and prominent in student literary affairs, who was to have been graduated with his class Thursday, has been dismissed from the college, it was learned today. College authorities declined to comment on the case.

Fitzhugh, who was an editor of the Harvard Advocate, a student monthly, was dismissed because of the injection, by means of an anagram, of immorality into the hymn. His dismissal came at the height of the commencement week activities, which were ushered in with a baccalaureate program Sunday, which included the singing of Fitzhugh's hymn.

The hymn, a work of four verses of four lines each, contained sacred sentiment. It was discovered after the baccalaureate service, however, that it had been written in the form of an anagram, which, if the first letters of the sixteen lines were read downward, spelled out four obscene words.

Fitzhugh was reported to have left Cambridge immediately after his dismissal. Student friends stated, however, that the anagram developed primarily by accident.

CRIME MEETING TO SEEK CAUSES

Probation Association Will Meet Next Week

Several National Leaders Speak at Bay City

General Lawlessness Survey Embraced in Program

SAN FRANCISCO, June 18. (AP)—Motion pictures, newspapers and the prohibition law are to be given close scrutiny as possible aids to crime when judges, psychologists and probation officers from various parts of the United States gather in San Francisco on the 24th inst., for the annual conference of the National Probation Association. The conference is to last five days.

Spurred on by reports that lawlessness is increasing in the United States, delegates to the conference are to delve into the problem of finding the cause, seeking to answer, if possible, some of these questions: Is crime caused by motion pictures, the Eighteenth Amendment, the way crime news is treated in newspapers, or is it the lack of parental vigilance? Are the churches to blame? Do unemployment and unsatisfactory living conditions contribute to law-breaking? Is it corruption in public life and the influence of political parties or are all these conditions together contributory and if so how can they be remedied?

George W. Wickersham, president of the association, was recently appointed chairman of the National Law Enforcement Commission by President Hoover.

SURFACE MINE RAINBOW'S END

Owner Digs \$700 in Three Days from Pocket Under Sod

STOCKTON, June 18. (AP)—In three days J. P. Fumero took out \$700 in gold from a pocket at the "grass roots," or surface on the Crockett ranch, near Angels Camp. The pocket is still yielding, but in lessened quantity.

of the association, was recently appointed chairman of the National Law Enforcement Commission by President Hoover.

Speakers on the conference program are to include United States Circuit Judge Curtis D. Wilbur, former Secretary of the Navy and one-time judge of the Juvenile Court in Los Angeles; Dr. Miriam Van Waters, referee of the Los Angeles Juvenile Court; Chester H. Rowell, San Francisco; Jane M. Hooy, assistant director of the Welfare Council of New York City and a member of the New York Crime Commission; Grace Abbott, chief of the Children's Bureau, Washington, D. C.; Dr. Frederick H. Allen, director of the Child Guidance Clinic of Philadelphia; Dr. Samuel C. Kohn, executive director of the Jewish Federation of Charities, Brooklyn, N. Y.; C. J. Goodell, judge of the Superior Court in San Francisco; Dean Justin Miller of the University of Southern California; Daniel J. Brennan, judge of the Court of Common Pleas, Newark, N. J., and Charles Pleas, Chute, general secretary of the National Probation Association.

FRANCE BREAKS REPARATION ICE

Cabinet Unanimous in Vote to Sign Agreement

Urges Parliament to Speed in Ratifying Pact

American War Debt Funding Also Asked of Deputies

(Copyright, 1929, by the Chicago Tribune) PARIS, June 18. (Exclusive)—On the resolution of Premier Raymond Poincare, seconded by Aristide Briand, French Foreign Minister, the entire French Cabinet unanimously approved the report of the Young commission for settlement of reparations and solidly agreed to urge Parliament to ratify the agreement and make it operative September 1, next, as the financial experts recommended.

The government also voiced the Premier's attitude for ratification of the Berenger-Killon and Caillaux-Churchill accords for funding France's war debt to the United States and Great Britain, leaving it to Poincare to devise the best method of settling the problems, as the American pact must be settled July 31 or the Paris Treasury will be forced to pay Washington \$400,000,000 for the stocks purchased after the armistice.

The two decisions were taken at this morning's council by the ministers after a long exposure of the situation by Premier Poincare and an endorsement from the Foreign Minister, who had just returned from Madrid.

UNITED STATES WILL NOT SIGN AGREEMENT

WASHINGTON, June 18. (AP)—President Hoover announced today that the United States will not sign the Young reparations plan recently agreed upon by the experts' conference at Paris.

The President said that since the American government is not a party to the plan it will not be necessary for the United States to sign it. The plan will, therefore, not have to be submitted to Congress for approval. The only point which Congress will have to determine, the President said, will be the grant of authority to the administration to make reductions in American claims for Rhine army costs.

Governor Signs Bill Providing Work for Blind

SACRAMENTO, June 18. (AP)—Completing the final step in inaugurating a program of State aid for the blind, Gov. Young today signed Assemblyman William M. Byrne's bill providing for the establishment of State workshops for the blind throughout the State and salaried in connection with them.

The act provides for an extension of the plan employed for years in connection with the State home for the blind in Oakland and which has also been used by private organizations for the blind. Gov. Young pointed out, however, that no work of the kind had been carried on in Southern California where there are large numbers of blind persons who could be employed with some profit to themselves if proper facilities were provided and a reasonable opportunity given to sell the products of their handwork.

Spaniards Cheer Dr. Stresemann

BARCELONA (Spain) June 18. (AP)—Gustav Stresemann, German Foreign Minister, was given an ovation by crowds which gathered to see him today when he arrived to visit the international exposition. Government and city officials met him at the railroad station and escorted him through the crowded streets to the exposition grounds.

A group of children from the German Girls' School here presented him with a bouquet as he alighted from his railroad coach.

The Secret is Out

GREEN LANTERN ICE CREAM

at Convenient Green Lantern Fountains~

I must be real fun these days to be a Green Lantern Fountain attendant. Folks come in. They order ice cream. (Not realizing the surprising treat in store.) Then that knowing smile which creeps over the face with the first few spoonfuls. Yes indeed, people do recognize fine ice cream. Nine out of ten can tell the difference. If you were working behind the counter wouldn't you like to face a whole row of satisfied, smiling patrons. It's fun these days to serve at Green Lantern Fountains. Of course it keeps you busy. For the secret is out! Green Lantern ice cream is fine ice cream and no mistake about that. How do we do it? Well, it wasn't done in a day. When we were forming the association of Green Lantern Fountains, we discarded all the old conceptions and ideas about ice cream. We went into hundreds of homes and found out what the public really wanted. Our expert caterers used many valuable suggestions of Los Angeles' good cooks in working out the new masses recipe. The rich creamy taste is due to the high butter fat. No "store taste". Only fresh ingredients of the very highest quality are used. Absolute purity of course—laboratory protected. Made in the finest small ice cream kitchens of the west. Delivered fresh daily to Green Lantern Fountains. Now just a few words about Green Lantern Fountains. They are operated by independent druggists who pledge themselves to please you 100%. Absolute cleanliness and sanitation. Prompt, courteous service. Rigid supervision and inspection. There is a catering kitchen where new recipes and dishes are concocted. A school where fountain attendants take pride in learning how to prepare and serve good food and drinks appetizingly. A food laboratory where dietary problems are solved. And there is a Green Lantern Fountain near you. Get acquainted. Smile with us.

SPECIAL for JUNE 18-23 AT ALL GREEN LANTERN FOUNTAINS

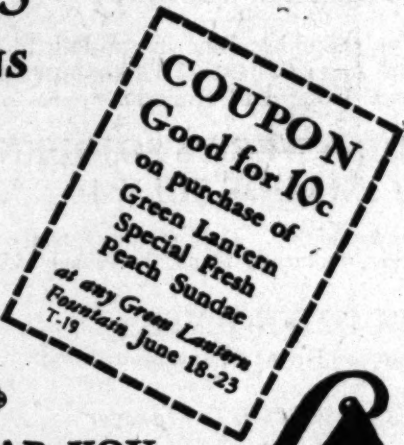

Fresh Peach Sundae - 20¢

With the Coupon, only 10¢

We want you to get acquainted with Green Lantern Fountain Service and to try Green Lantern Fine Ice Cream. We have prepared a delicious special treat for you to try. Fresh Peach Sundae at 20 cents. If you bring in the coupon the price is 10 cents. Here is how it is made: Any flavor of that delicious Green Lantern Ice Cream covered with fresh peaches selected for flavor and sweetness; then a layer of California Walnuts, topped with fresh Whipped Cream and a cherry... Clip the coupon and get acquainted.

WAR ON FOREST FIRES TO START

Eleven Western States Have Conference Monday

Concerted Efforts Planned for Prevention Move

Elimination of Losses Each Year Held Possible

SAN FRANCISCO, June 18. (By-Press)—The eleven Western States conference on forest-fire prevention and range improvement, meeting at the Whitcomb Hotel, San Francisco, next Monday, is the first step in the greatest job ever undertaken in connection with the advancement of forestry in the United States, according to E. W. Murphy, chairman of the State-wide conservation committee of the California Development Association, in an appeal to all citizens of the State to unite in the protection of this resource.

"After many years of costly experience," Murphy's statement says, "public consciousness in the West has awakened to the absolute necessity, this year marks the first time in the history of the United States when all agencies throughout the nation are uniting in support of fire-prevention legislation that will eliminate forever the present government practice of expending millions of dollars for fire fighting as against a comparatively few dollars for prevention."

"It has been conclusively proven that if only a small portion of that money expended each year by the government in fire suppression were expended on the construction of an adequate physical fire-prevention system, our annual losses from forest fires would not seriously jeopardize the nation's interests, as is now the case."

"Representative Engelbright introduced a bill at the last session of Congress which provides for an adequate fire-prevention system in all national forests in the United States. He has been one of California's most staunch supporters of sound forestry practices within this State and deserves full backing in putting over this most commendable legislation."

HOPE EXPRESSED
"At the request of Mr. Engelbright, the California Development Association is calling together all forest protection agencies in the eleven Western States for the purpose of preparing for a co-ordinated drive in support of Mr. Engelbright's bill. It is indeed gratifying to note that these agencies without exception are accepting their responsibility in connection with this campaign. The American Forestry Association in a similar manner to that of the California Development Association is bringing together the forces in the Eastern States for this same purpose."

"This is the greatest job ever undertaken in connection with the advancement of forestry in the United States, and we are extremely hopeful of the successful outcome of our efforts."

SOVIET TO STABILIZE BREAD COST

Shortage of Meat Faced Russia and Report Shows Potato Supply Sags

MOSCOW, June 18. (P)—The Council of Peoples' Commissars of the Soviet Union today instructed the Trade Commissariat to maintain existing bread prices during the harvest season of 1935 and 1936. The council decided, also, to maintain the present bread-book distribution system.

Ivstyia, official organ of the Central Executive Committee, today said: "The measures have been taken to assure the present rate of bread supply will remain unaltered until the end of the year."

"The situation as regards meat is also stabilized but no known shortage is expected in June or July, and the full supply is due about August. The normally developing butter and egg market forebodes a normal supply of these commodities until the end of the year."

"Fish are fairly plentiful. The potato market is very bad and the problem of supplying the working centers with potatoes remains very difficult. The supply of milk is unsatisfactory, due to the shrinkage of the herds and poor organization of the dairies. The fine fruit crop throughout Russia contrasts strongly with others, and probably partially offsetting shortages in other products."

Kellogg Treaty Gets Favorable Action in Japan

TOKIO, June 18. (P)—The committee of the Privy Council which has been considering the Kellogg antiwar pact voted today to report it favorably to the Council, the 26th inst.

The debated phrase, "In the names of the respective peoples," will be reported favorably, also, according to its interpretation by the Cabinet.

The action was considered a victory for Baron Tanaka, Japanese Premier, since the expected censure of the Cabinet by the Privy Council body failed to materialize.

CORONER'S JURY CITES MCCLURE

Verdict Places Guilt for
Slaying of Woman

Officers Report Discovery of
Bloody Kerchief

Same Caliber Bullets Taken
Suspect and Woman

SANTA ANA, June 18.—While Orange county authorities were a net of circumstantial evidence tending to show that John McClure, Long Beach real estate dealer, was the murderer of Mrs. Myrtle Wood, also of that city, who was found shot to death near Laguna Beach Saturday, a coroner's jury here today returned a verdict that Mrs. Wood came to her death "from a bullet wound through the left temple, piercing the brain, with probable homicidal intent by John H. McClure."

At the same time the District Attorney's office announced that it had sufficient evidence to place the case before a jury, indicating that filing of a formal complaint would follow.

Outstanding developments of the past forty-eight hours were:

LINKS IN EVIDENCE
Chief Criminal Deputy Sheriff F. W. Howard and Deputy A. L. Stewart reported finding a blood-stained handkerchief in McClure's apartment at Laguna Beach.

H. L. Huffman, Long Beach oil man and neighbor of McClure, told the officers that he saw McClure in front of the latter's apartment at Laguna Beach early Friday morning and on the street in that city later in the forenoon.

McClure declared he had been in Mexico, after being wounded and abducted by two men, whom he accused of killing Mrs. Wood.

Three bullets removed from McClure's head were declared to be 32-caliber pellets, the same size as that with which Mrs. Wood was killed. Officers renewed efforts to find the revolver used by the slayer. Should it be found, ballistic experts will seek to determine if the bullets causing McClure's wounds and the one taken from Mrs. Wood's brain were fired from the one weapon.

PROSECUTOR READY
In announcing his belief in the sufficiency of the evidence so far in hand, Dep. Dist. Atty. Sam L. Collins stated that filing of a formal complaint would be delayed pending completion of the investigation.

Asserted discovery of the blood-stained handkerchief in McClure's apartment and a black hat which shows earth stains, tends to discredit McClure's story of having been kidnapped and taken into Mexico, authorities declared.

McClure's story of having been kidnapped and taken into Mexico, authorities declared.

Witnesses at the scene were H. J. Harvey, Dr. R. A. Cushman, Harry Joseph Kinkaid, Chester Lewis Berglund, G. F. West, Mrs. H. J. Kennedy, Mrs. Ina Leach, Mrs. Roy Blodgett, Mrs. C. Blodgett, Herman Zabel and A. L. Stewart.

**Rangers Clean
Roadsides to
Prevent Fires**

GLENDORA, June 18.—Due to an extra dry year every precaution is being taken to prevent fires in mountain areas and to reduce the fire hazards within the district.

Crews of twenty-five men under the forestry department are now working in San Gabriel Canyon, and next week will move their camp to the dam site in Big Dalton Canyon, preparatory to a roadside clean-up here, Petersen said.

Roads through all the canyons, including San Dimas, will be cleared within the next month. The work is being supervised by Robert Longacre, assistant district ranger.

"If we can keep the roadsides clear of dry brush and weeds, which are highly inflammable, we can reduce the fire hazard in this district considerably, as it is the carelessly thrown cigarette along the roadside that starts most forest fires," Longacre declared.

SCHOOL BUDGETS INCREASE

Operation of Additional Units and Preparation for Future Expansion Add to Costs

GLENDORA, June 18.—The budget for Glendale Union High School District, as approved by the Board of Trustees, calls for a total of \$775,000, an increase of \$81,500 over the amount expended last year.

The budget for the Junior College also shows an increase, amounting to \$489,500, over that of last year, the total for the 1935-1936 school year being fixed at \$306,100.

The additional high-school costs will, it is expected, raise the tax for this purpose about 1 cent, while the Junior College levy will advance from 14 to 19 cents to the present levy.

LIFE BEGUN ANEW AT HALF-CENTURY

Arthur J. Dubois

Friend of Indian Says
They Are Not as Bad as
Whites in Ballroom

REDLANDS, June 18.—Dr. Clara Stillman of Palm Springs, speaking today at the Asistencia de San Gabriel Mission, west of here, declared Indian tribal dances are not nearly as bad as those seen on a public dance floor.

"Some months ago I received a number of letters from the East urging me to use my influence to stop tribal dances," said Dr. Stillman, who has worked with the Cahuilla Indians for years, and is accepted as a member of the tribe.

Of course, I did nothing about it. I have attended the tribal dances for years, the only white person there. I know that they are not nearly as bad as dances you can see on the ballroom floor.

Dr. Stillman said she is much opposed to the Indian school rules which prevent the boys and girls from using their own language.

"It is no doubt meant well," she said, "but its results are to help destroy the Indian traditions. Girls and boys are given demerits for speaking their own language."

The girls of the tribe cannot afford to work more than two years for \$75, consequently they are doing housework for the whites. Moreover, threads and grasses needed for the baskets have all been plucked or washed away from the vicinity of their homes so that it is necessary to go long distances to the mountains for material.

**SUPERVISORS AID
FAIR AT VENTURA**

VENTURA, June 18.—The county Board of Supervisors today voted to include \$20,000 in the ensuing year's budget for the County Fair, after Adolfo Camarillo had appeared personally to make the request.

He was accompanied by W. G. Wilde, who told the board that the requested amount would put the fair committee "on its feet and let it stay on its feet."

AGED WOMAN TO MEET
LONG BEACH, June 18.—The second annual meeting of the Iowa Golden Wedding Club will be held in Bixby Park tomorrow. It will be a picnic dinner, John C. Spielman, chairman of the committee, has issued invitations to fifty couples who have passed the half-century mark.

All couples who were married in Iowa prior to 1880 or subsequently that date in Iowa will be seated at the golden-wedding tables.

**MAN'S DEATH LAID
TO CARELESSNESS**

HUNTINGTON PARK, June 18.—Bonifacio Vigil, 43 years of age, met his death on Downey Road early Saturday morning, when he was struck by a truck because of failure to use care and caution while walking on the highway, according to a coroner's jury verdict here yesterday.

Gordon Vigil of Los Angeles, driver of the truck, was exonerated. Gordon stated he did not know he had struck the man until a motorist informed him when he stopped his truck at the Terminal produce station. Vigil, who was employed at the Southern California Iron and Steel Company's plant, was on his way home from work. He resided in Los Angeles and leaves three children.

DOBSON RITES TODAY
COVINA, June 18.—Well known among old-timers for his work as a cabinet maker, last rites for Joseph Foster Dobson, 68 years of age, who died at his home on Howard street Saturday, will be held tomorrow at 2:30 p.m. from the chapel of Christiansen & Moore. He leaves his widow and two sons. Interment will take place in Oakdale Cemetery.

**COACHILLA ICE
PLANT BURNS**

COACHILLA, June 18.—The storage plant and part of the operating room of the Coachella Valley branch of the Imperial Ice and Development Company here was destroyed this afternoon by a fire which is supposed to have started from an overheated motor.

The fire department of Indio, three miles away, joined the local department in fighting the fire but operations were hampered by a lack of water pressure and the frame building was gutted.

Most of the machinery, however, was saved and the manufacture of ice will continue. The damage was estimated at more than \$100,000.

**PARK PURCHASE
BY COUNTY URGED**

SAN DIEGO, June 18.—From thirty-five to forty acres of timber land overlooking Lake Hodges may be purchased by the county and dedicated as a park according to suggestion favorably received by the Board of Supervisors today.

The suggestion was submitted by F. B. Hunt and Charles Mendenhall, committee from the Escondido Chamber of Commerce. The proposed park site is near the inland highway and can be had at a fair price, the board was informed. The matter will be considered next month when the board makes up the fiscal budget.

ONTARIO DOGS HELD VANDALS

Councilman Says Citizens Will Have to Arm Themselves With Clubs if His Ordinance to Cage Canines Does Not Meet With Approval of City Fathers

ONTARIO, June 18.—Councilman A. O. Dillon, through City Attorney E. H. Jolliffe, last night presented to the Council an ordinance that would keep every dog within the city limits, either confined in a cage out of which he could not leap, or tethered securely on the end of a stout chain when taken out for a walk.

Dillon in presenting his ordinance declared too many flower gardens are being devastated by dogs running at large; pet cats are chased into trees and under houses, and pedestrians are menaced and terrorized by dogs

GRANDFATHER GETS DIPLOMA

Fifty-Year-Old Railroader
Renews Education

Determined to Obtain M.D.
Degree and Practice

Rare Tale of Enterprise at
San Bernardino Told.

SAN BERNARDINO, June 18.—Arthur J. Dubois, the grandfather graduate of the San Bernardino Valley Junior College, will be past 50 years of age when he completes his education, but he expects, nevertheless, to enjoy several years practice as a surgeon before "retirement," as he refers to old age.

Dubois was awarded his diploma at the Junior College, marking his second year of college study, along with thirty-one other students, all of whom are young enough to be his own children. In fact, he has two grandchildren who were in the audience to see "granddad" graduate.

But to Dubois, a Santa Fe towerman who works at night, studies and attends classes in the day time, it marked just another milestone in his life.

Dubois was awarded his diploma at the Junior College, marking his second year of college study, along with thirty-one other students, all of whom are young enough to be his own children. In fact, he has two grandchildren who were in the audience to see "granddad" graduate.

Next year, Dubois will enter the University of Redlands or the University of California at Los Angeles and complete his premedical training. After four years in medical school, he will serve a year as an interne in a hospital. Then he will hang out his shingle as "Dr. J. Dubois," a title for which he has longed all his life, he admitted today.

At the age of twelve, Dubois began earning his own living, and, strangely enough, he was employed by a physician. It was from his first employer that he got his inspiration to become a surgeon.

"The only thing I want about it all was the start," Dubois said. "Now I remember things much more easily than I did when I was a high school student. I find that I can associate things with experiences and things I have actually seen and, although teaching methods are vastly different, I have no trouble in passing the college examinations."

Nothing but death, and he's not expecting that, can stop him, Dubois said.

"Why, I'm going to practice medicine and surgery for a long time," he said. "Why not? A man's not very old at fifty and I'll keep going until I'm seventy or more, anyway."

**Councilman in
Divorce Action
Resigns Seat**

LONG BEACH, June 18.—Councilman Robert M. Hicks resigned today following the filing this morning of an action for divorce. Frank H. Church, 720 East State street, was elected his successor a few seconds after Hicks's resignation was accepted and was sworn in immediately. The appointment was a vote of 4 to 1. Mayor Oscar Hauge passed his vote and later changed it in favor of Church's election after the new Councilman was sworn.

The events moved so swiftly that he did not recognize the name of the candidate, but knew him when he came forward to be sworn. Hicks was one of four Councilmen whose recall is sought in an election to be held July 11, next.

The divorce complaint names several specific charges of unfaithfulness and charges that Hicks had chased his wife and daughter out of the house with a knife.

Hicks was appointed to the Council about fifteen months ago to succeed A. P. Bonser, resigned.

**MAN'S DEATH LAID
TO CARELESSNESS**

HUNTINGTON PARK, June 18.—Bonifacio Vigil, 43 years of age, met his death on Downey Road early Saturday morning, when he was struck by a truck because of failure to use care and caution while walking on the highway, according to a coroner's jury verdict here yesterday.

Gordon Vigil of Los Angeles, driver of the truck, was exonerated. Gordon stated he did not know he had struck the man until a motorist informed him when he stopped his truck at the Terminal produce station. Vigil, who was employed at the Southern California Iron and Steel Company's plant, was on his way home from work. He resided in Los Angeles and leaves three children.

DOBSON RITES TODAY
COVINA, June 18.—Well known among old-timers for his work as a cabinet maker, last rites for Joseph Foster Dobson, 68 years of age, who died at his home on Howard street Saturday, will be held tomorrow at 2:30 p.m. from the chapel of Christiansen & Moore. He leaves his widow and two sons. Interment will take place in Oakdale Cemetery.

SPEEDSTER BOATS TO DISPORT

Third Race Program at Venice Sunday

Al Thompson in His Black Maria III

In the finals of both previous events, Thompson has spiced with victory in sight. He hopes to wrest honors from H. G. Ferguson's Blue Streak Sunday.

VENICE, June 18.—Officials of the new Venice motor-boat speedway, just east of here on Washington Boulevard, are making elaborate preparations for their third program of outdoor motor-boat races Sunday, Buck McGowan, program chairman, announced today.

Added parking areas are being graded, and improvements being made in the course to enable pilots to attain maximum speeds around the curves at each end of the oval. It is these curves that have furnished thrills galore at both previous Venice events.

Next Sunday's program schedules six sprint races and a number of novelty events, including outboard motor-boat jumps, said to be the most thrilling of all water spectacles.

BLACKER AWARDS MADE

Eleven Caltech Juniors and Sophomores Receive Scholarships for Meritorious Work

PASADENA, June 18.—Eleven California Institute of Technology students have been awarded the Blacker junior and sophomore scholarships which carry half tuition for the next term, it was announced today.

These scholarships, provided by income set aside for the purpose by Mr. and Mrs. R. R. Blacker of this city, are awarded each year to freshmen and sophomores who have received the largest number of credits during the two preceding terms and have been rated highest for originality and outstanding personal qualities.

Students awarded junior scholarships are Lucas A. Alden, Montrose; Carter H. Gregory, San Marino; Robert B. Jacob, Santa Monica; Lawrence E. Kinsler, Los Angeles; Raymond A. Peterson, Denver, Colo. Sophomore scholarships were won by Clark Goodman, Los Angeles; Charles M. Harsh, Eagle Rock; Charles W. Jones, Long Beach; William L. Kent, Covina; J. O. Schafman, Honolulu, and Carl L. Thiele, Hollywood.

**Improvement
Costs Revealed**

MONROVIA, June 18.—Notice of assessment of property on Foothill Boulevard and in the area affected by the improvement of Foothill between Mayflower avenue and Canyon Boulevard, has been filed with City Clerk Frank Dupar by E. M. Lynch, engineer for the street improvement, and sets a total cost of \$129,712.22, of which the county will pay \$24,500, leaving a total of \$105,212.22 to be paid by the property owners.

According to compilations of the City Engineer's office, the total averaged will amount to approximately \$12 per front foot for property owners facing the boulevard and about 80 cents per front foot for landowners in the back area, for the usual lot of 50x150 feet. The amount per foot would be correspondingly larger where the back area lots are larger.

The time limit in which property owners can file protests against the assessment is July 1, and as the work was done under the Act of 1911, protests must be filed before the expiration of the specified date.

**POSTOFFICE SITE
AT POMONA PICKED**

POMONA, June 18.—The site for the new postoffice building to be erected by the government within a block on the east side of Thomas street, between Third and Fourth streets, adjacent to the city government, according to information received from the Treasury Department at Washington today. A sum of \$180,000 was voted by the government for the construction of the local building, and the selection of the site was due to different factions in the city who favored other sites.

SEAWALL CONTRACT LET

NEWPORT BEACH, June 18.—With a bid of \$20,280, Robert Metcalf, Long Beach and Wilmington contractor, last night was awarded the contract to build the seawall along the grand L canal between Balboa and Channel Islands. The City Council took action on recommendation of City Engineer R. L. Patterson.

**CRASH FATAL
to Angeleno**

SANTA BARBARA, June 18.—H. P. Burton, 38 years of age, of Los Angeles, died in the Cottage Hospital last night of injuries received when a large limousine which he was driving toward this city crashed into a telephone pole near the Southern Pacific overhead bridge at the eastern entrance to the city. He was the only occupant of the car.

After the crash Burton, apparently uninjured, walked into a local garage and told the attendants that his car was wrecked some distance down the road. He got into the tow car, suddenly slumped in the seat and became unconscious. He died a short time later.

MEMORIAL POOL OPENED

AZUSA, June 18.—Setting today as the official opening of the Sluison Memorial Plunge, the City Council last night appointed Donald Donner superintendent for this season. The plunge was erected for the city several years ago by Mrs. Kate S. Vesperburg in memory of her father, Jonathan Sluison, pioneer of California.

WOMAN RAILS AT OFFICERS

Sister of Slain Bootlegger
Demands Prosecution

Says Officials Decline to Let
Her Sign Complaint

Affair Will be Submitted to
Italian Consul

RIVERSIDE, June 18.—Declaring she had been refused permission to sign a complaint charging Mrs. Gertrude Mustel with the slaying of her husband, James Mustel, 36-year-old Italian bootlegger of Corona, Mrs. Anna Baffa, sister of the dead man, left today for her Los Angeles residence, determined to place the matter before the Italian Consul and United States authorities.

"I want to know who killed my brother and why he was shot," Mrs. Baffa said. "I certainly am not satisfied with the way things have gone so far. Do I have to fight the District Attorney's office and her lawyer?"

PROSECUTORS AWAY

Mrs. Baffa, who was accompanied by her husband, said she had been in the District Attorney's office twice during the day and the Sheriff's office once. She said officials would not allow her to sign a complaint until Dist. Atty. Albert Ford had returned to take up the affair. Ford and Dep. Dist. Atty. Earl Redwine are in Eureka for a convention and will not return until next week.

United States government action will be sought in the case, Mrs. Baffa said, on the grounds of income tax returns. Mustel left an estate valued at \$300,000. Mrs. Baffa asserted that the Italian government officials in Los Angeles will be consulted on the grounds that Mustel was an Italian citizen, his sister said. Mustel never had taken out his first citizenship papers, she declared.

Mrs. Baffa said she believes her sister-in-law will be released from the women's ward of the County Jail before next week and she said she would do all in her power to stop such an action.

SECOND REFUSAL

The asserted refusal by the District Attorney's office to permit Mrs. Baffa's signature to a murder complaint has put another brake on the wheels of court prosecution, which were stopped last week when both Sweeters and Albert L. Kelly, District Attorney's office investigator, declined to place their names on the complaint. They explained that while they believe there is sufficient evidence indicating Mrs. Mustel killed her husband, charges of conviction on a murder charge are slight. It has been reported the grand jury when it meets early next week.

**HOSPITAL
CAMPAIGN
SUCCEEDS**

Sisters of Charity to
Erect \$500,000 Plant in
San Bernardino

SAN BERNARDINO, June 18.—San Bernardino will get a \$500,000 Sisters of Charity Hospital, a 100-bed institution to be erected near the center of the city, it was assured last night when the campaign to raise \$100,000 toward the hospital cost ended with a total of \$99,256 subscribed. Several thousand dollars in unreported pledges are outstanding, making more than the required \$100,000, it was announced by Grant Holcomb, campaign chairman.

The campaign, conducted here for the past ten days, was the city's biggest peace-time civic project. More than 300 workers participated in the campaign, during which varying amounts to the \$100,000 fund. The largest individual gift was reported last night, it being \$10,000 pledge by Mr. and Mrs. Frank J. Solt, owners of the California Hotel. A number of \$1000 subscriptions were made.

The Sisters of Charity, a national organization, will appropriate \$400,000 toward the institution's cost and will operate the hospital. The selection of a site will be announced within ten days and actual construction will begin before September.

**Crash Fatal
to Angeleno**

SANTA BARBARA, June 18.—H. P. Burton, 38 years of age, of Los Angeles, died in the Cottage Hospital last night of injuries received when a large limousine which he was driving toward this city crashed into a telephone pole near the Southern Pacific overhead bridge at the eastern entrance to the city. He was the only occupant of the car.

The plunge was erected for the city several years ago by Mrs. Kate S. Vesperburg in memory of her father, Jonathan Sluison, pioneer of California.

WHITTIER HOST AT FRIENDS MEETING

Rev. W. O. Trueblood

Pastor of Friends Church at Whittier, where annual meeting will open today.

**QUAKERS
GATHER IN
WHITTIER**

California Membership of
More Than 5000 to be
Represented

WHITTIER, June 18.—The thirty-fifth annual session of the California Yearly Meeting of Friends Church will convene here tomorrow, closing next Tuesday.

The local church will be host to delegates from the twenty-nine church organizations in the State, representing a membership of 5507. The First Friends Church here, which in point of membership is the largest Friends church in the world, has a membership of 1559. Dr. Willard O. Trueblood is pastor.

The first meeting for worship will be held Thursday morning, the four sessions on Wednesday being given over to the Mission Board, Church Extension Board, the Yearly Meeting Council and the Pastors' Association meetings.

Among the eminent men to address the meetings will be Dr. Henry Edwin McGrew of Pasadena, former president of Penn College at Ocala, Iowa; H. Clarkson Hinshaw, pastor Memorial Friends Church at Berkeley; Dr. Edwin Rafferty, Redlands University; Dr. Ernest W. Byshe, Long Beach, and Dr. Frank W. Dell, general superintendent of the California Yearly Meeting of Friends Church.

Dr. McGrew, was formerly pastor of the local Friends Church and it was during his pastorate that the new church was built, a few years ago. He is to preach what the Friends call the "Yearly Meeting" sermon Sunday morning.

Since their organization as a church society the Friends, or Quakers as they are sometimes called, have always stressed the idea of peace and on Friday afternoon, a gold medal peace contest is to be held, under the direction of the Board of Peace, Legislation and Social Service, one of the thirty-seven standing committees of the yearly meeting.

Saturday the educational activities sponsored by the Yearly Meeting will be reviewed and an alumni luncheon served to former students of the fourteen Friends' colleges in the United States. Messages and greetings which are known among the Friends as "epistles" from churches throughout the land and from churches in England, Ireland, China, Mexico and other foreign lands are usually received and read at the yearly meeting here.

WARNING SIGNS BOUGHT

REDONDO BEACH, June 18.—This city, incorporated thirty-seven years ago, is buying its first "Keep Off the Grass" signs today. They are for the new lawn in the Municipal Park, which is now being improved. The lawn is the first grass plots owned by the city large enough to require the warnings.

**EVANS PLEASSED WITH
Congressman Says Legislation of Recent
Beneficial to State in Ten Years**

GLENDORA, June 18.—Signature of the bill by President Hoover marks the attainment of the goal set by the California legislature in 1926, when the Ninth District declared here today, after a long and arduous fight, that a measure which had been passed by the legislature in 1926, was now a law.

"The fight for justice for California has been won, and this State will not have to battle for its rights in the future, as it has been forced to do until this bill passed Congress," Evans said. "In the past fifty years 50 per cent of California's voters have been practically disfranchised, through lack of proper representation in Congress, at national conventions and in the naming of Presidential electors, but this cannot happen again."

Evans pointed out that the law provides automatically for reapportionment after every decennial census, and adds that should the State Legislature fail to set the boundaries of the new California Congressional districts, the additional Congressmen shall be elected at large.

Discussing the tariff bill, Evans asserted that the bill, as introduced in the House of Representatives, is a safe and sane piece of legislation.

NURSES OF CALIFORNIA SIGH FOR TEN-HOUR DAY
SACRAMENTO, June 18. (Exclusive)—A State-wide movement for the reduction of hours of labor for nurses from twelve to ten a day took form at the convention of California organizations of nurses here. The movement has been given impetus in various districts and with as practicable, and tomorrow the already diminished ranks had been diminished to such an extent that the House could not muster a quorum. Consequently it hastily sanctioned the Senate's wish for an adjournment for two months until August 18, next. It asked for a rest itself until September 23, to which the Senate assented.

NITRATES ALLIANCE IN CHILE

Guggenheims and British Deal Calls for Financing on Large Scale

NEW YORK, June 18. (Exclusive)—Negotiations between the Guggenheims, long in the front rank of the world's copper producers and more recently interested in the extraction of Chilean nitrate, and the Lautaro Nitrate Co., Ltd., a British company, have been concluded under the banking auspices of the National City Company, it was announced today. The transaction involves the financing in Wall street of a \$2,000,000 convertible bond issue.

Under the terms of the deal, the British company will have the use of the Guggenheim process for the extraction of Chilean nitrate, which is reputed to recover twice the amount of nitrate from a given area than any other process, and at a cost of one-third that of the Lautaro Nitrate Company, which is to trade their equity for fixed dividends, while in return the Guggenheims agree to transfer their process to the Anglo-Chilean Consolidated Nitrate Corporation, in which they hold a majority interest, which company in turn grants a license to the Lautaro company.

The bonds, carrying 6 per cent interest and maturing in 1934, are offered at 98 and will be accompanied by warrants entitling holders to receive one share of common stock for each ten shares of Lautaro Nitrate Corporation, a Delaware company, common stock. In addition the warrants carry conversion rights into preferred stock of the British company and common stock of the Delaware company.

Fire Insurance Concern Calls Funds in East

Combining its present policy of retaining as much of its available funds as practicable in the Southern California field in compliance with the Federal Reserve Board's wish to have nonbanking institutions withdraw their surplus funds from the New York call loan market, has led to the calling by the Pacific American Fire Insurance Company of Los Angeles, which has been loaned on call in New York.

The cash was transferred from the eastern metropolis to Los Angeles yesterday.

In announcing the transfer, O. May Rule, executive vice-president, and Preston Hotchkiss, secretary-treasurer, declared that the funds would be placed in local banks for the time being, thereby creating a larger supply of credit available to the local banking institutions for industry and commerce in the Southern California field.

This recall represents a substantial sacrifice in interest return, it was pointed out, compared to the rate obtainable had the funds been left on call at prevailing rates in the New York market.

BANKER RETURNS

David Blankenhorn Back at Desk After Eastern Trip

David Blankenhorn, president of Blankenhorn & Co., investment bankers, has just returned from an extended business trip in the East which included stops in both New York and Detroit. His return trip was made in company with Charles R. Jones, vice-president of the Rio Grande Oil Company. The trip was made by airplane.

On commenting on business conditions in the East, Mr. Blankenhorn stated that in the terms of the market he would not like to go "short" on the property of the United States, and found a "bullish" attitude in the mind of the downtown New York. Conditions generally in the industrial field are very sound from all indications, he added, with large earnings anticipated for the twelve months of this year.

MOVEMENT OF RAIL CARS GAINS IN WEEK

WASHINGTON, June 18. (AP)—Revenue freight loadings for the week ending the 8th inst. were reported today by the American Railway Association to have aggregated 1,841,702 cars. This was an increase of 82,872 cars above the preceding week of this year when loadings were reduced owing to the observance of the Memorial Day holiday. Compared with the corresponding week a year ago, loadings showed an increase of 59,222 cars.

MONEY TEST MAY BE MET

Chicago Banker Says Federal Reserve Easing Strain by Open Market Buying; More Rights Ahead

Additional support to the growing opinion that the critical period of June and July in the money market may be passed without undue stringency was contributed yesterday in the comment from Chicago of Arthur Reynolds, chairman of the Continental Illinois Bank and Trust Company. As reported in the news dispatches, Mr. Reynolds finds evidence that the Federal reserve banks are gradually changing their position, and are operating in the open market to alleviate the current strain on the supply of credit.

In the last week or so, Mr. Reynolds testifies, the Federal reserve banks have been willing to buy acceptances and bonds. This is an operation that injects additional credit into the market, and makes for easier sales. Open market operations of this character are one of the functions of the Federal Reserve System, the banks having the authority to either buy or sell securities for the purpose of assisting in the regulation of money rates.

HEAVY DEMAND MET

Mr. Reynolds is further quoted as believing that the open market operations are responsible for the passing of the mid-June government financing without the appearance of high money rates. It is also true that most of the heavy commercial requirements have been met without trouble, which were the chief fear of those anticipating prohibitive rates in June and July.

While it appears so far that the Federal reserve is changing its money policy, the chances are that the change is not attributable to a desire to help the case of the stock market. More likely the banking authorities are looking to the requirements of autumn trade and for the moving of crops, although these reasons may offer a valid opportunity to withdraw from the attitude on stock market speculation that has invited widespread criticism.

Even though the money market is not yet out of the woods, having yet to meet the test of the semi-annual interest and dividend payments on July 1, and a substantial portion of the excess of stock subscription rights, some of the largest commercial requirements have already been met and passed without difficulty.

Even though the money market is not yet out of the woods, having yet to meet the test of the semi-annual interest and dividend payments on July 1, and a substantial portion of the excess of stock subscription rights, some of the largest commercial requirements have already been met and passed without difficulty.

Prospects at Tom Reed Gold Mine Brighter

Officials of the Tom Reed Gold Mine Company yesterday stated that prospects for resuming big tonnage operations in the mine at Oatman, Ariz., look promising due to the striking of a vein of ore assaying not less than \$30 to the ton, according to Oscar Howard, general manager of the company.

Mr. Howard stated that as yet the extent of the new ore body had not been determined but that from present indications the company plans to proceed with production on a large scale, using the new high-grade ore in addition to the mine's low grade ore output.

The company has sunk a shaft 150 feet below the 800-foot level in preparation of mining the new ore.

New Offerings Due Out Today

New financing to be offered for distribution on the Pacific Coast today includes an industrial issue and a block of railroad bonds. Calaveras Cement Company for the first time since its organization in 1926 is making a public offering of 7500 units of its capital stock through Dean Witter & Co. and William Cavalier & Co. Each unit consisting of one share of 1 per cent cumulative preferred stock of \$100 par value and one share of common is priced at \$107.50 and a accrued dividends, to yield 8.51 per cent. Application list the offering on the San Francisco Stock Exchange will be made shortly.

A banking group including Dillon, Read & Co., National City Company and others, is marketing a new issue of \$40,000,000 Canadian National Railway Company forty-year 5 per cent guaranteed gold bonds. An offering of 50,000 shares of common stock of the Rath Packing Company, an Iowa corporation, by George H. Burr, Conrad & Broom, Inc., was also announced yesterday.

Sugar Concern Gets Clean Bill

LINCOLN (Nebr.) June 18. (AP)—In a memorandum opinion handed down today by Federal Judge Munger, the Great Western Sugar Company's demurrer to Federal charges of restraint of trade is sustained and the case is thereby dismissed. The Denver company was charged with having hindered construction of independent sugar-refining plants in Western Nebraska, in Colorado and Wyoming, and with other acts in violation of the Sherman Antitrust Act.

In dismissing the Federal complaint, Judge Munger ruled that manufacture of goods is not commerce, and that hence a combination to prevent it is not interference with commerce.

INVESTOR CONCERN ADDS TO REGULAR

Incorporated Investors declared yesterday a regular cash dividend of 25 cents a share and 4 cents extra together with 2 per cent in stock, all to be paid July 15 to shareholders of record the 22nd inst., according to the announcement by the board of directors. The cash dividends, taking both the regular and the extra together, represent an increase of 12 1/2 per cent over the former cash dividend rate payable on shares before the 50 per cent stock dividend on April 15. The stock dividend of 2 per cent has been paid semiannually since January, 1928.

SCENARIO WRITER ON LOAN SCRIBES' CARD

"Sound Pictures" will be the subject of an address by Garrett Graham, scenario writer, at the luncheon meeting of the Building-Loan Secretaries' Association, to be held at the Windsor Tea Room on Friday, according to Neil Davis, secretary. J. M. Abbott, Santa Barbara, recently elected president of the California Building-Loan League, and E. M. Einstein, Fresno, past-president, are scheduled for short talks. About 100 leaders of the movement representing associations south of Santa Barbara are expected to attend.

PREMIUMS OF PACIFIC FIRE GROW

Report Also Shows Rise in Assets During Six Months Since Organization

Data released yesterday by D. W. Pierce, vice-president and general manager of the Pacific American Fire Insurance Company, show that since the beginning of operations on December 1, 1928, the Los Angeles concern has written gross premiums of \$441,340.89, of which it has retained net, after reinsurance, \$212,508.86.

Admitted assets as of May 31, 1929, were \$1,822,750.06, which represents an increase in the six months' operations of \$582,750.06, of which \$255,000 was derived from the sale of additional stock in the purchase of the Acme Fire Insurance Company and \$327,750.06 from investments and underwriting.

Total income of the company from premiums and investments was \$371,598.02. Disbursements total \$103,432.38, leaving an excess income over disbursements of \$268,165.64. The \$188,629.56 is allocated to reserves, leaving a net additional to surplus from underwriting and investments of \$79,536.08.

The Pacific American Fire Insurance Company originally started operations in California; it now has entered Oregon, Arizona and New Mexico, and within the next sixty days will probably enter several other western States.

Upper New York State Utilities in Huge Merger

NEW YORK, June 18. (Exclusive)—Formation of another huge utility merger, a \$600,000,000 holding company to link three of the largest utility operating companies in upper New York State, was announced today by J. P. Morgan & Co.

The deal, which is being effected within the next six months, starting with the formation of the United Corporation in December, and including the big Northeastern and Southern corporations about two weeks ago.

The company formed today will hold large interests in the great Mohawk-Hudson Power Corporation, operating power plants distributing light and power throughout the Mohawk Valley from Schenectady north and west; the Northern Power Corporation, covering the territory farther north to Lake Ontario, west to the Adirondacks, and the powerful Buffalo, Niagara and Eastern Power Company, tapping the Niagara River for its power source and supplying not only its immediate territory, but sending power east as far as Boston and south to other companies through interconnecting high-power lines.

Edison Unit to Boost Capital

CHICAGO, June 18. (Exclusive)—Commonwealth Edison Company directors today voted to increase the capital stock 12 1/2 per cent. Stock is to be offered to shareholders later in the year at par, it was stated. This action is subject to approval of the Illinois Commerce Commission.

On approval of the increase and the issuance of the additional shares, the company will have outstanding \$146,831,000 of capital stock of an authorized total of \$150,000,000. At present prices of the stock, rights to subscribe at par in the ratio of one for eight would be worth about \$17.75 a share to stockholders in excess of \$23,000,000.

PHOTOCOLOR PLANS BOOST IN OUTPUT

Photocolor Corporation, one of the two companies now engaged in the manufacture of natural-color motion pictures, announced yesterday its plan at Irvington-on-Hudson, N. Y., will be enlarged and capacity increased to ten times present production, or to approximately 1,000,000 feet of color film per week. This will be accomplished by building new units of the company's color processing machinery under its patents. Plans for a larger studio, which is said, will be one of the best equipped in the world for producing color and talking films, have been authorized and are under way.

COTTON MARKET

NEW YORK, June 18. (AP)—Reports of favorable weather in the South and of improving crop conditions seemed reasonable for an easier tone in cotton today. Trading was very quiet, but prices worked slowly lower. Realists or liquidation and a little commission house selling. The mid-afternoon market was about 10 to 15 points net lower.

BANK SENTIMENT SHIFTING

Drift Toward Centralization of Authority Held Increasing in United States

BY JOHN F. SINCLAIR
(Copyright, 1929, by North American Newspaper Alliance)

NEW YORK, June 18.—There is some sentiment in certain banking circles for revamping the Federal Reserve system and modeling it more closely along the lines of the Bank of England. Today the Federal Reserve system is run by 108 directors (nine directors in each of the twelve banks).

In addition to these directors must be included the eight members of the Federal Reserve Board at Washington, making a total of 116.

When an important matter of policy is decided upon there is almost sure to be a wide difference of opinion in the present reserve system. Not so in the Bank of England.

Of course, the Bank of England stands at the head of a closely knit banking system in which the bulk of the country's resources are in the hands of five banks. None of them, however, has the right to issue bank notes, which is the sole prerogative of the Bank of England. Tradition gives the Bank of England a history of 225 years, it is unified in control, and its cohesion is relatively easy. It is often said that the American central bank directors are sometimes subject to political influences, yet the Bank of England has also had much criticism in recent years, but lately, through Sir Joshua Stamp and Sir Basil Blackett, it has helped to allay the feeling that it is not representative of the commercial interests.

Nevertheless, the Federal Reserve system, when organized, had to consider the fact that there were 77,880 independent and distinct banking units in the United States at the time.

Should the branch bank system come into vogue in the United States, unification of the central banks naturally would follow. Until then, it is rather doubtful if any great change will be made in the organization.

The change toward unification in banking authority is already under way in the United States.

Daily Output of Oil Shows Gain for Week

NEW YORK, June 18. (AP)—The daily average gross crude oil production in the United States increased 12,800 barrels for the week ending the 15th inst., totaling 2,743,250 barrels, according to the weekly summary of the American Petroleum Institute. The daily average production east of California was 1,577,959 barrels, a decrease of 1000 barrels.

Daily average imports of petroleum:

	Barrels	Value
Alaska	12,000	\$1,200
Canada	12,000	\$1,200
Guatemala	12,000	\$1,200
Mexico	12,000	\$1,200
Venezuela	12,000	\$1,200
Other	12,000	\$1,200
Total	12,000	\$1,200

Daily average exports of petroleum at principal ports for the week ended the 15th inst. compared with the previous week and 1928:

	Barrels	Value
Alaska	12,000	\$1,200
Canada	12,000	\$1,200
Guatemala	12,000	\$1,200
Mexico	12,000	\$1,200
Venezuela	12,000	\$1,200
Other	12,000	\$1,200
Total	12,000	\$1,200

MARKET SHOWS REACTION SIGNS

Profit-taking Believed Omen of Technical Setback

General Run of Prices Highly Irregular at Close

Midyear Demand for Credit Curb on Speculation

NEW YORK, June 18. (AP)—The recovery in stock prices, which has been under way for a fortnight, showed signs of petering out today on the approach of the expected midyear credit stringency. While the bulk of the day's activity was on the side of rising prices, with at least a score of issues pushed into new high ground, professional traders look for a lull in the late trading on the belief that the market was entitled to at least a technical reaction. Closing quotations disclosed marked irregularity.

Resumption of the flow of gold from Great Britain to New York, with takings of \$7,000,000 reported in London today, was one of the most important financial developments of the day. This was expected to alleviate the midyear credit strain which has become decidedly involved this year through the calling for payment of more than a billion dollars in stock subscription "rights."

MONEY STEADY

Call money held steady at 7 per cent all day, with a fair supply available due to the heavy accumulation of funds here by large corporations in preparation for July 1 disbursements, but bankers look for a stiffening within the next day or two. Time money showed further relaxation, with all maturities available at 8 per cent. Widespread publicity was given to a statement by Arthur Reynolds, Chicago banker, that a relaxation of the Federal Reserve Board's credit policy was likely in order to facilitate the movement and storage of crops.

Official announcement was made of the organization of the third large public-utility holding company by J. P. Morgan & Co. This apparently stimulated the demand for the public-utility and electrical equipment issues, new high records being established by American Power and Light, American Water Works, Consolidated Gas, Public Service of New Jersey, Standard Gas and Electric, General Electric and Westinghouse manufacturing. Profit-taking cut down some of the gains.

AVERAGES UP

The Associated Press index of twenty leading public utilities registered another new high record, on a gain of nearly 4 points. The index of fifty industrials and twenty railroads showed small net declines.

(Continued on Page 14, Column 1)

Intercontinentals Power Company

\$7 Cumulative Preferred Stock, First Series

With Class A Common Stock Purchase Warrants Attached

THE Company, backed by Westinghouse and other interests, supplies electric light and power to a section of Chile and the Argentine which is especially rich in its possibilities for public utility development.

Net and gross income have approximately doubled in the time since the present management assumed control, indicating the economies of operation and consequent increased profits which can be expected.

Each share of Preferred Stock carries a warrant providing for the optional purchase of three shares of Class A Common Stock at prices which can readily render it of value.

Preferred dividends were earned 2.84 times for a recent twelve months' period, after all charges including depreciation.

Equities for the Preferred Stock are estimated at \$170 per share.

If you will communicate with this office by telephone or by means of the coupon we shall be glad to furnish additional information.

NEW YORK BOND PRICES

NEW YORK, June 18. (AP)—Dealing in two convertible issues, American Telephone & Telegraph 4 1/2% and International Telephone & Telegraph 4 1/2%, both of which were sold at a premium of 10 to 15 points, were the only bonds to show a rise today. The two telephone bonds accounted for nearly one-third of the total business for the day.

Other convertibles also found higher ground, notably Public Service of New Jersey 4 1/2%, which made a new high at 117 1/2, after a rise of 5 points, thus more than recovering yesterday's slump. Sales of this bond, however, were small, with time money at 8 per cent for all maturities, other sections of the list responded to somewhat better sentiment with the result that the combined volume of representative issues moved up. Utility bonds and steel company obligations absorbed most of the interest, and although selling depressed quotations in some cases the trend was to slightly higher ground.

Among the utilities, strength developed in the group of electric, gas, water and telephone bonds. The New York Central & Hudson River 4 1/2% was sold at 108 1/2, after a rise of 1/2 point, and the Pennsylvania 4 1/2% at 107 1/2, after a rise of 1/2 point. The industrial list was marked by activity in some of the steel issues, and the price changes were mostly upward. The Carnegie Steel 4 1/2% was sold at 107 1/2, after a rise of 1/2 point, and the Youngstown Sheet & Tube 4 1/2% at 107 1/2, after a rise of 1/2 point. The Bethlehem Steel 4 1/2% was sold at 107 1/2, after a rise of 1/2 point, and the American Steel & Wire 4 1/2% at 107 1/2, after a rise of 1/2 point.

The quotations represent sales of bonds (in thousands of dollars) and the high and low closing prices in the order given. To expedite transmission, the close is omitted when the same as the low, and both low and close when same as high.

Common Stock (no par value)	180,000 shares	123,870 shares

THE COMPANY HAS NO FUNDED DEBT

Mr. William Wallace Mein, president of the Calaveras Cement Company, in his letter to the undersigned, has summarized the affairs of the Company, as follows:

Business: The Calaveras Cement Company was incorporated under the laws of Delaware in January, 1925, and commenced operations in June, 1926. It manufactures a high-grade quality of cement sold under the trade name of "Calaveras." The Company is now one of the three largest producers of cement in northern California and distributes its product in California from the Tehachapi north, in southern Oregon and in western Nevada. It has developed a substantial and growing dealer business throughout this territory.

Properties: The Company's plant, located in Calaveras County one mile from San Andreas and approximately forty miles east of Stockton, is the latest design of "wet process" type and is equipped with the most modern Allis Chalmers machinery throughout, and with properties represents an investment of \$2,294,772. It has a daily capacity of 3,300 barrels. The developed and proven raw material resources owned by the Company consist of 3,000 acres on which Frank H. Probert, Dean of the College of Mining, University of California, estimates there is sufficient tonnage reasonably assured to supply raw material to the plant working at present capacity for more than 150 years. The plant is served by the Southern Pacific Railway.

Earnings: Net earnings, after deduction of all charges including depreciation, depletion and provision for Federal income tax, as certified by Messrs. Price, Waterhouse & Co., have averaged in excess of \$315,000 per annum for the two years and ten months' period of the Company's operation. Similar net earnings for the year ended December 31, 1928, were \$636,361, or over four times the dividend requirements on the now outstanding shares of preferred stock. Net earnings for the first three months of 1929 were \$214,762, or more than five and one-half times the preferred dividend requirements for this period.

On the basis of present capitalization net earnings on preferred and common shares for the periods shown below were as follows:

	Annual average (12 months ending December 31, 1928)	12 months ending December 31, 1928	First 3 months 1929
Preferred shares	\$14.41	\$29.03	\$9.50
Common shares	1.31	3.90	1.42

Earnings as shown above for the year ended December 31, 1928, and for the first three months of 1929, were particularly favorable owing to an unusually large volume of business made available to the Company through its contract with the East Bay Municipal Utility District, and earnings at this rate are not expected to continue. In the opinion of the management, however, net earnings for the calendar year 1929 will be substantially in excess of the average annual earnings of the Company to date.

Assets: In the balance sheet, as of March 31, 1929, as certified by Messrs. Price, Waterhouse & Co., all assets are carried at actual cost figures, and total net assets as shown therein are \$2,789,353. The ratio of current assets to current liabilities is more than four to one.

Management: Management of the Company's affairs is in the hands of the following executive officers: William Wallace Mein, President; Stuart L. Rawlings, Vice-President; G. B. Poore, Vice-President; Arthur B. Shelby, General Manager; Harry Probert, Treasurer; William Schnauffer, Jr., Secretary. Directors—William Wallace Mein, Stuart L. Rawlings, G. B. Poore, Arthur B. Shelby, Lloyd Baldwin, S. Waldo Coleman, Robert F. M. Duncan, W. L. Honnold, Harvey S. Mudd, Frank L. Taylor, R. C. Warriner, E. L. Wilhoit.

Legal proceedings incident to the formation of the Company have been approved by Messrs. Chickering & Gregory, San Francisco. Earnings and balance sheet certified by Messrs. Price, Waterhouse & Co., San Francisco. Temporary certificates for both preferred and common stock deliverable immediately.

Company will make application in due course to list both Preferred Stock and Common Stock on the San Francisco Stock Exchange

First Mortgage 6% Convertible Gold Bonds, due 1954
Each \$1,000 principal amount, of Bonds will be accompanied by a Warrant entitling the holder to receive on January 1, 1930, without cost, 10 shares of Common Stock, without par value. of

(Incorporated in Delaware)

Bonds to be dated as of July 1, 1929

Interest payable January 1, and July 1 Principal and interest payable in United States Gold Dollars of the present standard of the Head Office of The National City Bank of New York; also collectible, at the option of the holder, at the City Office of The National City Bank of New York, in London, England, in sterling, or at the Amsterdamsche Bank, in Amsterdam, The Netherlands, in guilders, in each case at the then current buying rate of such bank for sight exchange on New York. Principal and interest payable without deduction of any Chilean taxes or (except in the case of collection in London) British taxes; interest payable without deduction for the normal U. S. federal income tax not in excess of 3%.

Coupon Bonds in the denomination of \$1,000 each, registrable as to principal only. Redeemable, at the option of the Company or through operation of the Sinking Fund, as a whole or in part, on any interest payment date, upon 60 days' prior notice, at 105% of the principal amount thereof.

The following information has been summarized by Mr. Jorge Oscar Herrera, Chairman of the Board of The Lautaro Nitrate Company, Limited, and Mr. E. A. Cappellet Smith, President of Lautaro Nitrate Corporation and of Anglo-Chilean Consolidated Nitrate Corporation:

The Lautaro Nitrate Company, Limited, the largest present producer of Chilean nitrate, owns approximately 418 square miles of land in Chile, conservatively estimated to contain approximately 30,000,000 metric tons of nitrate recoverable under the Shanks process. The Company owns 26 plants equipped to operate under the Shanks process which is the process exclusively used in Chile with the sole exception of the Maria Elena plant of Anglo-Chilean Consolidated Nitrate Corporation, which operates under the new Guggenheim process. Ten of the Company's plants are in present operation, producing at the annual rate of approximately 300,000 metric tons. The cost of production in these plants is believed to be as low as that attained by any other nitrate company in Chile, except Anglo-Chilean Consolidated Nitrate Corporation, and considerably below the average for the industry.

Anglo-Chilean Consolidated Nitrate Corporation will guarantee completion of the new plant free of any liens prior to the lien in favor of the First Mortgage 6% Convertible Gold Bonds, due 1954. The Bonds will also be secured by mortgages on certain nitrate lands, estimated to contain approximately 7,800,000 metric tons of recoverable nitrate, subject to the mortgages securing the two issues of 6½% First Mortgage Debenture Stock outstanding in the aggregate principal amount of \$2,246,125 (\$10,980,767.31). The Trust Indenture will provide for a Sinking Fund to operate semi-annually, commencing in 1933, and sufficient to retire the entire issue of First Mortgage 6% Convertible Gold Bonds, due 1954, by maturity.

Each \$1,000, principal amount, of Bonds will be convertible at the option of the holder, at any time on or prior to July 1, 1933, or, in the event of earlier redemption, on to and

The Company proposes to erect on its property a plant for the extraction of nitrate under the Guggenheim process. The new plant will be designed for an ultimate capacity of 140,000 tons of nitrate per annum and, it is expected, will be in complete operation not later than July 1, 1932. The experience of Anglo-Chilean Consolidated Nitrate Corporation has shown that the quantity of nitrate recoverable from a given area of average nitrate land is about 100% more, and the unit production cost about 40% less, under the Guggenheim process than under the Shanks process.

The sale of the present issue of Bonds will provide the Company with funds which, it is estimated, will be sufficient to construct and equip the new plant and to provide working capital therefor. Upon completion of the present financing, the capitalization of the Company will be as follows:

Authorized Outstanding

First Mortgage 6% Convertible Gold Bonds, due 1954—This Issue	\$32,000,000	\$32,000,000
2% First Mortgage Debenture Stock, due 1940	\$1,500,000	\$1,119,748*
2% First Mortgage (Antofagasta) Debenture Stock, due 1940	\$1,500,000	\$1,126,380*
6% Cumulative Preferred and Sterling Shares (Par Value \$25 per share)	\$8,000,000	\$8,000,000†
6% Cumulative Preferred (Dollar) Shares (Par Value \$100 per share)	\$32,000,000	†
Ordinary Shares (2,000,000 shares of 1 shilling)	£100,000	£100,000
*Balance of authorized issue retired through sinking fund operations to June 1929, and not resuable.		
†Entire authorized issue reserved for conversion of the First Mortgage 6% Convertible Gold Bonds, due 1964.		

the entire issue of 2,000,000 Ordinary Shares of the Company will be owned by Lautaro Nitrate Corporation, a Delaware Company. The authorized and outstanding capitalization of the Delaware Company will consist of 4,000,000 shares of Common Stock, without par value, of which Anglo-Chilean Consolidated Nitrate Corporation will own over 50%. The firm of Guggenheim Brothers owns substantially more than a majority of the Common Stock of Anglo-Chilean Consolidated Nitrate Corporation.

The First Mortgage 6% Convertible Gold Bonds, due 1954, will be secured, in the opinion of counsel, by first mortgages, in accordance with Chilean law, on the new plant to be constructed and on approximately 40 square miles of nitrate lands available to the plant and estimated to contain approximately 13,800,000 metric tons of nitrate on the basis of estimated recovery under the Guggenheim process.

Application will be made to list these Bonds, with warrants, on the New York Stock Exchange

offer these Bonds if, as and when issued to and received by us and subject to necessary shareholders' action and to the approval of all legal proceedings by our counsel, Messrs. Shearman & Sterling, of New York City. It is expected that delivery in the first instance will be made on or about July 2, 1929, in the form of interim receipts of The National City Company, exchangeable for temporary or definitive Bonds, with warrants, when prepared.

Price 99 and Interest

A substantial portion of this issue has been withdrawn for sale in Europe, including \$1,000,000 which is being publicly offered by the Amsterdamsche Bank, Amsterdam.

The National City Company

Bankers Company of New York Brown Brothers & Co. Lehman Bros.
Continental Illinois Company

The above information has been obtained, partly by cable, from sources which we consider reliable. We do not guarantee, but believe it to be correct. Commissions of the Government to form bonds, resulting into United States Dollars have been made at the rate of \$4.0000 to the pound.

Capital Stock

COMMERCIAL AIRCRAFT CORPORATION

THE Commercial Aircraft Corporation has been organized for the purpose of engaging in the manufacture of an all steel 6-place cabin biplane known as the "Sunbeam." This machine will be placed on the market to sell for \$13,500...a remarkably attractive price that places the company in an advantageous competitive position.

The factory is located at the Los Angeles Metropolitan Airport. The company owns a site of 2.3 acres on which has recently been completed the factory building. The company is already in production with orders and contracts coming now on hand.

public is invited to visit the factory to inspect the manufacturing facilities and activities of the company, and to see the completed "Sunbeam" in operation. If you will telephone WA ndika 6103, we will gladly arrange to call on you without obligation.

...valuation securities we consider this to be one of the best buys on the market today. Although speculative, remarkable possibilities for profit are offered.

Officers and Directors

President: Col. Wm. N. Griffith, former President Queens County Trust Co., New York. Former Secretary to ex-Governors Odell and Black of New York State. Chairman of Financial Committee of the Presbyterian Synod of Southern California.

Vice-President: Charles R. Francis, Chicago attorney, retired capitalist, member of the Illinois Tax Commission.

Treasurer: Maj. Roy S. Younglove, Air Service, United States Reserve Corps, formerly technical engineer, Illinois Steel Corporation, Director

Secretary: John S. Clow, Pacific Coast Representative, Crowell Publishing Co., Capitalist, Chairman,

Altadena Business Men's Ass'n.
Directors: Nicholas W. Hacker,
Banker and attorney at law, formerly
chief counsel Lehigh Valley R. R.;

Chas. B. Wheeler, New York Capitalist; Frank P. Comstock, Chicago Capitalist; Ridgley Rhea, retired coal operator of Chicago; J. Ernest Wheatcraft, formerly general contractor of Chicago.

MARKET SHOWS
REACTION SIGNS

Continued from Thirteenth Page

Trading continued moderately heavy volume, the day's sales falling just below 3,500,000 shares. Despite the fact that second-quarter earnings of the General Motors Corporation are expected to set a new record for that company, the first half year earnings of other manufacturers are likely to make a comparison with the same period a year ago, the motor shares showed signs of heaviness. Selling pressure was based on the theory that the increasingly keen competition may bring about price cuts, and impair profits in the last six months. Graham Paige, in which a new pool has just been formed, was a conspicuous exception, retaining 2 1/2 points of its extreme gain of 4 points. General Motors, Chrysler and Studebaker lost a point or more and Auburn dropped 3/4.

LOCOMOTIVE JUMPS

Further selling also developed in such recent favorites as Commonwealth Power, Lago Oil, Michigan Steel, Montgomery Ward, National Distillers, Murray Corporation, Seaboard, T. C. Shackelford, United States Industrial Alcohol and Wright Aeronautical, all off 2 to 4 points.

Baldwin Locomotive, which had shortly announced a 4-for-1 stock split-up, according to current rumors, jumped 1 1/2 points. A. M. Byers, International Telephone and R. H. Macy also were conspicuously strong.

OPPORTUNITY
PRIVATE

COLLEGE man
PREFERRED

A college education is not absolutely essential to success, as the careers of many illustrious men have proved. Nevertheless, a careful comparison shows that success and even distinction come many times easier to the college graduates.

Almost every intelligent parent who realizes this plans to give his children the advantages of college training and associations.

Let us tell you of a simple, common-sense plan whereby any systematic investments will be returned, greatly increased by compound interest, in substantial annuities sufficient to support your children during their years at the college. If you will follow this plan we ASSURE your success.

Fill out the coupon below for full details and for our financial statement showing resources of more than \$27,000,000.

The first essential of successful investment is by intelligent comparison.

After analyzing the financial structure of innumerable companies engaged in the aviation industry, our Statistical Department has prepared authoritative, detailed reports on the condition of the above-named securities.

Deal in Facts—Don't Guess

What aviation stocks are you now holding?
Should you hold—buy more or sell?
What should you buy?
What should you sell?
What should you hold?

We can settle these problems by intelligent comparison. Call, write or telephone and we will mail you copy of report of above-named companies.

DAILY EASTERN CITRUS MARKETS

(By the Associated Press.)
Circuit shipments of California citrus fruit to the California Fruit Growers Exchange from railroad passing reports were reported as follows:

SOUTHERN CALIFORNIA		CENTRAL CALIFORNIA		NORTHERN CALIFORNIA	
June 17	June 18	June 17	June 18	June 17	June 18
Season to date	104	Season to date	170	Season to date	170
Last season to date	25,000	Last season to date	25,000	Last season to date	25,000

California oranges and lemons generally were higher, and middle western section citrus generally lower, with some points reporting unfavorable price trends.

Analysis of trading developed the following price ranges per box:

Tax on Stock Sales Sought

WASHINGTON, June 18. (Exclusive)—Senator Glass of Virginia today introduced in the Senate an amendment to the tariff bill to restrict speculation on stock exchanges.

The amendment provides a tax of 5 per cent on all shares of stock sold on stock exchanges within sixty days of purchase.

OIL NEWS

BY PORTER FLINT

The Barnard-Rio Grande combination is reported to have started a submarine oil-drilling campaign along the coast of the Elwood oil field, and indications are that the interests of that company will be greatly increased.

According to the report contrast has been set for construction of a mile and one-half of beach road protected for practically the entire length by a sheet-piling sea wall and five 250-foot steel drilling piers running out from the road.

Two of the piers are now under construction. Under the time limits of State leases for this offshore drilling it will be necessary to have the other three piers constructed and drilling under way before the check on the first completed pier is ready for operation.

The Honolulu, Hanklin and Pacific Western oil companies have submitted a plan for drilling under way, it is asserted, calling for an expenditure of approximately \$250,000.

Project Watched

Failure to pick up a favorable formation in the Ring Oil Company's No. 1 well in the Palmdale tract, three miles west of Santa Barbara, has placed other operators there in a watchful-waiting mood, according to field reports.

Ring's project has been drilled to a depth below 2250 feet and is a short distance away. It had showings at 2250 feet, stopped drilling at 2435 feet and plugged back to about 2245 feet, where production was obtained.

The Major Oil Company's No. 1 well in that same area is drilling ahead below 1800 feet and is the next deepest project on the coast.

The General Petroleum Corporation's Wheeler No. 1, situated on the Wheeler lease just west of the Alameda Oil Company's No. 1 and situated in the Palmdale tract, is in addition is drilling ahead below 100 feet.

New Improvements

Improvements consisting of new condensers and cooling sections, as well as fractionalating towers and gas lines costing approximately \$100,000, have been completed at the Los Angeles refinery of the Macmillan Petroleum Corporation.

The fractionalating towers, which were designed by E. E. Bower, general superintendent, are said to increase the percentage in gasoline extraction and give the company a finer cut between gasoline and kerosene. The same type of tower has been installed in the Borge (Tex.) and El Dorado (Ark.) refineries of Macmillan, and the results are said to be highly satisfactory.

Successful Operation

The Union Oil Company recently suspended operations on its Johnson No. 1 well, situated at the north end of the present Lavaca field. This project was drilled to a depth of 6400 feet without picking up any favorable formation, it is reported.

The Henry No. 1, No. 2 and No. 3, all in that same general area, have been idle for some time. These were drilled to about 6000 feet. Although Union has not announced intention to abandon any projects there it is said they will remain suspended for the time being pending further developments in this district.

On the Pump

The Max Gray No. 1, at Potters, is reported to be putting out approximately 250 barrels of oil per day. Tubing is set to 3215 feet, with bottom of the hole at 3331 feet.

Reports are that the producing formation is about fourteen feet thick and that the oil is clean.

The Associated Oil Company's Potters No. 1, situated on the Potters Country Club grounds, which tested several times, has just been recommissioned at 3215 feet and will be given a water shut-off test shortly.

The De Koch No. 1 of the Oryps Oil Company is drilling ahead below 3315 feet in hard gray sand.

Professor Steady

The Rhode No. 1 well of the Rhode & McAdams interests at Santa Fe Springs is putting out 2200 barrels of oil per day along with 7000,000 cubic feet of gas. Bottom of the hole is at 3817 feet.

This project caught fire more than a week ago, but reports indicate that the delay did not interfere with the output.

The Rhode No. 2, first well to get a successful water shut-off in the Rhode sand, is yielding 770 barrels of oil per day. Operators are preparing to clean out the hole in an endeavor to pick up better production.

The Rhode No. 3 near by is drilling ahead below 3600 feet just above the Rhode sand. Pending further development, a new location for another project will remain unselected for the time being.

Deepest Project

The Shell Oil Company's Mesa No. 11 at Signal Hill, deepest active well in the world, is drilling ahead below 5075 feet in a hard shale formation, with streaks of oil sand. Shell's project may be drilled to a greater depth in an endeavor to determine what the formation is like. It is nearly 200 feet deeper than the Texaco Oil and Gas Company's well in Western Texas at one time the deepest well, which is putting out about 2000 barrels of oil per day from a depth of 5035 feet.

In Hard Shell

Hard shell formation has been picked up in the Continental Oil Company's Kittle O. Ballard No. 1 well at Carpinteria, according to field reports and considerable gas is in evidence in the hole.

Eight and five-eighths-inch casing may be landed soon, with bottom of the hole now below 3315 feet. This project is situated across the road from the Franklin No. 1, a wildcat, which caused some concern when gas was encountered some 1000 feet below the surface.

Interesting Formation

About six feet of oil sand is reported to have been penetrated in the Western Gulf Oil Company's Hollister No. 1 wildcat, at Point Conception. Ten and three-quarter-inch casing has been set and cemented at 3035 feet.

New Location

The Chandler-Casfield Midway Oil Company is reported to have made location for its Hobson No. 2-3 wildcat, situated on the north-west quarter of Sec. 23, 2-24, at the corner of the Ventura-avenue field.

This project is farther east than any other in the area, and has in prospect the Palmdale tract, which is about three-quarters of a mile east of the No. A-1, which had showings, and a short distance away from the Hobson No. 2-1.

Day's Dividend List Reported

NEW YORK, June 18. (Exclusive) The following dividend declarations were reported today:

Swets Company of America, regular quarterly dividend of 10 cents, payable July 15 to stock of record the 15th inst.

Madison House Corporation, regular quarterly dividend of 20 cents, payable July 15 to stock of record the 15th inst.

American Pacific Corporation, regular quarterly dividend of 10 cents, payable July 15 to stock of record the 15th inst.

California Bank Honors Beckham

Appointment of E. A. Beckham as manager of the Lomita branch of the California Bank was announced yesterday by Arthur T. Brett, cashier. Mr. Beckham, whose home is in Lomita and who takes up his new duties immediately, was assistant manager of the Lomita branch after the Bank of Lomita was taken over by the California Bank in 1926, but for some time has been assistant manager of the Sixth street branch. He succeeds L. J. Hunter who resigned to manage his private interests.

Marland Holders Sanction Merger

NEW YORK, June 18. (Exclusive) At a special meeting of the Marland Oil Company in Wilmington, Del., stockholders approved acquisition of the assets and properties of Continental Oil Company through an exchange of 2,217,500 capital shares of Marland Oil Company. Stockholders approved an increase in the authorized capital from 2,000,000 to 4,000,000 no par shares and change in the name from Marland Oil Company to Continental Oil Company.

Stinson Brake Sold to Bendix Aviation

NEW YORK, June 18. (Exclusive) Bendix Aviation Company has purchased outright for cash all claims and patents to Stinson brake-control mechanisms, according to E. A. Stinson, president of the Stinson Aircraft Corporation. Stinson company will continue to manufacture brake control under sale agreement and Bendix patents or other patents owned or controlled by Bendix company may be incorporated in Stinson design.

New Dean-Witter Unit Open Today

Dean Witter & Co. today will open a branch office in Hollywood under the management of Alfred Millard. The company is represented by memberships on the New York Stock Exchange, the Los Angeles Stock and Curb exchanges and the San Francisco Stock and Curb exchanges.

New Directors Named

BOSTON, June 18. (Exclusive) Percy E. Harding, Roland O. Forster, Morris Joseph and Samuel Joseph were added to the directorate of the First National Stores at the annual meeting today. Other directors were re-elected, and Bernard F. McQuirk and Morris Joseph were made vice-presidents.

Illinois Call Loan Rate Bill in Effect

CHICAGO, June 18. (Exclusive) Gov. Emmerson at Springfield today signed the call-money bill which will put Chicago on an equal basis with the New York call-money market, allowing more than 7 per cent to be charged for call money. The Chicago Stock Exchange plans for establishing a call-money post are nearing completion.

Metal Markets

Don Lee Staff to Entertain

Studio Dance Band, Assisted by Artists, Billed

Australian Tenor in Debut at KEJK Tonight

Melodies of Bygone Days to Be KGER's Offer

BY DR. RALPH L. POWER

A colorful popular program is billed for the Don Lee station, KEJK, at 8 p.m. today, with the studio dance band and staff artists in the title roles.

The station's blues singer, June Parker, will live up to her reputation with "Big City Blues" and "Melody Man" as two of her numbers. Leigh Hartline and Nell Larson will give an organ and piano duet, "Dance of the Paper Dolls," while the orchestra will play symphonic arrangements of "Coquette" and "Tiger Rag."

The KEJK singers with piano and organ will offer "I Get the Blues When It Rains."

MUSICAL COMEDY

Norman Bennett, Australian tenor, is making his radio debut over KEJK tonight on the musical and light opera program, commencing at 8:30 o'clock. Some of his numbers will be of the solo type while others will carry an orchestral accompaniment.

Bennett is well known in Australia, where he appeared in concert recitals with Percy Grainger, Australian pianist-composer.

The musical comedy and light opera program at KEJK will be continued during the summer months each Wednesday and Friday at 8:30 p.m., according to the station staff.

OLD-TIME SONGS

Other talent over local stations will include KMET, which has an instrumental sextet at 8 p.m., assisted by Joseph Delany, Hungarian tenor, in solo numbers.

At the same time KMX will present the distinguished Lubovitski instrumental trio, and at 9:30 KEJL will have the Sturback Choral Club in its studio for a half-hour recital.

Melodies of bygone days is the theme program at 8 o'clock for KGER at Long Beach while KTH at 8:30 is scheduling a travelogue with musical interpretations by the studio concert ensemble and a vocal soloist.

TEMPERANCE ORDER PLANS PROGRAMS

Eva C. Wheeler, State president of the Woman's Christian Temperance Union, will speak over KMX from 11 to 11:30 a.m. Friday. The talk will inaugurate a series of programs to be broadcast every Friday at the same time by the temperance organization in support of President Hoover's law-enforcement efforts.

CAROLINE MARKET UNCHANGED

CHICAGO, June 18. (Exclusive) Motor grade, 6 1/2 to 8 cents; foreign in good water, 6 1/2 to 8 cents; fuel oil steady, 14-16 cents; 6 1/2 to 70 cent.

DRIED FRUITS

NEW YORK, June 18. (Exclusive) Dried fruit steady and unchanged.

City of Los Angeles

(Hollywood Business District)

Street Improvement Bonds

Issued under the Opening and Widening Act of 1911
Legality approved by Mr. William M. Brown, Los Angeles

ISSUED FOR—

These bonds were issued by the City of Los Angeles to pay for the condemnation of property incident to the opening and widening of Cahuenga Blvd., Ivar Avenue, Yucca Street, Wilcox Avenue and Cole Avenue—better known as the famous Five Finger Plan to open and widen integral arteries for the purpose of relieving Hollywood traffic congestion.

SECURITY—

The finest business and semi-business and residential property in the very heart of the Hollywood shopping area

comprises security for these bonds which constitute an underlying first lien on specific properties ranking prior to first mortgages, present or future, and all other liens of every description except general taxes. Such properties as the new B. H. Dyer Department Store, Taft Office Bldg., Guaranty Bldg., Security First National Bank Bldg., Bank of Hollywood Bldg., Hollywood Citizen Bldg., Vine Street Theatre, Warner Bros. Theatre, Mullen & Bluet Bldg., and shops of I. Magnin, Roos Bros., Fuller Paint Co., Wetherby-Kayser and a host of others are situated in the assessment district.

Bonds are issued in denominations ranging from \$51.99 to \$27,988.80 with maturities running from one to ten years, one to twenty years and one to thirty years

Priced to yield 6.02 to 6.32%

Exempt from California Personal Property Tax and Federal Normal Income and Surtax

These bonds are offered for immediate delivery subject to prior sale. Mail and telegraph orders will be filled in the order in which they are received

CITY NEWS—EDITORIAL—SOCIETY—THE DRAMA

OLYMPICS POETRY PRIZE WINNER HERE

Casimir Wierzyński

POLANDERS WELCOME TRAVELERS

Olympics Poet-Laureate, Casimir Wierzyński, Here After Tour of East

Casimir Wierzyński, poet-laureate of the Olympics and winner of the Olympic award in 1928 in the poetic division of literary competition, was given a typical Polish reception on his arrival here yesterday.

Leading the delegation of countrymen and friends who greeted the poet at the Santa Fe station yesterday afternoon was Mrs. Janina Smolinski, Parisian star in the Folies Bergere, an acquaintance of long standing. The delegation from the Polish colony of California was headed by W. H. Miller, commissioner of the Polish national allies of California and Arizona.

The Olympic champion, who has just completed a tour of the East, will remain here several days, during which time he will be heard next Thursday at the South Park Auditorium under the auspices of the Polish Society.

Miss Smolinski, herself a recent arrival in America, came over as "Miss Poland" to compete in the international beauty contest at Galveston, but withdrew when controversy arose there. Others at the station to greet Mr. Wierzyński included Walter Orszowski, also an official of the Polish National Alliance; John Roman, Adam Kowalski, Mrs. Kudlicka and Mrs. Stefanowska.

Water Pageant Date Announced

"The Enchanted Pool," Los Angeles annual playground pageant put on by the combined efforts of all the municipal playgrounds, will be presented this year on the 26th and 27th inst., according to the announcement of Superintendent of the Department of Recreation.

This dramatic presentation will be produced along similar lines to that of last year. Its allegorical plot, which features small children in the parts of frogs, salamanders and other water creatures, will be enlarged and rendered more colorful with unique costumes.

LONG WEDDED LIFE ENDS

After nearly twenty-four years of married life, Mrs. Betty Lyons appeared before Superior Judge Wilson yesterday and asked for a divorce from John T. Lyons on the grounds of abandonment. The decree was granted. Mrs. Lyons declared she married Lyons at Casaville, Mo., March 15, 1897. Her husband left her in 1910. There are five children, all grown.

GRIMES 'BRIBE' FACES QUIZ

Attorney for Woman Will be Called Before Grand Jury on Assertions Against Councilman

Leo Dase, attorney for Mrs. Callie Grimes during her trial five years ago, and present police officers on charges of "framing" the arrest of Councilman Jacobson on a morals charge, will be subpoenaed to appear before the grand jury Friday afternoon to produce proof of his assertion during the trial that he has evidence that Councilman Jacobson had sought to influence Mrs. Grimes' testimony.

This announcement was made "Old Ironsides" near Catalina two years ago. During the noon hour members of the grand jury saw the motion picture at the Paramount studios at slow speed to obtain the camera's version of how the accident occurred.

Investigation of charges made by Pete Roman that he was severely beaten by District Attorney's investigators while being arrested and by Mitchell Menden that a policeman struck him while arresting him for a traffic violation also is being carried out by the grand jury. It was revealed, however, that numerous additional witnesses will be called before a decision is reached in the matter.

AVIATION AIMS TOLD TO WOMEN

Mrs. Willebrandt Addresses Biltmore Meeting

Flying Broadens Spiritual Horizon, She Says

Former Prosecutor Favors One-Engine Plane

Aviation is doing a far greater thing for America than merely providing quick transportation. Mrs. Mabel Walker Willebrandt, Washington counsel for the Aviation Corporation, told the members of the Women's Aeronautic Association at the Biltmore yesterday.

"It is inspiring America to a spirit of achievement that is developing as rapidly as the mechanical side of the industry," said the former assistant United States Attorney General.

"Our last frontiers were physical, the forest, the mountains. Aviation has brought us a new one, an intangible one, the horizon, which challenges us in the direction of the spiritual. Old fears and traditions are being shed and a new inspiration has come to us. Aviation is doing that spiritually for the nation. We have recognized all the by-products of the industry. It is giving us a new strength for achievements in new directions of effort than the old fears and traditions."

LAUREL CALIFORNIA

The Middle West and the West, she said, will provide the most of the flying until the principal pioneering has been done. California, she said, "is certainly more air-minded than any of the other parts of the country I have been in."

Mrs. Willebrandt said she has been flying about the country for three years. She prefers the single-engine airplane "because it is more interesting than the trimotored machines which go along so smoothly."

Her air experience included, she related, an engine giving out when she was more than a mile in the air above the jagged peaks of the Coast Range in northwestern Washington. The pilot managed to get the engine going after a few moments and with it starting and stopping eventually was able to return to a landing field.

GOES EAST TODAY

Mrs. Willebrandt came here on the first transcontinental rail-air route Monday and is to return today. Her parents who live at Temple, were guests with her at the luncheon meeting. Dean Just Miller of University of Southern California, another guest, described Mrs. Willebrandt as "the most distinguished graduate of our school."

Mrs. Dora Stearns and Mrs. Edna Plummer conducted the meeting.

Tunneling to Halt Oil Well Fire Prepared

Tunneling operations got under way yesterday to allow engineers to throttle the blazing McKee oil well No. 2 at Santa Fe Springs.

The bore was started 100 feet from the main of the well and the tunneling crew plans to strike the pipe approximately sixty feet below the surface. Digging of the bore will be completed within six days.

Today, however, another attempt will be made to cap the outlaw well at the surface. A giant asbestos shield, with men working behind it in asbestos suits, will be moved up within the fire zone as part of the surface fire offensive.

The General Petroleum 137-D well, which came in out of control last Sunday, sanded itself up yesterday morning and a crew was put to work immediately clearing the mud and sand from the hole.

Art Club Dines Noted Painter

The June artists' dinner of the California Art Club, Barnard Park, will be held tomorrow at 6:30 p.m. Guests of honor include Mr. and Mrs. William C. Ostrander, recent arrivals. Mr. Ostrander is a figure painter and decorator of established reputation in the East. At one time he was instructor in the technical school of the Metropolitan Museum of New York.

Old Sol Hits Summer Stride of 88 Degrees

Old Sol poured out a little summertime heat on Los Angeles yesterday. It was 88 deg. by the United States Weather Bureau thermometer at 12:30 p.m. That was the hottest of the day. It was 15 deg. above the normal maximum for June.

But it might have been worse. It was 105 once in June, thirty-nine years ago, the weather man said. Yesterday was the hottest day since May 12, last, when it was 91.

It was just the heat and could not be blamed on humidity because the air was even slightly drier than normal. Not much change for today was expected at the bureau last night.

PURLOINED POP TRACED BY TUMMIES' TANTRUMS

The theft of eight cases of soda pop yesterday resulted not only in four acute stomachaches but also in the arrest of a quartet of schoolboys on charges of larceny and juvenile delinquency. The lads are all pupils at the John Muir Junior High School and all living in the 600 block of West Sixty-first street.

The round-up came about as the result of a complaint made to police of the Seventy-seventh street division by the Golden State Bottling Works, that its plant at 6080

Flying Routs Old Fears, She Says

Aviation Inspires Achievement. Meeting Told Mrs. Mabel Walker Willebrandt addressing Women's Aeronautic Association yesterday at Biltmore. Mrs. Edna Plummer seated at her right and Mrs. Dora Stearns at her left.

SILVERLAKE ROAD COST SET

City Council Lowers Many of Assessments for Work on Cross-Town Traffic Artery

After considerable argument, the City Council yesterday voted to confirm the assessments for the improvement of Silverlake Boulevard, one of the major cross-town arteries. In doing so, the Council lowered the assessments on 225 properties and increased them on seven, the estimated amount, \$21,000, remaining the same.

BERKELEY MAN NAMED FORESTER

Council Appoints Tibbetts When Efforts in Waldo's Behalf Prove Failure

The Council yesterday voted to appoint Halma A. Tibbetts, at present Superintendent of Parks at Berkeley, to the new position of City Forester here, after an effort on the part of Councilman Couden to have selected a Los Angeles man, Raymond B. Waldo, met with failure. The vote was eight for Tibbetts and six for Waldo. Tibbetts, the high man in the civil service examination, was recommended by Councilmen Martin and Randall, a majority of the Parks and Playgrounds Committee. Couden filed a minority report on behalf of Waldo.

Councilman Lewis made a fervent speech in behalf of Tibbetts, declaring that it is a "disgrace" if it is impossible to find in the city of Los Angeles a man sufficiently capable to carry out the duties of the office.

The position pays \$325 per month. It is understood that Mr. Tibbetts, if appointed, will outline a comprehensive tree-planting plan for the entire city. This must receive the approval of the Council.

Tibbetts has been superintendent of parks at Berkeley for a number of years.

Tibbetts scored 92.5 per cent in the civil service examination. Waldo received a grade of 85.5 per cent. The third man on the list, which was certified to the Council for appointment, was Victor G. Anderson. Harold E. George was fourth and Clifton L. Flint fifth.

COUNCIL TO TRADE FOR PLANT SITE

Beach Plot Deal Approved in Order to Obtain Land for Sewage Disposal

The Council yesterday adopted a report of the Health and Sanitation Committee proposing that the city trade a plot of beach frontage south of Venice for an addition to the Hyperion sewage disposal plant. There was no discussion of the matter at the time, but it will be gone into thoroughly when the council comes to the City Attorney's office.

The plot which the city now owns has 780 feet of beach frontage, while the land to be acquired has 857 feet of frontage on the ocean. The proposed acquisition is appraised at \$200,000, but it was stated in the report that it may be acquired for \$150,000, the estimated value of the present city land.

Water-Power Audit Favored

A report of the Water and Power Committee recommending the employment of the auditing concern of Price-Waterhouse of New York to make an audit of the receipts and expenditures of the Bureau of Waterworks and Supply and the Bureau of Power and Light for the fiscal year ending the 30th inst. was adopted yesterday by the Council.

PASADENA DAM BONDS PASSED

Issue of \$10,000,000 Wins by Ten to One

Result Insures City Against Water Famine

Pine Canyon Site Selected; Litigation Probable

By a "Times" Staff Correspondent
PASADENA, June 18.—The \$10,000,000 bond issue to finance construction of an independent dam at the Pine Canyon site in San Gabriel Canyon to increase the water supply of this city was passed by an overwhelming majority at the special election today.

The unofficial returns show that 14,634 voters favored the issue and 1485 were against it. This ratio of almost ten-to-one was recorded from a comparatively small vote, the total registration of the city is 37,889. A two-thirds majority was required to pass the issue.

Samuel B. Morris, chief engineer of the Municipal Water Department, whose foresight resulted in action which gave Pasadena prior water rights in San Gabriel Canyon, announced that specifications of the dam and conduit will be rushed, but that it may be three months before contracts are awarded and construction started.

The official returns show that 14,634 voters favored the issue and 1485 were against it. This ratio of almost ten-to-one was recorded from a comparatively small vote, the total registration of the city is 37,889. A two-thirds majority was required to pass the issue.

MORE TIME NEEDED

Although this city's water permit from the State Division of Water Rights stipulates that construction work must start by July 1, Morris asserted that in view of the passage of the bonds, there will be no difficulty in obtaining the necessary extension of time.

"Due to the fact that the permit from the United States grants the right to flood the area above the dam site was received more than nine months after the State permits were granted," said Morris, "we have had only two months in which to complete financing and start work by the prescribed time limit."

In accordance with the terms of the new State law governing construction of all dams in California more than fifteen feet in height, the plans for this city's dam must be submitted to the State and to the United States Forest Service for approval before bids are submitted.

Water engineers have computed that had the San Gabriel water project failed a serious water famine would have faced Pasadena within seven years. The San Gabriel water project is expected to be completed within three years, but despite this fact, it will be necessary to sink the majority of the city wells in the immediate future to obviate placing conservancy restrictions on the wells. Morris revealed that ten years ago went to a depth of 100 feet are now sunk to the 300-foot level, indicating an overdraw upon the Pasadena water basin in recent years.

SUIT ANTICIPATED

James H. Howard, special water counsel for Pasadena, is of the opinion that seven cities—Monrovia, Alhambra, Glendale, Long Beach, Whittier, Compton and Sierra Madre, which filed for the same rights applied for previously by Pasadena, will bring suit against this city's water project in the near future.

The water which Pasadena will divert, said Howard, "will be water which eventually would waste into the sea. The plan for salvaging this water has been worked out in strict compliance with the law and under these circumstances there is slight chance of a successful attack on the project through the courts."

One of the next steps, according to city officials, will be the acquisition of privately owned land located in the six-mile strip above Pasadena's site and below the county's \$25,000,000 flood-control dam now under construction at the Forks of the San Gabriel.

The Asuna hydroelectric plant of the Southern California Edison Company, located in this six-mile strip, must be purchased.

The water project, it has been estimated, will furnish an annual yield of 25,700 acre feet, which added to the local supply, will give a safe yield of 34,300 acre feet a year. This local supply, according to Morris, will be adequate until 1940, when population curves indicate Pasadena will be a city of 250,000 persons. Increased demands after 1940, it is believed, will be taken care of five years before that date by the bringing of Colorado River water to Southern California.

RAILROAD PROBLEM

Judging by tests made by representatives of the local water department, the quality of water from the San Gabriel project will be equal to the present domestic supply.

RUMOR SAYS SHE'S NEXT MRS. CHAPLIN

Georgia Hale

Hollywood still insists that it's a romance, but Charlie Chaplin and Georgia Hale, his former leading lady, insist only the more emphatically that it's merely a friendship. Yesterday the two were quizzed again about the off-heard rumors that there may be a wedding in the offing, but they took it as a big joke.

"We're merely friends, a n d t h a t ' s a l l," said Chaplin.

"Just friends," commented Miss Hale.

Nevertheless, they are seen constantly together at Hollywood affairs, and the wisecracks say it is serious.

GRAIN FIELD SAVED FROM GRASS FIRE

Blaze on Baldwin Hills Sends Department of Culver City to Scene

Blazing grass on Hill "57" on the northeast end of Baldwin Hills sent the Culver City fire department to the scene shortly before 10 o'clock last night. One hour later they were augmented by two pump-tank crews from the county fire department, and shortly before midnight the fire was reported surrounded and under control.

Origin of the fire, which became a menace to a 1000-acre oat field shortly after it started is unknown, and the fire fighters concentrated their efforts on saving the grain tract. The heavy dry grass burned with great speed and the flames were discernible from almost all sections from the foothills to the sea.

No damage to property or injuries were incurred and the fire did not endanger the Baldwin Hill oil wells, according to the Culver City fire department reports.

PUEBLO HILLS GRASS FIRE CAUSES ALARM

An alarming grass fire in the Pueblo Hills on the Diamond Bar Ranch yesterday called a force of fifty fire-fighters from the Los Angeles office of County Fire Warden Turner to reinforce the residents of the endangered region.

At the time that Warden Turner sent out this force, fire was threatening dwellings adjoining the burning area south and east of Spadra. At a late hour last night the fire force reported to the fire warden that the fire was under control.

SOUTHERNERS TO PICNIC

Virginia, Georgia, the Carolinas and Maryland will be represented Saturday of the 22nd inst., by former residents of those States, who will unite in an all-day rally at Sycamore Grove Park. Each State will have its own section and county registers will be open all day. Souvenir badges and hot coffee will be distributed. Southern songs and oratory will feature the program.

TRAFFIC TRUCE SHORTLIVED

One Dead, Two Critically Injured Yesterday After Week-end's Cessation

Traffic accidents yesterday claimed the life of one man and landed another man and a small boy in the hospital with injuries which it was reported may prove fatal, after the week-end's clear record.

The dead man is Clark Stewart, 24 years of age, of 1011 Harper street. He died in the California Lutheran Hospital from injuries received on the 12th inst., when an automobile, driven by James E. White of the same address, in which he was a passenger, struck a lamp post at Beverly Boulevard and Sierra Boulevard, where Stewart suffered a fractured skull. White, uninjured, was held for reckless driving.

PHYSICIAN MANGLED
Dr. C. E. Simons of 11642 Hartsook avenue, North Hollywood, suffered serious injuries when he drove his automobile into a moving freight train at the Vineland-avenue crossing of the Southern Pacific tracks.

The Lancer

by Harry Carr

ONE-MOON couples from Texas; dear little romping Boy Scouts; miscellaneous red-faced gentlemen who whoopee to show their enthusiasm, and church deacons who fidget on singing "Rock of Ages" in the great hall of the Giant Dome detract from the pleasure of visiting Carlsbad Caverns.

There are too many tourist young ladies jangling with Navajo jewelry, and too many budding literati babbling about art at Santa Fe.

But—praise heaven and the bad roads, you have more than a fifty-fifty chance of seeing Inscription Rock alone.

THE COUNTRY INN

We had breakfast that day at a funny country hotel where all the boarders ate at the same table, and the hired help brought in the most incredible quantities of food on platters.

There was one old farmer on the way to California. He was greatly alarmed lest he should see something more wonderful than the great State of Iowa. Anyhow, he was determined not to admit it.

There was a middle-aged couple who seemed to have an idea they were going to be poisoned. The man cautiously tasted the coffee and began lauding bulletins—seemed pretty good—tasted right well. The lady eyed the water with dark suspicion—she wanted to know if it came from a well or a spring. With an air of one on a desperate adventure she finally took a chance.

THE VALLEY OF ROMANCE

For nearly half a day we rode through pine woods. Every farmhouse was a log cabin chinked up with adobe—strange old Indian villages built into caves—Indians herding sheep.

Then the valley of the rock. It stands like a white Gibraltar at the head of a long valley through which the Spanish conquistadores made their trails on the way to Santa Fe—to Mexico—to California.

FIRST AUTOGRAPH ALBUM

Out one side of the moonolith, cut into the living rock, as plain as though it were carved yesterday, is the inscription chiseled by the hand of Juan de Onate 223 years ago.

"Passed by here adelantado, Juan de Onate, to the discovery of the Sea of the South (Gulf of California) on the 10th of April, the year 1606."

THE PHANTOMS PASS

Diego de Vargas on his way to Santa Fe to put down the terrible Indian rebellion in 1602.

Spanish captains, priests, bishops, explorers, swarming in to subdue the Indians, and frequently being carried out—all in ornate Spanish script carved by hands long since dust and worm food.

As you look, the violet mists of the valley turn into phantoms. Nieto with his 400 Moorish horses coming back from fighting the Zuni-Lujan, who "passed on the 23rd of March of 1529 year to the avenging of the death of Father Letrado."

THE ROCK FORTRESS

For 168 years this old rock, with its ruined houses of a lost and prehistoric race of Indians on the top, and a spring of water in a cave underneath, was a fortress and resting place for the Spanish expeditions. It played a great part in a romantic and gallant.

William Tallman Indicted as Murderer of Clandestine Sweetheart

EVIDENCE HEARD BY GRAND JURY

Four Persons Tell Stories of Mystery Slaying

Search Being Pressed for Accused Radio Man

Suspect Freed in Chicago by Aid of Pictures

ALBANY (Or.) June 18. (AP)—A man whom Sheriff Shelton said resembled William Tallman, wanted in Los Angeles for the murder of Mrs. Virginia Patten, and who possessed a reported suicide note, was held in the County Jail here tonight.

The Sheriff was waiting word from Seattle police as to the identity of James Flanagan, the name under which the suspect is booked. Flanagan was arrested near Haley on an open charge.

An indictment charging William L. Tallman, former radio operator, with the murder of Mrs. Virginia Patten, his clandestine sweetheart, was returned yesterday by the grand jury on circumstantial evidence presented by four witnesses.

Tallman, who has been the object of an intensive search since the finding of the brutally beaten body of Mrs. Patten in an apartment closet at 823 South Union avenue two weeks ago, is accused of having struck the blows with a brick causing her death.

The action of the grand jury, according to Dep. Dist. Atty. Shelley who presented the case, was taken to aid in the extradition of Tallman should he be located in other States or countries, and was not predicated on any information that the police now have indicating an early capture of the wanted man.

WITNESSES LISTED
A list of the witnesses before the grand jury, and a brief of their testimony, as outlined by Shelley follows:

Mrs. J. M. Wilson, operator of the Castelar Apartment-House, where Tallman, under the name of W. C. Johnson, is asserted to have leased the apartment in which the murder was committed.

Sgt. H. M. Barlow, fingerprint expert from Central Station, who asserts that fingerprints found in the apartment are identical with those of Tallman received from Marine Corps headquarters in Washington, D. C.

Attorney C. M. Booth, legal counsel for Frank Patten, husband of the murdered woman. Patten was not called and legal identification of the body was made by Booth.

Detective Lieutenant Stettin of Georgia-street police station, who has been connected with the investigation of the crime since discovery.

SEARCH CONTINUES
Search for Tallman and investigation of information connected

FAMILY FINALLY HAS REUNION

Thirty-seven-Year Separation Ended

Left to right—R. G. Cranston, Mrs. C. A. Bach, J. R. Cranston, Mrs. J. C. Shirley and E. S. Cranston.

EXAMPLES of the old copy-book maxim which begins, "If at once you don't succeed," are the five members of the Cranston family, who once lived together in Brookings, S. D. It was thirty-seven years ago that, one by one, the five members of the family began to leave Brookings, and go their separate ways. And it was not until thirty-seven years later that they all came together again yesterday at the home of Mrs. J. C. Shirley of 183 Martel avenue.

Meanwhile, for the past twenty years the five brothers and sisters with the crime and efforts to apprehend the suspect will be continued by the police department. In testimony that the return of the indictment would bring the District Attorney's investigators into the case were denied yesterday by Acting Chief Blayney Malberg.

WIDESPREAD QUEST
With peace officers throughout the United States, Canada and Mexico familiar with the crime and a description of Tallman the manhunt has developed into one of the most extensive ever known on the Pacific Coast. A reward of \$2000 has been offered for the fugitive, and frequent reports are being received by Chief of Detectives Cline on the arrest of suspects in other cities.

Police in Seattle were asked to check carefully a report that a man resembling Tallman was seen driving a Ford coupe with an Oregon license in that city. The informant of the Seattle police said that he was unable to read the license number.

Arrest of a suspect in Chicago, who told his landlady that he is a radio man, proved futile when photographs of the wanted Tallman were compared with the man held. The man bears no resemblance to the marine radio operator, who slipped away from the steamer Admiral Benson as it moved up the coast to San Francisco, according to police.

BOARD CONSIDERS LARGER FINE FOR BEAN
At the request of Commissioner Thorpe, who expressed the belief that a penalty of fifteen days' pay and transfer to Wilshire of Capt. James Bean for "neglect of duty" was insufficient for his allowing, as head of the homicide squad, W. L. Tallman to escape when he was sought as the murderer of Mrs. Virginia Patten on the 4th inst., the Police Commission yesterday held up approval of Chief Davis' action in the matter.

Thorpe asserted that in view of the Chief's report that Capt. Bean had failed to telephone to outlying divisions details of the murder, so that Tallman was able to sail on the Admiral Benson even after he had been questioned by Stanley Wheeler, a newspaper man, at San Pedro, he should be fined at least \$500.

Commissioners Gollum and Pierce were appointed a committee of two to go further into the case and report.

Chief Davis stated that after being fined \$115, Capt. Bean had been transferred to Wilshire as captain of detectives.

RAIDS WITHOUT WARRANTS HAT
(Continued from First Page)
not the same, it included Burrill's home in which no liquor was found.

Burrill set forth in his complaint to the Mayor that he had been a law-abiding citizen here for thirty years, and at times had been a deputy sheriff against Marcha Linley, Lucia Schmidt and Hazel McCallum. Group demonstrations will include a back-float hook-up in which a human bridge will span the 90-foot tank, a Greek frieze series of dives from classic poses and a lighted human cartwheel in the water.

WOMEN SWIMMERS WILL SHOW STUNTS
A wide variety of stunts will mark the annual summer contest and demonstration of the Young Women's Christian Association swimming department tomorrow night in the association's plunge at 841 South Figueroa street.

Mary Ann Schultze, 19-year-old breast-stroke star, will attempt a 150-foot underwater swim. Mary Andrecht will give a diving exhibition. Jacklyn Carrick will demonstrate a number of speed strokes and Helen Osborne will defend her association title in the 100-yard swim against Marcha Linley, Lucia Schmidt and Hazel McCallum. Group demonstrations will include a back-float hook-up in which a human bridge will span the 90-foot tank, a Greek frieze series of dives from classic poses and a lighted human cartwheel in the water.

The summer term will commence July 1, with new classes in systematic exercises, clog-dancing, swimming and tennis.

TEXTILE CLUB TO ELECT
Officers for the coming year will be elected tomorrow at the annual meeting of the Textile Club of Los Angeles at the Windsor banquet rooms in the Brack-Shops, Seventh street and Grand avenue. The session will be called at 5:30 p.m. and the election will follow the reading of annual reports by the outgoing president, secretary and nominating committee.

PASADENA DAM BONDS PASSED

(Continued from First Page)

supply and superior to Colorado River water.

One of the first problems to be met in the construction of the Pasadena dam will deal with the railroad extending from Azusa to the site of the county flood control dam. While the Pasadena dam is under construction, the railroad will be routed through a hole in the Pasadena foundation, but at the completion of this city project within the three-year period, it may be necessary to remove the railroad. A special use permit granted the Los Angeles Flood Control District provides that when this city is ready to store water in the Pasadena reservoir, the district must either provide storage for Pasadena in its reservoir or relocate the railroad above Pasadena's reservoir. The line the cost to be apportioned between the district and Pasadena.

Pasadena's project calls for the construction of a concrete gravity dam in the main canyon of the San Gabriel River about four miles above Azusa at a site designated as the Pasadena dam site. The dam will be 375 feet above the stream bed, 375 feet above the lowest foundation and will create a reservoir storing 64,500 acre-feet of water having a surface area of 500 acres.

Pasadena's efforts to obtain a water supply from the San Gabriel River have a background of official hearings and investigations and also a measure of controversy attended by threats of lawsuits. On the one side are aligned the need of the city for additional water supply and her claims to certain rights in the river. On the other side are the claims of water users of the San Gabriel Valley and the city of Long Beach and Whittier and the San Gabriel Valley Protective Association.

OPINIONS CONFLICT
Pasadena contends that only a part of the flood waters of the San Gabriel, which waste to the sea during the rainy season, would be taken by her for her water supply. A spokesman for the San Gabriel Valley Water Rights Association recently declared that Pasadena could never obtain water from the San Gabriel Canyon without effecting existing water rights.

Both sides to the controversy cite court decisions to sustain their argument.

Pasadena was granted in 1928 permission by the State Division of Water Rights to store and utilize not to exceed 30,000 acre-feet of water per year on the San Gabriel. Pasadena contends that this constitutes a permit to store the amount of water that wastes into the sea from the San Gabriel each year. Some of the valley spokesmen contend that Pasadena's permit is for the storage of flood waters of the San Gabriel and that there are no "waste waters" from the San Gabriel and therefore Pasadena's contention that the State Division of Water Rights does not take such view, or the permit never would have been granted.

That division, in fact, made an exhaustive study of the San Gabriel basin during which the run-off of the San Gabriel River was analyzed. According to Pasadena's engineers, the division actually ascertained how much of a given flood of the valley waters of the Colorado River water is brought in.

The Federal government granted Pasadena a dam site and reservoir right of way at Pine Canyon last February. This is below the forks site where the County Flood Control District is building the big flood-control dam. Pasadena at one time thought she might be able to make a deal with the district whereby she could obtain a water supply from this project, but there were legal obstacles to such a plan.

Under her present plan she would erect a dam at the Pine Canyon site and conduct a big water main bringing the water by gravity into her city system. She had a choice of building a smaller dam for her own needs or building a larger one which would be suitable as a reservoir for storage of water as part of the system of the Colorado River aqueduct.

Under her present plan she would erect a dam at the Pine Canyon site and conduct a big water main bringing the water by gravity into her city system. She had a choice of building a smaller dam for her own needs or building a larger one which would be suitable as a reservoir for storage of water as part of the system of the Colorado River aqueduct.

MERGER CONSIDERED
Some of the valley spokesmen contend that Pasadena is not entitled to her available water supply, the great bulk of which is obtained by pumping. Pasadena contends she will be in line for water before the Colorado River water is brought in.

PLAINT FOR PANTAGES'S WIFE ISSUED

Witnesses Assert Theater Magnate's Spouse Drunk When Crash Occurred

Mrs. Lois Pantages, wife of Alexander Pantages, theater magnate, yesterday was charged to a complaint issued by Hugh McLean, deputy district attorney in charge of the complaint department, with driving an automobile while intoxicated, a felony. Mrs. Pantages, officers assert, still is confined in a hospital suffering from injuries received in an automobile accident which resulted in her arrest.

It is charged that Mrs. Pantages first struck an automobile driven by G. T. Holmes of 3712 Atwater street at Fountain and Serrano streets. Holmes at that time told Mrs. Pantages, according to witnesses, that she should take a taxi, and she answered him "in vulgar language."

The accident which caused Mrs. Pantages' arrest occurred at Sunset Boulevard later when she struck an automobile driven by Joe Rokosch, a Japanese, who was driving with his family at a Bobomoto still is in a hospital and physicians say he may die.

According to Officers Dutton and Kavanaugh of the Hollywood division of the police department, Mrs. Pantages was taken to a hospital at once and no physician's test could be obtained to determine officially whether or not she had been drinking.

Numerous witnesses have been obtained, however, who will testify as to Mrs. Pantages' condition at the time of the accident, according to the investigating officers.

TRAFFIC TRUCE SOON VIOLATED

(Continued from First Page)
about the body and reported his condition as serious. Manning was not held by the police.

TRUCK FATALITY
Two children were killed and four other persons were injured yesterday when a truck and trailer separated by W. B. Watkins of Bakersfield went out of control and backed over the grade one mile south of National Forest Inn on the Ridge Route.

The victims of the accident were Ellen Watkins, 13 years of age, killed instantly, and Fay Watkins, 12, who died en route to the Newhall hospital.

Mr. Watkins, Mrs. Watkins, Franklin Watkins, 10, and Harrison G. Watkins, 4, escaped from the accident with minor cuts and abrasions.

The bodies of the two victims were removed to the Noble funeral parlors in San Fernando.

Mrs. Anna Gabe, 40, 5247 West Tenth street, probably was fatally injured when struck by a car at Cloverdale and Adams street late last night. She was taken to the Georgia-street Receiving Hospital.

Her skull was fractured, her shoulder broken and bruised, and she received numerous cuts and abrasions. The driver of the car, Sam Covina, 1187 East Fifty-fourth street, was not held by the police.

Milton Bryan Chosen to Be Werner's Aide

Milton Bryan, for a number of years deputy under City Attorney Stephens, will be executive officer and first assistant under City Attorney-elect Werner, it was learned yesterday.

Mr. Werner, it is understood, will make court appearances for the city while Mr. Bryan will run the office, make assignments and look after the clerical forces. The new assignment will take place July 1, when Werner assumes office.

SWAMI TO CONDUCT MOONLIGHT SERVICE

Swami Paramanada, who for some years has conducted Ananda-Ashrama, a peace retreat among the hills at the base of Mount Lukens, will return tomorrow from Boston, where he has been for several months among a similar colony he has conducted there for many years. He will conduct tomorrow night a moonlight service in a new outdoor temple at Ananda-Ashrama. It will begin at 8 p.m. The place is off Pennsylvania avenue above La Cresenta.

ADVERTISERS WILL SPEAK
Allen H. Seed, vice-president and general manager of the Jordan Advertising Agency, Inc., and A. E. Paulson of the Redwood Steamship Line will be the speakers tomorrow at noon before a meeting of the Foreign Trade Club of Southern California at the Chamber of Commerce. Seed will speak on "Creating Export Markets by Advertising Abroad" and Paulson will have "Bills of Lading" as his subject. The meeting will be sponsored by H. H. Elder of Wheeler, Elder & Elder.

DINING CAR EGGSPEETS
FIGURE ELK APPETITES
Do all conventionalists prefer eggs to all other food on the menu? C. R. Walsh, head of Southern Pacific's Los Angeles commissary, in planning menus for Elks arriving on special trains for the convention here, has been trying to answer this question, since it was learned that more eggs were eaten by Shriners than any other commodity served on the diners.

A total of 67,320 eggs was consumed by the Nobles coming here on Southern Pacific specials, which was far in excess of any other single commodity. Meat in various forms weighing 13,902 pounds was eaten by the traveling Nobles, to place that commodity in second place among products consumed.

Approximately a box car load of bread was used, when 7416 loaves were required to meet the demand. Milk to the extent of 1800 gallons, and buttermilk drinks numbering 3583 individual consumptions, proved to be the two most popular thirst quenchers served on the diners.

The greatest concentration of cooks, waiters and stewards ever gathered by Southern Pacific numbering 870 for work on ninety-seven cars, and 1150 for 119 cars, were required to handle the incoming and homegoing Shriners. Thirty-eight cars had to be taken from other roads to serve the needs of the culinary department of the road.

THREE IN LIQUOR CASE DISMISSED

Not Guilty Verdict Ordered by Federal Judge

Sugarman and Cornero Fail in Similar Motion

Plot to Land Rum at Beach Told by Prosecutor

After defense counsel in the case of Maurice Sugarman, Frankie Cornero and six others on trial on a charge of conspiracy to violate the prohibition laws, suddenly rested their case by announcing that no defense testimony would be offered. United States District Judge James yesterday granted three motions for directed verdicts of not guilty in favor of Madeline Stralla Crank, George Ross and A. V. Parker. Similar motions in behalf of Sugarman, Cornero and the three other defendants were denied by the court, as was a general motion for dismissal of the charges.

It was contended by defense counsel, headed by Samuel King, Eddie Simpson and A. J. McDonald, that no conspiracy existed between Sugarman, supposed to be operating at Colono Beach, near San Diego, and Cornero, said to have been operating near Sunset Beach. It was contended by defense counsel that no apparent conspiracy existed between the two.

Immediately following the ruling of the court, Asst. U. S. Atty. Gallagher began argument on behalf of the government asserting that the defendants had entered into a conspiracy to land 37,000 cases of whisky on the shores of Southern California. His argument today will be followed by that of Attorneys McDonald, Simpson and King for the defense, and by Asst. U. S. Atty. Armstrong. It is expected the case will reach the jury today or tomorrow.

THE LANCER

(Continued from First Page)
last chapter of history. Then came later chapters when the forty-niners, and here and there an army officer, carved their names alongside the Spanish conquerors.

A HUMBLE SOLDIER
Nothing on the rock is more appealing than this meek little inscription carved among more than fifty splendid scrolls of the grandees of Spain:

"I am from the hand of Felipe de Arriano—soldier."

PASO POR AGUI
"Paso por aqui," the inscriptions begin. That is all that any of us have to leave the world as we go on; "I placed this place." That is all. That's our story.

SETBACK LINES ORDERED
Setback lines along Fifth street between Normandie avenue and Harvard Boulevard and on Hollywood Drive between Oakwood avenue and Beverly Boulevard were established by the adoption of ordinances by the City Council yesterday.

Do all conventionalists prefer eggs to all other food on the menu? C. R. Walsh, head of Southern Pacific's Los Angeles commissary, in planning menus for Elks arriving on special trains for the convention here, has been trying to answer this question, since it was learned that more eggs were eaten by Shriners than any other commodity served on the diners.

A total of 67,320 eggs was consumed by the Nobles coming here on Southern Pacific specials, which was far in excess of any other single commodity. Meat in various forms weighing 13,902 pounds was eaten by the traveling Nobles, to place that commodity in second place among products consumed.

Approximately a box car load of bread was used, when 7416 loaves were required to meet the demand. Milk to the extent of 1800 gallons, and buttermilk drinks numbering 3583 individual consumptions, proved to be the two most popular thirst quenchers served on the diners.

The greatest concentration of cooks, waiters and stewards ever gathered by Southern Pacific numbering 870 for work on ninety-seven cars, and 1150 for 119 cars, were required to handle the incoming and homegoing Shriners. Thirty-eight cars had to be taken from other roads to serve the needs of the culinary department of the road.

Travel Smartly With A Bullock-Hartmann!

Setback lines along Fifth street between Normandie avenue and Harvard Boulevard and on Hollywood Drive between Oakwood avenue and Beverly Boulevard were established by the adoption of ordinances by the City Council yesterday.

ADVERTISERS WILL SPEAK
Allen H. Seed, vice-president and general manager of the Jordan Advertising Agency, Inc., and A. E. Paulson of the Redwood Steamship Line will be the speakers tomorrow at noon before a meeting of the Foreign Trade Club of Southern California at the Chamber of Commerce. Seed will speak on "Creating Export Markets by Advertising Abroad" and Paulson will have "Bills of Lading" as his subject. The meeting will be sponsored by H. H. Elder of Wheeler, Elder & Elder.

GIRL IN HOLD-UP HUNTED

A pretty girl whose name was withheld yesterday was being sought by police for questioning as the result of a report made by W. H. Richards that he had been beaten and robbed by three men late Monday night in his apartment at 1128 South Grand avenue.

To the girl, Richards reported, he dived planes are busy daily in tactical training flights, culminating with an air concentration of all planes in late August. The submarine divisions, under Rear-Admiral Ridley McLean, departed yesterday for Pearl Harbor, T. H. to spend the summer in war games about the islands. The fleet base force, under Rear-Admiral S. E. W. Kittelle, will remain at San Pedro until July 6, next, before the units proceed singly to various Coast yards and ports.

ASSEMBLY IN AUGUST

The fleet will assemble at the local base August 31, next, for the annual fall gunnery and tactical training program, running through to mid-January. It will sail on February 15, 1930, for the annual concentration and maneuvers at the canal and in the Caribbean with the scouting fleet, later proceeding to New York, where it will arrive on May 8 and remain until May 18. The battle fleet will transit the Panama Canal, homeward bound about June 1, and return to the San Pedro-San Diego area June 13, 1930.

Units of the dreadnaught squad-

confided that he had \$1700 in his pockets and intended to devote it to a night of "whoopie." Then he left her, he said, and returned to his apartment after midnight. As he entered, three unidentified men attacked him after forcing him to open a trunk from which they took \$200 and fled. Richards is the proprietor of an auto park.

Officers Tried as Bribers and Extortionists

William Homan and Floyd Davis, traffic police officers, yesterday went on trial before Judge Wilson on four counts of extortion and five of bribery in connection with the asserted shaking down of several motorists of sums ranging from \$2 to \$5. The state charges the defendants made a practice of stopping motorists, particularly Japanese, and threatening to arrest them for traffic violations unless they "paid off." Dept. Dist. Atty. Mendez is prosecuting the case, while Homan and Davis are represented by Attorney Joseph Ryan.

BUSINESS INCREASES PREDICTED

Radio-Victor Official Here on Visit Expects Activity in Fall

Here on a tour of the United States in the interests of his company, H. C. Grubbs, vice-president of the Radio-Victor Corporation of America, is a guest at the Biltmore. With him are members of his family and W. L. Marshall, advertising manager for the Radio-Victor interests.

"Our trip to the Coast," Mr. Grubbs said, yesterday, "is one in which we are combining business with pleasure. We plan to spend a week in Los Angeles for the purpose of contacting our distributors and dealers here and to study the Southern California field."

The company is a recent consolidation of the Victor Talking Machine Company and the Radio Corporation of America.

Radio has not reached its ultimate development yet, Mr. Grubbs declared. The ideal radio set for the United States today, and the one making the strongest appeal is a combination radio and talking machine instrument, he said.

"I once lived in California and I think I know this country. My observation has been that we are in for a tremendous business increase early this coming autumn, not only in our line but in other lines throughout Southern California."

Mr. Grubbs asserted that Mr. Grubbs and his family, with Mr. Marshall, will depart Saturday for San Francisco, to spend a week there, after which they will visit in Seattle, Portland and Vancouver before returning East. Both Mr. Grubbs and Mr. Marshall live in Philadelphia.

PRISONER FLEES FROM DEPUTIES

Man Held for Burglary Leaps from Window and Makes His Escape

George Harrington, 28 years of age, held to answer yesterday in Department Five of the Municipal Court of Long Beach for trial in Superior Court on a charge of burglary, escaped an hour later from Deputy Sheriffs Jack Ousby and E. C. Richey, who were returning him to the County Jail, according to reports on file at the Sheriff's office.

According to the officers, they took Harrington to his home at 511½ East Forty-eighth street to permit him to get a clean shirt before returning to the County Jail. While Harrington was changing his shirt he suddenly lunged into Ousby, knocking him into one corner of the room, and leaped out of a window before either officer could seize him.

A chase through a maze of alleys followed, with Harrington a block ahead of his pursuers. The fugitive eluded his pursuers and the deputies returned to the Sheriff's office, where they broadcast a description of Harrington to all peace officers in Southern California, asking that they assist in his apprehension.

SUPERVISORS WILL REOPEN OUSTER ROW

Public Hearing Called on Dismissal of Charity Department Employees

Friends of R. B. Miller and Miss Emily Wooley, employees of the county charities department, whose positions were abolished at a secret meeting of the Board of Supervisors, will protest their ouster at a meeting of the board Monday. It was announced yesterday.

Although members of the board announced that there is not much chance of the board's action being rescinded, they decided to permit a public hearing of the complaints of W. H. Holland, superintendent of county charities, which led to the discontinuance of the positions of superintendent of the outdoor relief, held by Miller, and his assistant, Miss Wooley.

Dr. Thomas J. Orblison, who has been conducting a neuropathic clinic among persons who are not self supporting through lack of mental coordination, has announced that he will at this meeting ask for the removal of Supt. Holland on the ground of inefficiency in office.

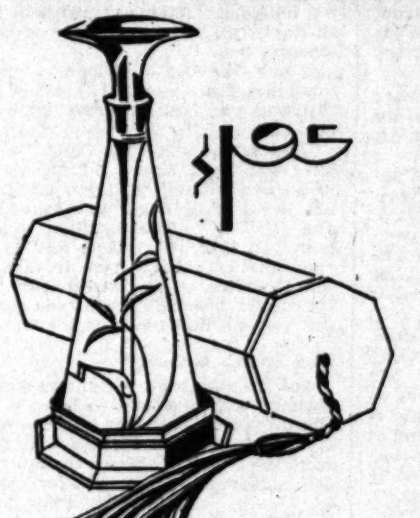

Dr. Orblison has been a member of the county Lunacy Commission for seventeen years, chief of neuropathic service in the Los Angeles County Hospital for nine years, chief of the neuropathic clinic at the county hospital for five years, and neuropsychiatrist of the Whittier State School.

A joint committee representing the Council of Social Agencies, Survey Club and Los Angeles chapter, American Association of Social Workers, yesterday called on Holland to air their grievances over the administration of county charities. The visit was the outgrowth of Holland's unwillingness to attend a meeting at which committee members proposed to let their disapproval be known. The protesting delegation was made up of Mrs. George Clark, president, Council of Social Agencies; Miss Sidney Maguire, president, Survey Club; Dorothy Weyer, president, Los Angeles chapter, American Association of Social Workers; Harry Henderson, Young Men's Christian Association; E. E. DeGroot, Boy Scouts; Mr. Lipatich, Federation of Jewish Charities; Rev. Thomas O'Dwyer, Bureau of Catholic Charities; Rev. E. P. Ryland, Protestant Federation of Churches; D. C. McWaters, Community Welfare Association, and Allen Burns, National Community Welfare Association.

PETITION IN BANKRUPTCY
Richard Thomas, a motion-picture director, yesterday filed a voluntary petition in bankruptcy. He asserts that his liabilities are \$42,017, but did not file any list of assets.

BROADWAY • MILL AND SEVENTH • ONE O'CLOCK • SATURDAYS
BULLOCK'S
Sleeveless Blouse, Developed in Sheer or Heavy Crepe --- \$8.95

This Fine Perfume Came From Paris! Three Rare Odors

\$1.95! Three exquisite fragrances—in a beautiful crystal dropper bottle—with silken-tasseled case!

Egyptia... a heady, exotic scent, breathing Romance!
Fragrance... a spicy garden sweetness, like flowers after rain!
And L'Acacia... poignantly sweet, unforgettable!

\$1.95! Yes, the price is amazingly low—made so by Renaud's as a special concession to Bullock's.

Your opportunity to buy lavishly for your own pleasure... or for gifts for graduation or for trousseau showers... or for Christmas!

If you cannot come to Bullock's, mail your order... or telephone TR. 1911.

Perfumes, BULLOCK'S, Street Floor, Broadway Building

The Blouse is of utmost importance! For town wear one is absolutely necessary to wear with the smart little silk cardigan and a perfect costume is achieved for the country when one is worn with just a sweater and a skirt.

Bullock's Ensemble Blouses for all costumes are smartly feminine, as every well tailored Blouse is this season.

This collection at \$8.95, noteworthy in value, is careful to emphasize the more important fashion features. Some are even replicas of French designed blouses.

Georgette or lustrous heavy flat crepe! Bows... Tucks... feminine Frills! Fitted hipline or can be used to tuck in. All are sleeveless, of course.

Smart eggshell, white and soft pastels. Amazingly good values... \$8.95.

Ensemble Blouses, BULLOCK'S, Third Floor Broadway Building

Pearl Festoon Sterling Clasp \$1.95

The sketch reveals the graceful sweep of this triple strand of simulated pearls... but only hints at the charm of the necklace. The dainty clasp is sterling silver. The pearls have a lovely sheen. A sure-to-be welcomed graduation gift! \$1.95.

Costume Jewelry, BULLOCK'S, Street Floor, Broadway Building

July Fourth Zip! Boom! Bang! Cannons, \$1.50, \$3.75

Every boy wants one to celebrate The Fourth in a fitting manner! The ones Bullock's presents in this announcement are easy to operate, make a big noise... and are safe for small children! Three sizes, \$1.50, \$2.25, \$3.75. Bangsite to use in Cannons, tube, 15c. Extra Spark Plugs, 10c. Breech Blocks to replace those which may be lost or broken, 60c.

Boxed Fireworks, \$2.50 and \$5.00

A well selected assortment of non-explosive fireworks, which may be used legally in Los Angeles. No dangerous pieces. Exceptional at \$2.50 and \$5.00 box. A splendid Fourth of July gift for girls and boys!

Toy Store, BULLOCK'S, Fifth Floor, Broadway Building

Reductions on Fine Lingerie!

Fitting Climax to June Event!

Where but in Bullock's Lingerie Sections such generous reductions as a splendid wind-up to the June Lingerie Event! Reductions which are drastic, fractional in most instances, apply to those better garments that women of taste invariably choose!

Lingerie Sections, BULLOCK'S, Fourth Floor, Broadway Building

SOCIETY

BY JUANA NEAL LEVY

One of the lovely affairs of yesterday was the luncheon and bridge with which Mrs. Michael Francis Regan entertained at her home in South, Burlington avenue honoring Mrs. Letha Lewis Starrow, a charming summer motif being carried out in the decorations and appointments, and those included were Mrs. Starrow, Mrs. Morris Albee, George Alexander Borwick, Berthold Baruch, Oliver C. Bryant, Katherine Thompson Von Blon, Owen

Humphrey Churchill, J. C. Chapman, Grove Chester Fiske, William Frederickson, J. Bond Francisco, Edward Gilbert, William J. Green, J. W. Hendrick, C. W. Hinchcliff, Trobridge, Hendrick, E. W. Hendrick, I. B. Hibbard, E. M. Hillis, Mattison Boyd Jones, Madison Keeley, Katherine D. Myers, John X. MacDonald, Mary O'Neil, Frank C. Perew, Frederick Perkins, Force Parker, Joseph D. Radford, Moya Wicka Stephens, Carl McStay, L. C. Torrance, Frederick Valentine, Thomas Workman, H. C. Wilmer, R. B. Williamson, Erasmus Wilson, George H. Woodward, Maud Ward, Cecelia White, J. C. Walls, Misses Helen Bryant, Margaret Dent, Madeline Echemendi, Eileen Hennsey, Victoria H. Hmer, Ida White, the hostess and honor guest.

At Catalina
Mr. and Mrs. Melville A. Brees of Hobart Boulevard have gone to Catalina and are opening their summer cottage at 219 Clarissa avenue for the season, returning home August 1. During July their daughter and son-in-law, Mr. and Mrs. Richard Edward Letts (Dorothy Brees), are planning to bring their house guests and there will be numerous week-end parties during their sojourn on the island, as well as many friends going over for visits with them.

Schuck-Salinger
Miss Dorothy Schuck, attractive daughter of Mr. and Mrs. Burtis E. Schuck, because the bride of Robert Denison Salinger, son of Mr. and Mrs. A. D. Salinger of New-tonville, Mass., yesterday at high noon, the ceremony being performed at the Mission Inn chapel, Riverside.

Given in marriage by her father, the bride wore a becoming gown of blue chiffon, with hat to match, and carried a bouquet of white roses and lilies of the valley. Mrs. William P. Keane, Jr. (Helen Huntington), assisted as matron of honor, in a white chiffon ensemble, and carried roses and lilies of the valley, and Roger Salinger served his brother as best man.

After a honeymoon motoring in Northern California Mr. and Mrs. Salinger will be at home to their friends at the Villa Riviera Apartments, Long Beach.

The bride attended the University of Arizona and received her bachelor and master degrees there. She attended the University of California at Los Angeles for two years, and is a popular member of Delta Phi Sorority. Mrs. Salinger was graduated from Dartmouth and also Harvard law school, and is affiliated with Phi Gamma Delta Fraternity.

Invitations Issued
Cards have been issued by Mr. and Mrs. L. E. Behrman and Mr. and Mrs. E. C. Rowden for an afternoon reception Sunday in Studio 718, Beaux Arts Building, in honor of Mr. and Mrs. Simon Buchartoff, the hours being from 5 to 7 o'clock.

Wedding Announced
Mr. and Mrs. William Henry of 111 South Newton avenue formally announce the marriage of their attractive daughter, Miss Dorothy Elizabeth Henry, to Nathaniel Maclyn Floyd, the ceremony taking place Friday, the 14th inst., at Briar Cliff Lodge, Briar Cliff, N. Y. Mrs. Floyd was graduated from Marlborough School here and is one of the most popular members of the younger set, while Mr. Floyd, who was graduated from Annapolis and resigned several years ago, has just been sent to the New York office of the Jackson Engineering Corporation. After their wedding trip Mr. and Mrs. Floyd will make their home in New York City.

Garden Wedding
The marriage of Miss Kate Winnett, daughter of Mr. and Mrs. Percy O. Winnett, to Walter Weaver Candia, Jr., will be solemnized this evening, the ceremony taking place in the spacious gardens of the Winnetts home, 823 San Vicente boulevard, Santa Monica, at 8:30 o'clock. Miss Helen Winnett will assist her sister as maid of honor, while Mrs. John W. Winnett will be matron of honor, and the other attendants will include Miss Victoria Reyes Cotton, Miss Bernice Ray, Miss Anna Katherine Flint, Miss Margaret

BRIDE MOTORING ON HONEYMOON
Couple Later Will Live in Long Beach

Mrs. Robert Denison Salinger (Boys Studios)

AFTER a honeymoon, which includes motoring through Northern California, Mr. and Mrs. Robert Denison Salinger will return to make their home at the Villa Riviera Apartments, Long Beach.

Morrow, Mrs. Jacob Murray and Miss Marie Williams.

Luncheon Party
Mrs. Edward G. Wormhoudt (Ruth Mabe) and Mrs. Louis H. Reid (Laura Hodge) have issued sixty invitations for a luncheon to be given tomorrow at the Women's Athletic clubhouse. The decorations will be carried out in yellow, orange and gold shades and there will be large baskets of flowers on the long luncheon table with tall yellow candles set in flowers.

Betrothal Dinner
Formal announcement is made by Mrs. Mary Norfleet of 1642 Cimmaron street of the betrothal of her attractive young daughter, Miss Frances Norfleet, to Dr. Brigham Bennett, son of Mr. and Mrs. E. J. Bennett of Glendale the wedding to be an event of July 30, taking place at the family home.

The announcement was made at a beautifully appointed dinner-dance with which Miss Isabel Patterson entertained Saturday evening at her home, 202 South Kingsley Drive. Eighteen guests were bidden. The decorations were carried out in pink and white, a great heart centering the dinner table in which were inclosed scrolls with the names of the betrothed, while the place cards and nut cups were wedding bells. Those included were Miss

HEALTH AND DIET
ADVICE
By Dr. Frank Mc Coy

Dr. McCoy will answer personal questions on health and diet, addressed to him, care of the Los Angeles Times. Inquiries should be addressed on-line to 400.

Chronic and Acute Bronchitis
Acute bronchitis is sometimes known as a cold on the chest. It is not usually serious with healthy adults, but may turn into bronchial pneumonia in the very young or very old. Usually, it begins as a cold, but spreads into the large air passages to the lungs (the trachea and bronchial tubes) which become inflamed, congested and covered with mucous and pus. In its acute form, bronchitis is quite contagious. The disease seems to be predisposed by overheated rooms, had air or contact with fumes or dust. The bronchial tubes become less resistant when there are diseases of the heart, kidneys or liver, and almost always become inflamed during measles, typhoid fever, asthma and whooping cough.

The beginning spreads to the trachea and bronchi, producing a cough, with a feeling of oppression and pain in the bones and back. The fever may be very mild, or range up to 102 deg. There is also a constant desire to clear the throat. There may be a very intense oppressive cough, and the patient may be very distressing. The secretions are at first scanty and tenacious, but after a few days become more abundant. As soon as a large amount of sputum can be raised, much relief is experienced. In healthy persons, the fever should subside by the end of a week and recovery should have taken place by the end of another few days.

In children and elderly people, the bronchial tubes do not seem to expel the mucous as readily, and it comes into the lower parts, spreading inflammation throughout the lungs and smaller tubes. If you have had several attacks of acute bronchitis or are troubled with lung infections, heart or kidney disease or rheumatism, the probability is that you will develop a chronic bronchitis, chronic cough, especially severe in the winter months and very distressing at night. Sometimes there is no expectation. At other times, the mucous may be abundant and very thick. Fever is not usually present.

In children, chronic bronchitis is usually accompanied by enlarged tonsils and adenoids. The child is usually thin and underdeveloped. Perhaps a slight fever will occur toward evening. Sometimes this trouble is mistaken for tuberculosis, and there is a tendency in this direction. An X-ray study of the chest is especially valuable. A cure cannot be expected by the end of the week, but can be accomplished through the use of a good fasting and dieting regime in either acute or chronic bronchitis.

And Marine Corps Reserves. Past-presidents including Col. Perry W. Weidner and Lieut.-Col. E. A. Evans also have been untiring in their efforts to make it a great success. As have Gen. Walter Perry Story, and Lieutenant-Commander Rufus Bernard Von Klein-Smidt, vice-president of the association. Lieut. Col. Irving H. Helms, treasurer, as well as the fifteen hundred membership of officers of all branches of the service, both active and retired.

The details of the dance are being handled by a general committee of twenty-seven officers, and the proceeds will be devoted to the purchase of decorations and the tables will be centered by early summer flowers and foliage. Flags of all nations will form a feature of the decorations.

Surprise Shower
Miss Florence McIntyre, daughter of Mr. and Mrs. William McIntyre, was surprised by twenty-four Sigma Alpha Iota Sorority sisters, at a linen shower Friday evening in connection with a Mexican supper given by the Misses Helene Betzinger, and Lola Repleas at the home of the latter, 1573 Hill Drive, Eagle Rock.

After supper a letter was handed Miss McIntyre describing in verse where she would find the gift. Miss McIntyre is to be married September 6, to Bernard Primeaux.

GUIDING YOUR CHILD
SAVE YOUR BREATH
By Mrs. Agnes Lyne

When you are tempted to lecture, don't do it—save your breath. In the course of bringing up your child you are pained to discover at various times that he is neither honest nor generous, neither just nor merciful. But do not tell him so. Remember that moral discourse is lost on him. It really will go in one ear and out the other, for he quite literally does not know what you are talking about. Words are simply words to him. Abstract ethics do not exist; only concrete experience is real. His nearest approach to the understanding of right and wrong is through the pleasure or pain of doing as he would be done by, or being done by as he did.

Does he come home one day with a toy which he has appropriated? Don't tell him it is wicked to steal. See to it that he makes restitution. Ask him how he would like it if one of the children walked off with his wagon. Remove future temptation if possible, and above all, forget the occurrence. Nothing so

YOUR BABY AND MINE

Mrs. Stiles will be glad to answer all questions pertaining to babies and children, a stamped and self-addressed envelope forwarded to this office will bring a personal reply.

The development of a baby's mind on waking and feeding the child from 6 weeks to 6 years, mental care and diet for the nursing mother, consumption, common mistakes for the new baby, sleeping, walking, teething, thumb-sucking, training in cleanliness, serious diseases, nervousness, colic, watery stools, rashes, eruptions and refractory children, grunting, hiccup, cradling cap, before taking a personal question about one of these subjects, it is better to send a self-addressed stamped envelope to the office. If needed, if your particular problem is not covered in the above list, Mrs. Stiles will be glad to give you a personal reply.

MOTHER THINKS CHILD MAY RESENT SOOTHING SUGGESTIONS

Mrs. S. P. writes: "You have helped me so much and I have thought my thanks so many times that I feel I must see to it that you really have them. I just read your article on 'Strangers Frighten Children' and how to handle bumps, and I want to tell my experience."

"My little girl is 17 months of age and neither frightened of strangers or the least bit of a cry baby over bumps so many times that I feel I must see to it that you really have them. I just read your article on 'Strangers Frighten Children' and how to handle bumps, and I want to tell my experience."

"No one, strangers, friends or relatives, ever tries to amuse her in her crib, for I believe small babies are sufficient unto themselves, except for having physical needs attended to. She always had a smile for everyone and was a happy, contented baby."

"As she grew older, I did not need to protect her from overly attentive adults as she has no time to be held, and squirms so vigorously it is no pleasure for anyone to try to hold her."

"As for bumps she is so heroic. If the bump was slight, no attention whatever is paid to it. If she gets a very terrible one (and she does), it is only a minute or two and then she is over it and stops crying. If the bump is very severe I go to her, but I never run or appear excited, although it is sometimes hard when she falls."

"My reason for saying nothing is that the words you suggested are about the only ones you can say, and I still remember my own resentment as a child when people told me it didn't hurt, and I blamed myself for crying."

"What can I do to make baby stop crying when she has to go to sleep? I always substitute some plaything and her crying gets her nowhere. I never snatch it from her and am always courteous."

Answer: I wonder if the average person is resentful when told a thing doesn't hurt? I believe the older child would be and the baby wouldn't. The baby needs the suggestion that a pain is going or gone, for that actually sends it soothing. The older child (and you must have been older than 17 months) should be told rather what can be done for the pain to help it go away. That suggestion doesn't offend.

You are right that babies need far less handling than most of them get, but they do need some. Handling is a physical stimulus and loving attention is a mental one, and every baby needs both. We know that institution babies fail to thrive, not from lack of physical care but because they are deprived of "mothering."

Suppose you use the same policy with this resentful crying as with the bumps. Ignore it. You must strive against taking things away unless there is real danger in her touching them. To touch and feel an object is so vital a part of development and growth that one cannot blame the child for being resentful if everything she picks up is taken away from her, no matter how innocently. If she has enough "touching" to satisfy her, she won't be resentful of the few things which "are mother's and baby must not touch."

Of Some Use
If the crazy names they paint over the doors of summer cottages won't keep the mosquitoes away, nothing will.—Life.

CHEF WYMAN'S RECIPES

Every Tuesday and Friday at 2 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cookery in the lecture room of the Southwest Building, 130 South Broadway.

RASPBERRY WASHINGTON PIE
Beat one-third of a cupful of butter to a cream with one cupful of sugar, and beat until light and creamy; add the beaten yolks of three eggs, and beat well; stir two cupfuls of sifted flour with three teaspoonfuls of baking powder and one-quarter of a teaspoonful of salt, beat into the egg mixture alternately with three-quarters of a cupful of milk. Lastly add one tablespoonful of lemon juice, pour into oiled and floured layer cake tin and bake in a moderate oven; turn out on a wire cake rack, cool, spread between the layers, one basket of raspberries that have been mashed with half a cupful of sugar. Beat the white of one egg to a stiff froth and beat into it slowly one cupful of sifted XXXX sugar, one teaspoonful of grated lemon rind and a few grains of salt, spread over the top and serve in wedge-shaped pieces.

AVOCADO COCKTAIL
One cupful of avocado, cut in small dice, one tablespoonful of grated horseradish, one-half a teaspoonful of celery salt, one cupful of ketchup, one tablespoonful of Worcestershire sauce, the juice of one lemon, place four tablespoonfuls of the diced avocado in a cocktail glass, mix the ketchup, horseradish, paprika, lemon juice, Worcestershire and celery salt, pour an equal amount of the sauce over the avocado dice, allow to thoroughly chill and serve garnished with a slice of lemon on the side of a glass.

FISH CHOWDER
Peel and dice two large potatoes, boil until tender, heat two cupfuls of milk, add two cupfuls of the potato water, chop two slices of bacon, place in a saute pan, add one finely minced onion, one small clove of crushed garlic and cook until the onion is soft but not brown; stir in two tablespoonfuls of flour, and when well blended, add the milk and water, bring to a boil and stir until thick and smooth; add the potatoes, and one and a half cupfuls of cooked and flaked fish; heat and just before serving stir in a seasoning of pepper and salt, three tablespoonfuls of butter, and one tablespoonful of finely chopped parsley.

HARVARD BEETS
Six beets, three tablespoonfuls of flour, two tablespoonfuls of sugar, one-half a cupful of vinegar, two tablespoonfuls of butter, one-fourth of a teaspoonful of white pepper, one-half teaspoonful of salt, one-half a cupful of water, dice the cooked beets, and place them in a baking dish, place the butter in a saucepan, when melted, add the flour, and stir until dissolved, combine the water and vinegar, stir into the butter and flour mixture, add the sugar and seasonings. Cook until smooth and thick, cover the beets with this sauce and bake slowly for thirty minutes.

PURCHASING TOUR ENDED BY JACOBY
Merchant Back From Trip to Europe After Buying of Numerous Articles
BY OLIVE GRAY
Returning from a three months' tour of European centers, Walter Jacoby of the concern of Jacoby Brothers reports an exceptionally successful buying season.

Los Angeles District Federation
No vacation days are anticipated by the department of programs, information and reciprocity in the Los Angeles district, California Federation of Women's Club.

Legion Worker to Be Buried in San Francisco
A Southern Pacific train last night was bearing to San Francisco for last rites and interment the body of William T. Hearst, one of the organizers of the American Legion in California, who died Monday at the San Fernando Veterans' Hospital after a protracted illness.

Berkeley Hall Graduation to Be Tomorrow
Graduating exercises for the sixteen young people finishing Berkeley Hall School this year will take place at 11 o'clock tomorrow morning.

HOUSEHOLD SUGGESTIONS
Worth Knowing
A nut cracker will crack crab claws splendidly.
Ripe tomato juice will remove fresh ink stains.
Pillow cases must be ironed lengthwise to be entirely free from wrinkles.
Serviceable slips may be made from nightgowns after the lace yokes are worn out.
A little cornmeal moistened and rubbed on the hands will soften and whiten them.
If your satin slippers get wet, do not put them on your shoe trees to dry as that will stretch the fabric. Stuff them with tissue paper, comfortable but not too tight. This will cause them to dry in shape and more quickly as the paper will absorb a great deal of the dampness.
Hot Plates
Even in summer time we dislike to serve some things on unheated plates, such as lamb chops and other fatty meats. If you do not care to light the oven on account of the heat, place the dishes in a pan of boiling water for five minutes before dishing up. They will dry quickly and be nice and warm for service.

Fine Black Silks

A Special Presentation at A Fractional Price---Today

\$2.85

A special purchase of Bullock's Black Silks—qualities that have been offered in Bullock's regular stocks—now to be discontinued by the manufacturer. Result: you may buy these beautiful Black Silks at a retail price lower than the ordinary wholesale cost—\$2.85 yard. Included in this special presentation are the following Black Silks—all 40 inches wide:

<u>Black Satin Mossdell</u>	<u>Black Bengaline</u>
<u>Black Mantalane</u>	<u>Black Rondulay Crepe</u>
<u>Black Satin Borgia</u>	<u>Black Crepe Marcania</u>

3500 Yds. of Fine Quality Prints at \$2.45 Yard

Styled for Sports, 40 Inch Specially Priced

California Wash Silks \$1.95

<u>32-In. Baroda Striped Crepes</u>	<u>32-In. Fine Colored Shantung</u>
<u>32-In. Striped Silk Broadcloth</u>	<u>40-In. Senoussi (Shantung Crepe)</u>
<u>32-In. Checked Silk Broadcloth</u>	<u>27-In. Genuine Chinese Damask</u>

Tru-Hu Silk Prints

3000 Yards of Tru-Hu And Other Fine Prints

\$1.85

Prints! Prints! Prints! Silken rainbows of color—Paris-inspired for lovely California costumes. A wonderful, valuable Bullock offering of Printed Silks for Ensembles or Dresses. 1500 yards of Tru-Hu Silks alone — and remember, "If it's Tru-Hu, it's Washable!" \$1.85!

Dark grounds and light grounds. Floral or geometric patterns, 40 inches wide, at \$1.85.

WARNERS PLAN RECORD YEAR

Production Schedule Will Cost \$15,000,000

Forty Talking Pictures on Announced Program

New Stages to be Built and Staffs Augmented

Jack L. Warner, vice-president and production executive of Warner Brothers, yesterday announced the complete \$15,000,000 production program for 1934-1935 for Warner Brothers, detailing extensive improvements to cost approximately \$2,000,000 at the west coast studios.

"This is the largest production program ever outlined for our organization," the executive stated. "It will necessitate expansion in every productive branch of our organization. A building and equipment program which will involve the expenditure of at least \$2,000,000 has already been launched at both the main studio on Sunset Boulevard and our auxiliary studio in East Hollywood."

NEW STAGES PLANNED
"Three new sound-proof stages to be completed at the auxiliary studio, each to cost \$200,000, are included in the improvements launched. Each is to be completely equipped for the production of talking pictures. All other facilities and equipment are likewise being expanded."

Warner outlined a program of forty pictures for the 1934-1935 program, all of them talking pictures, and a major portion with silent versions also. Natural-color photography will be used in a number of productions particularly adapted to its use.

Among the outstanding story properties acquired Mr. Warner announced the scheduling of "Golden Dawn," the Hammerstein production which Walter Woolf, light opera star, is to have the stellar role, to be filmed throughout in natural color. "Gen. Crad," the popular serial, to serve as a starring vehicle for John Barrymore; "The Green Goddess" and "Disraeli," which will star George Arliss.

OPERETTAS TO BE FILMED
Several original operettas are to be filmed, Warner announced, his organization having signed Sigmund Romberg and Oscar Hammerstein II, two of the outstanding musical dramatists in the field, to devote themselves personally to these productions, which will be produced under their direction.

The stars for the program include Al Jolson, John Barrymore, George Arliss, Monte Blue, Thomas Meighan, Dolores Costello, Pauline Frederick, Ted Lewis, Charlotte Greenwood, Sophie Tucker, Edward Everett Horton, Myrna Loy, H. B. Warner, Lois Wilson, Marian Nixon, Grant Withers, Lila Lee, Louise Fazenda, Winnie Lightner, Joe E. Brown, Frank Fay, Conrad Nagel, Walter Byron, Walter Woolf, Noah Beery, Ann Pennington, Lowell Sherman, Conway Tearle, William Courtenay, Armina, Raquel Torres, Lupe Velez, Pauley, Ruth, Alice Joyce, Ralph Forbes, Robert Beatty, Betty Compson, Nancy Wellford, Lilian Tashman, Arthur Lake, John Boles, Virginia Valli, James Kirkwood, Sally O'Neil, Alice Day and Chester Morris.

The directorial and scenario staffs have been augmented materially to meet the demands of the heavy production schedule, Warner stated. Directors now include Lloyd Bacon, Al Green, Michael Curtiz, Archie Mayo, Roy Delory, Howard Brethorsten, Ray Wright and John Adolf.

STAFFS INCREASED
Scenarists and playwrights placed under contract include Joseph Jackson, Julian Josephson, Walter Allen, Henry J. Grubb, Alexander, Harvey Thew, James Starr, L. G. Rigby, B. Lakeman, Francis Powers, Robert Lord and Arthur Caesar.

Talman Hubbard and Anthony Coldewey have been elevated to position as production supervisors, functioning under Darryl Zanuck, associate executive, and with William Knott, general studio manager.

The song-writing department, now a regular division of production, has been increased to twelve and includes some of the best "hit" writers in the field. They are Ray Perkins, Al Dubin, Joe Young, Burke, Harry Akst, Grant Clarke, Herman Ruby, M. K. Jerome, Al Bryan, Eddie Ward, Michael H. Cleary, Red Washington and Herb Magidson.

THE SCHEDULE
The schedule of productions announced by Warner includes:

"The Hotentot," starring Edward Everett Horton; "The Gamblers," with an all-star cast, headed by H. B. Warner and Lois Wilson; "The Time, the Place and the Girl," with Grant Withers and Betty Compson; "Honky Tonk," starring Sophie Tucker; "Skin Deep," starring Monte Blue.

"In the Headlines," with an all-star cast, including Grant Withers and Marian Nixon; "The Argyle Case," starring Thomas Meighan; "Say It With Songs," starring Al Jolson; "Gold Diggers of Broadway," with an all-star cast and in natural color throughout; "The Green Goddess," starring George Arliss; "Hearts in Exile," starring Dolores Costello; "Song of the West," with a cast headed by John Boles and Vivienne Segal; and in natural color throughout.

"Is Everybody Happy?" starring Ted Lewis; "General Crack," starring John Barrymore; "Evidence," starring Pauline Frederick; "So Long Letty," starring Charlotte Greenwood; "Under a Texas Moon," with an all-star cast and in natural color throughout, starring Frank Fay; "Disraeli," starring George Arliss; "She Couldn't Say No," starring Winnie Lightner; "Golden Dawn," with an all-star singing cast and in natural color throughout; "Second Chance," starring Dolores Costello; "Isle of Escape," starring Monte Blue and Myrna Loy; "Mammy," starring Al Jolson.

"Hold Everything," with an all-star musical cast; "Fame," starring Dolores Costello; "Congratulations," starring Edward Everett Horton; "Those Who Dance," starring Monte Blue.

PROCEEDINGS ABANDONED
The City Council yesterday abandoned proceedings for the Jordan-avenue and Devonshire Improvement District.

BETROTHAL REPORT DENIED BY ACTRESS

Virginia Valli

A joke is a joke, but when it is carried too far it may become a matter of concern. Virginia Valli's telephone has been ringing constantly and she has been showered with congratulations on her supposed engagement to Cedric Gibbons, art director at Metro-Goldwyn-Mayer.

The truth of the matter is they are not engaged, according to their own statements yesterday, contrary to published reports they soon will be married. Neither Miss Valli nor Gibbons would discuss how the report became spread, but from an authentic source it was learned it all started as a joke at a beach party last Sunday at Santa Monica.

"Seriously, we are not engaged and never have been," the actress said yesterday. "It was all a sad mistake and I am sorry that such a report was published."

"Miss Valli is correct when she says we are not engaged," Gibbons explained.

Sale of Harbor Bonds Approved

Sale of \$3,300,000 in harbor bonds, the last portion of a series of \$15,000,000, voted by the people in 1932, was authorized in a recommendation filed with the City Council by the Finance Committee yesterday.

Part of the money will be used, it is stated, to pay the city's share of the cost of the connection between the Municipal Belt Line and the Santa Fe Railroad, to construct a case oil wharf and to make minor improvements.

WILL STUDY ABROAD

William F. Aggeler Goes to Paris for Engineering Course

After practicing his profession of electrical engineer in California for several years following his graduation from the California School of Technology at Pasadena, William Aggeler, a son of Superior Judge Aggeler, left yesterday for Paris, France, where he will take up a two years' post-graduate course in electrical engineering.

Since being graduated from the Pasadena school young Aggeler has held important positions with the Pacific Gas and Electric Company of San Francisco and the California State Railroad Commission.

NAVY TO FETE AIR GROUP
Members of the local chapter of the National Aeronautical Association will be guests aboard the aircraft carriers Lexington and Saratoga, the 23rd unit, it was announced yesterday by Harry E. Wetzel, president of the local organization. Admiral Butler has issued orders for open house on the carriers. Members and their families will leave the navy landing, Santa Barbara street, Long Beach, at 1 p.m., in boats furnished by the Navy.

W.C.T.U. MEETS TOMORROW
The Los Angeles W.C.T.U. will meet tomorrow at 3 p.m. in the First Methodist Church at Eighth and Hope streets. Among the speakers are Lily Galloway, Carrie Lee Carter Stokes, Laura Hyden-Boyle, Dr. M. Len Hutchins and others, who are directors of department work.

HEALTH EDUCATION URGED

Battle Waged Here on Tuberculosis Told to State Doctors, Dentists and Pharmacists in Session

"The percentage of advanced cases of tuberculosis which now fill the sanatoria throughout the country can be greatly reduced through a method of year-round public education in hygienic living, disease prevention, and through early diagnosis of suspected cases of incipient tuberculosis," Miss Sidney Maguire, executive secretary of the Los Angeles Tuberculosis Association and president of the Survey Club, told the second session yesterday of the three-day convention of the Medical, Dental and Pharmaceutical Association of California which is being held in the auditorium of the Second Baptist Church, Twenty-fourth street and Griffith avenue.

Stressing the acute need of increased activity in public health education, Miss Maguire pointed out that less than 10 per cent of the tubercular patients in the various sanatoria are in the first stages of the disease, with chances favoring their recovery. The reason that the overwhelming percentage of patients are confined and treated only when in the advanced stages was pointed out in this fact that so many persons suffering from tuberculosis delayed treatment mostly through ignorance or fear, or for economic reasons. Miss Maguire pointed out that, as a result of an early diagnosis cam-

AGITATION IN MERRITT CASE ENDS

Police Commission Drops Restitution Investigation on City Attorney's Advice

On the advice of Deputy City Prosecutor McGann, an attempt by the Police Commission to reopen the case of Officer Ansel D. Merritt, whose restoration to duty by the commission a week ago brought severe condemnation from Superior Judge Doran, was dropped yesterday. McGann stated that under the charter the action of the board in restoring Merritt to duty, being final, disposed of the case.

Merritt and J. J. Sullivan, two officers, had been accused of setting four cases of liquor for their own use from Henry Riggs. They were tried before Judge Doran and because Merritt could not be identified by Riggs the case against him was dismissed and his restoration to duty followed. Sullivan was found guilty and given probation by the court.

In seeking to reopen the case, Commissioner Gollum made the following statement, referring to Judge Doran's denunciation that the commission had exonerated an officer who "was only freed on a technicality."

"Personally I do not see how Judge Doran can turn loose a man when he brands him a liar and a burglar. If the judge had taken the trouble to send us this or similar communication at the time he turned Merritt loose, I doubt if he would be on the department today."

Trolley Service to Be Resumed

Commencing this morning the Los Angeles Railway will operate cars of the S and V lines over the Seacrest storm drain at Vermont avenue and Fourth street. This operation will be on a single track of about 300 feet in length.

In the morning rush hour the city-bound cars will be given the right of way over out-bound cars and during the afternoon rush the reverse order will be carried out. Double-track operation will be started in three or four days.

WILSHIRE BOULEVARD SIGNAL TIMING URGED
The installation of a progressive timing system for the traffic signals along Wilshire Boulevard was asked by the Wilshire Boulevard Association yesterday in a communication to the City Council. The matter was referred to the Building and Safety Commission and the Traffic and Street Lighting Committee, which have jurisdiction of the installation and operation of the city's traffic signal system. The association's letter pointed out that many cities now use the progressive timing system, by which a constant and even flow of traffic is maintained along a principal artery.

Asserted Fixer Locked in Jail

Accused of accepting \$225 to fix a liquor case pending in Municipal Court against George H. Crowe was arrested here today on a warrant issued in Asuna, charging him with grand theft of a tractor, some rugs and farm implements from a ranch he is said to have rented about three-quarters of a mile from Asuna. He was taken in custody at his home, 33 Zane street, by Constables Hamilton and Beisand and returned to Asuna to face the charge.

MR. AND MRS. EARLY WIN CONGRATULATIONS

Friends of Mr. and Mrs. J. G. Early, 402 South Occidental Boulevard, are congratulating them on the celebration of their fiftieth wedding anniversary Tuesday night, when several hundred persons called at the Early residence in honor of the occasion. Mr. and Mrs. Early formerly lived in Ft. Dodge, Iowa. Mrs. Early is a descendant of James Fenimore Cooper, early American novelist. Her husband is a cousin of Mark Hanna. Both husband and wife have won recognition in national Young Women's Christian Association work.

MISSOURIANS MAKE MERRY
Dramatic and humorous readings, music and dancing made up the program last night of the monthly social of the Missouri State Society at Moose Hall, 1024 South Grand avenue. Another feature was the awarding of prizes to the most recent arrival and the oldest native of Missouri.

HEART BALM SUIT ON TRIAL

Mrs. Lillian Boyle Tells of Losing Husband's Love in Action Against Mrs. Gillespie for \$150,000

Details of how Mrs. Lillian Boyle says she lost the love of her husband, Harry Boyle, at the hands of Mrs. Bertha Gillespie, were part of the testimony placed before a jury of nine women and three men in Superior Judge Edmonds' court yesterday where Mrs. Boyle is suing Mrs. Gillespie for \$150,000.

Boyle, a Long Beach produce dealer, who formerly held the garbage disposal contract in the beach city, was married in June, 1918, in Tampa, Fla. Shortly afterward the couple moved to Long Beach and lived happily, Mrs. Boyle says, until her husband met Mrs. Gillespie. That was in 1926.

In the summer of 1928, according to the plaintiff, she found a picture of her rival in Mr. Boyle's pocket. This led to her suit for divorce, filed last December, in which Mrs. Gillespie is named co-respondent. This suit still is pending.

Mrs. Erle Ellsworth, San Pedro boarding-house proprietor, formerly housekeeper for Mrs. Gillespie, said Boyle often came to Mrs. Gillespie's home and entered unannounced.

According to George A. Hart, Long Beach attorney representing Mrs. Gillespie, Boyle threatened to beat Mrs. Gillespie when she charged she would sue him on a \$600 note. The boyles have given up their divorce suit and are living together now, Hart said in his opening address to the jury.

SUICIDE IDENTIFIED FROM FINGERPRINTS

Fingerprint records yesterday enabled the Hollenbeck Heights police to identify the man who committed suicide by hanging in Evergreen Park Monday night as Louis P. Spitz. He was a Russian, 56 years of age. When he was fingerprinted in 1924 when under arrest for a minor offense, he lived at 222 Loren street.

EVANGELIST LEAVES TO STORM DETROIT

Mrs. McPherson Bids her daughter Roberta good-by.

Almee Sample McPherson slipped quietly out of the city last night, bound for Detroit where she will conduct a fifteen-day revival. This is the first time the evangelist has preached in the Michigan metropolis. She was accompanied by Rev. John Goben, field representative of her Four Square Gospel, Rev. Thompson Eade and Mrs. Cromwell Ormby. A small number of members of her church and her daughter Roberta gathered at the Union Pacific station to bid her good-by.

MAN CHARGED WITH THEFT OF TRACTOR

George D. Beaumont, president of the Alameda-Tulsa Club, yesterday notified all sourdoughs living here to meet next Sunday afternoon and evening at a picnic in Sycamore Grove Park. Beans, coffee and sourdough bread will be supplied, and a program will be provided around the evening camp fire, he announces.

PARACHUTE SAVES LIFE OF AVIATOR

Commercial Pilot Testing Plane Goes Into Spin, Then Leaps to Safety

Lieut. Clinton Herberger, a commercial airplane pilot, narrowly avoided plunging to his death yesterday by making a parachute leap from an altitude of 1000 feet when the plane with which he was making a spin test went into a tailspin at 3200 feet over the Baldwin Hills and crashed to earth.

The pilot, who files for the Lincoln Air Lines, was requested by officials of the Thunderbird factory to take up a Thunderbird ship belonging to Cliff Henderson for observation by inspectors of the Department of Commerce Bureau of Aeronautics.

Taking off from Mines Field, Herberger flew over the Baldwin Hills and put the craft into a spin. A moment later it went into a flat spin and remained out of control, turning over ninety degrees before Herberger decided it was time to bail out. Some seconds after the plane struck the earth, a total wreck, Herberger made a landing on the rolling terrain.

MRS. CAHN RITES TODAY

Funeral Services Will Be at 3 p.m. in Hollywood Cemetery

Funeral services will be conducted in the Hollywood Cemetery chapel at 3 p.m. today for Mrs. Martha G. Cahn, widow of the late Ferdinand Cahn, who died last Sunday at Good Samaritan Hospital following a long illness. Interment will be in Hollywood Cemetery.

DR. WOELLNER TO SPEAK

"The Changing Status of Women" is the subject of an address to be delivered today at 2:30 p.m. by Dr. S. T. Woellner under the auspices of the Women's Guild of the Beverly Hills Community Church, Rodeo Drive and Santa Monica Boulevard. Dr. Woellner, associate professor at University of California at Los Angeles, is the author of a textbook, "How We Govern," recently adopted by the State Board of Education for use in the California public schools.

Your Apartment Should Fit YOUR Needs

You no doubt have a mental picture of it now.

Perhaps you want luxury,—beautiful drapes,—soft overstuffed furniture,—elegant accessories,—and price is no barrier if it pleases.

Perhaps you prefer staunch utility,—comfort without ostentation,—convenience above all else.

Perhaps you are a bachelor, or a bachelor girl, and are out during most of your waking hours. You merely wish a clean, tiny nook in which to "hang your hat."

Times Apartment Rental Columns offer VARIETY—from singles to multiple suites—prices to fit any purse; furnishings to fit any taste.

Hagen Picks Bobby Jones to Win Open Golf Championship at Wingedfoot

HORTON SMITH IS DANGEROUS

British King Says Amateur Star Easily Best

Young Missouri Hero Will Furnish Contention

Confident of Spectacular Performance Himself

BY WALTER HAGEN
(British Open Golf Champion)

NEW YORK CITY, June 18.—I am going out to the championship course at Wingedfoot, Mammoth, N. Y., to do a 3 for 3 today.

I do not believe in being on the scene too long in advance of the championship. Who will win the open? I do not know much about the situation except that Horton Smith and I, at the moment, are playing well enough to make a shot at the title at Wingedfoot. I have not a clue at the present time.

PUTTING WELL

I have been putting especially well and in the last week I have had two course records, a 69 at Rochester and a 70 at Erie Downs. And I broke the record at the Ridgewood Club, Cleveland, with a 67. The hole has been looking very big.

Horton is back on his steel shafts again, and hitting the ball miles. When he first shifted over from the woods he used, but he has his drive straightened out now and with his tremendous distance will be an asset there. My own driving is satisfactory in that I have been very accurate lately. I have not been making as many excursions into the rough as in some other years.

Concerning the remainder of the field I do not look for any great change. I feel certain that when the totals are stuck up the top names will be mostly the old familiar ones. I think that among the leaders will be Bill Melhorn, Leo Diegel, Johnny Farrell, Horton Smith, Bobby Jones, Tommy Armour, George Von Elm and Walter Hagen. No one but a fool, however, can say just what the order will be, but on showings in this particular championship Jones rates to win. Any handicapper would have to make Jones the favorite.

SMITH CLEVER

If general averages were considered, Horton Smith would be the favorite, because no golfer has ever won such a flock of seventy-two-hole championships in such a short space of time as Horton. He is a good deal like Jones as a golfer. Both are skillful workmen. I should say that these two and Miss Joyce Wethered, the British woman player, are the most accurate golfers in the world today. They seem to operate with the regularity of a clock. They appear to have found a groove in which to swing their clubs, and to have mastered their muscles so they can keep their club heads in that groove.

Some of the rest of us are not so mechanical. We have to wait for an inspiration, or for something to hit us so we can go out and make the shots we are thinking about. That is all I can say for myself; that at Wingedfoot I will be able to hit the shots I am thinking about before I actually wallop the ball, because I will certainly have my mind on a lot of good ones.

LIMBACO TO TAKE

ON WALKER TONIGHT

Trip Limbaco, flashy little Filipino bantamweight, meets "Mexican" Mickey Walker in tonight's ten-round wind-up at the Orange Coast Athletic Club, located on Del Rio Road, Santa Ana.

The pair meet for the second time, their first engagement resulting in a hectic ten-round draw. The fight also marks the debut of Henry T. Faust, president and manager of the club, as the matchmaker.

Trench Kline and Frankie Quigley, teachers, clash in the six-round semi-wind-up. Ray Billilbos vs. George Marcus, six rounds; Peter Martin vs. Tiger Napoleon, four rounds; and Louis Schevete vs. Wellington O'Connor, four rounds, complete the program.

SHEIK SCORING ORGY

RECALLS HIGH SCORES

With all of the heavy hitting of recent years it is very seldom that a baseball club will score twenty runs in a single contest as the Hollywood Stars did last Sunday.

The Coast League record for runs scored in a single game is thirty-five and was established by Bill Esack's Vernon Tigers at Salt Lake during the 1923 season. San Francisco tallied thirty-three times in games with Salt Lake a few years ago.

A most noteworthy high-scoring record was made by the Vernon club long ago when low scores were the order of the day. Happy Hogan's team tallied twenty-seven times in a contest with Portland, October 8, 1911.

"BULLET" JOE BUSH

JOINS NEWARK CLUB

NEWARK (N. J.) June 18. (AP)—"Bullet" Joe Bush, former pitcher for the Yankees, Red Sox and Athletics, has joined the Newark International League baseball team. He recently was released by the Portland (Or.) club.

Jackie Fields Signs Up for Bay City Go

SAN FRANCISCO, June 18. (AP)—Annel Hoffman, monarch club promoter, announced today he had signed Jackie Fields, crack Los Angeles welterweight, for a bout at the State Armory in August.

Fields fights Joe Dundee for the welterweight championship in Detroit next month and many western critics favor him to win the title.

FORGIONE'S STOCK RISES

Boxing Fans Predict Italian Scrapper Will Kaye Sheridan in Legion Star Bout Friday

The main event at the Hollywood American Legion Stadium Friday night will never go the limit. That is what boxing fans are predicting and they claim that Vincent Forgione, the Philadelphia Italian, will prove a popular card at Hollywood as he is what is known as a club fighter. The kind that throws a lot of gloves.

Since dropping a decision to Joe Roche at Hollywood Homer Sheridan has been fighting in the Northwest. He is in good shape for the fight this week, and, according to Tom Kennedy and Emmett Ledwith, they wouldn't be surprised to see Sheridan get right back in the heart of the Hollywood fight fans by stopping Forgione.

Vincent Forgione has had sixty fights since coming to this country four years ago from Italy, and has lost two decisions, one being to Rene DeVos, with whom he also fought a draw.

The semi-wind-up fighters aren't rated in the boxing blue book, but they have a few to settle. Omar Wright fights Irwin Biggs. Wright is an. Billy Uvick, who has Biggs, claims that his fighter once beat A.C. Hudkins in Nebraska. This fight should be a socking party, as both fighters pack a wallop.

Now that we are interested in what a golfer should do with his left foot during the swing, let us take a look at how Jones handles his. If you'll stand behind him as he takes the club back you'll see his heel gradually rise from the ground and the weight carried by it gradually shift to his inside front half at the top. Next mark it coming down to the ground as the downswing starts. Bobby replaces this heel exactly in the position it occupied at address.

That is the real way to handle the left foot. It prevents wobbling and loss of balance. But Jones doesn't worry about it as he strokes the ball. He lets it take care of itself. It will automatically do so if the backswing is played correctly.

When your approach shots hit the green do they trickle off into the sand? Want to make them fall dead? Send stamped, addressed envelope to Sol Metzger, in care of The Times, and ask for his leaflet on "The Art of Pitching."

Unofficially, however, it was learned that the time row was on a par with the performance of last year.

The Washington varsity has come along in great fashion since early season, according to members of the varsity team. The early season, Washington's varsity and junior varsity were almost on a par, but today in a short brush, the first bout was leading the Jayvies by a score of 10-0.

The commissioner would be directly responsible to the faculty group, and he would have no executive or judicial power whatsoever. His duties have been modeled along the lines of the commissioner in the Big Ten, a position now held by Maj. John A. Griffith.

He would have no power to make instant decisions, to settle disputes, or to rule players eligible or ineligible. He merely would be the go-between for the faculty committee and the universities. All troubles, protests, and arguments would be carried to him. He would make thorough investigations, and would present the evidence of both or all sides, to the faculty committee, which is the supreme court of the executive body of the conference.

NOT DETECTIVE

"There is no attempt to make a 'glorified detective' out of the office of commissioner," Wilson said. "He will not be expected to snout around, ferreting out infractions of rules, or any misdemeanors. He will act only when requested to by a university, or by the faculty committee. Then it will be his duty to gather the available facts on the case from all interested parties, ultimately presenting his unbiased evidence, and his recommendation to the faculty committee."

Wilson also will act as the spokesman of the conference to the outside world. Heretofore each institution has offered its own opinion to the press, and frequently there were many different statements as there were institutions. With a commissioner, a uniform contact with newspapers will be reached, that will benefit both parties, the graduate managers believe.

SPOKANE, June 18. (AP)—Mel Ingram, Gonzaga University baseball and football star, announced tonight that he had signed a contract with the Pittsburgh Pirates and would report for work in Chicago Sunday.

He stipulated, however, that he be released September 1 to be allowed to fulfill a contract to coach basketball at the Wallace (Idaho) High School.

LINKHORN ADDS TO KNOCKOUT COLUMN

MODESTO, June 18. (AP)—Jack Linkhorn, Modesto heavyweight, scored his nineteenth consecutive knockout here tonight when he dropped Niles Schaffer, Oakland, for the full count in the second round of a ten-round bout.

GROGAN WHIPS JADICK

ALLENTOWN (Pa.) June 18. (AP)—Tommy Grogan, Omaha (Nebr.) contender for the lightweight championship tonight punched his way to a decision over Johnny Jadick of Philadelphia. Each weighed in at 130 3-4.

UHLAN AND DIXON DRAW

PORTLAND (Or.) June 18. (AP)—"Red" Uhlman, Oakland, Cal., and George Dixon, Portland, negro fighter, fought a slashing ten-round draw tonight, which Uhlman earned by a great exhibition of courageous fighting after being knocked down for a two count in the first round. Dixon weighed 155 to Uhlman's 153.

TRAP WINNERS ANNOUNCED

WICHITA (Kan.) June 18. (AP)—Champions in the three-day Prairie States trapshoot were announced tonight with the close of the tournament. The winners included: Doubles, George Peters, Phoenix, Ariz., 53, and high over all, George Peters, Phoenix, Ariz., 56.

STARS' HIT RECORD

AMONG LOOP'S BEST

Only a very few times in Coast League history has a ball club surpassed the record made by Hollywood in the game with Portland a few days ago by hitting safely twenty-five times. The Stars really made twenty-five hits in eight innings as they did not go to bat in the ninth frame.

The league record for safe hits in a single game is thirty-seven established by San Francisco at Salt Lake about five years ago.

Hollywood's record of twenty-five safe hits is believed to be the best ever made on a local ball field.

Golden Leads in Open Golf

SHAWNEE - ON - DELAWARE (Pa.) June 18. (AP)—Johnny Golden of Patterson, N. J., a member of the United States Ryder Cup team, led the field with the completion of the first round of the Shawnee open golf tournament today with a total of 144 strokes for the thirty-six holes.

Holding second place with 145 was Harry Cooper, Buffalo. The next three were tied with 150. They were Willie McFarlane, Oakridge; Joe Turner, Elmford, and Bill Burke, Westport.

SCHEDULE SERIES OF POLO CLASHES

The first of a series of polo games between the Saddle Club and Saddle and Sirlon Club will be played on the former team's home field in North Hollywood Sunday. Among the noted players who are scheduled to perform in the contest are Lionel Pedley, brother of the famous Mickie star, Gwin (Big Boy) Williams, and E. J. Brandies, the popular Omaha millionaire sportsman.

STASIAK SIGNS UP FOR LUTZE

Polish Star Accepts Defeat of Chicago Gladiator

Grapplers in Finish Fight on Olympic Mat Card

Promoter Daro Angling for Malcewicz Signature

Stanley Stasiak, the giant Polish grappler, was signed by Promoter Lou Daro yesterday to meet Nick Lutze, the sensational young mat star, in the finish feature event of the title feature event of the Olympic mat card.

The 240-pound Pole vied his acceptance of Lutze's challenge to any heavyweight in the country for a finish match. He declared terms for the bout could be discussed later if Lutze would not back down on his defeat.

Stasiak was accepted although he will be the heavy-toucherer he's ever faced. The promoter wired the Pole he would be Lutze's opponent and Stasiak started west immediately.

SEKS OTHER MATCHES

Stasiak came here from Boston recently for a single match with Joe Malcewicz, the U. S. mat panther, after that match Stasiak returned to Cambridge, Mass., his home town. Now he has decided to make the trip again, in what he hopes to be his big effort to make good and stay in this section for some time for other big matches.

Malcewicz, who is in hard training at Long Beach, was expected to be one of the first to accept Lutze's challenge, but he failed even to put in a bid for the match under any terms.

Others who asked for the bout with Lutze were Jim London and Pete Sauer, each of whom asked for a two-hour time limit; Ed (Strangler) Lewis, who would not be able to come to the Coast before the first of August; and Dick Daviscourt, who was crashed on his head with a backward body slam here last week.

The \$5000 certified check which Lutze posted with Frank Morrow, chief deputy of the State Athletic Commission here a few days ago to guarantee his appearance in the ring against Champion Gus Sonnenberg if Promoter Daro was able to get the title-holder here for a bout, will stand to insure his appearance against Stasiak next Wednesday night.

FIRST MEETING

This will be the first time that Lutze and Stasiak have ever met. It will also be Lutze's first start here against a grappler of Stasiak's size, strength and weight, who is a recognized top-notch. Malcewicz was able to beat Stasiak by his greater speed, cleverness and ability, with the backward body slam.

Lutze's chances of a victory against the Pole were not considered so bright yesterday by local mat critics, when they learned of the bout. They believe Lutze lacks the finishing hold to put away the rough Polish giant.

Promoter Daro expects to line up another pair of finish matches to complete this mat card, and it is considered possible that both Malcewicz and Daviscourt will appear in one of the events.

MERCURY STARS SET FOR MEET

(Continued from Thirteenth Page)

will run Saturday in some practice 440 and 880-yard relay races.

Harry Chaucha, winner of the Times pre-Olympic marathon race Saturday, is now training at Board Field for the six-mile run at Centerville.

Johnny Kpek and Jimmy De Mers, club field stars, will be unable to participate in Saturday's trials, but will join the team at Denver. They will leave Los Angeles June 29, arriving at Denver July 1, two days before the junior meet and three days before the senior championships, which Mercuries defended the title won at Boston last year.

THREE HOME RUNS IN GAME MADE BY HEATH

Mickey Heath is the only Coast League player of the present season credited with hitting three home runs in a single game. He is one of a comparatively few to perform the stunt in the quarter century of baseball on the Coast.

Walter Carlyle, Los Angeles outfielder, was the first Coast Leaguer to clout out three homers in one game. He hung up his record in a game with Oakland at Recreation Park in San Francisco about twenty-two years ago.

Bert Ellison, San Francisco first baseman, is said to be the only player credited with hitting three homers on two successive days. Ellison compiled his remarkable record at Salt Lake about five years ago when he drove out ten homers in one series.

NOAH BEERY PLANS CONTEST FOR FISHERS

Southern California anglers have been invited to Noah Beery's Paradise Trout Club this Sunday to take part in the fishing contest which will be held in the Beery river in Big Rock Creek.

A horseshoe tournament also has been arranged for by Noah Beery. It is said that contests and exhibitions will be held in all of the outdoor sports in Big Rock Creek, which includes swimming pool, tennis courts, horseback riding and other activities.

QUINN, MARTINO TO RENEW SPEEDY DUEL AT BANNING

Francis Quinn's victory in the first race of the night program at the American Legion Speedway last Saturday, with Nick Martino, a close second, and the thrilling duel between the two in the final event, when Martino took the measure of Quinn by a car's length after trailing him for nineteen laps, looked mighty good to officials of the Banning American Legion, who watched the races from the stands.

This due is scheduled to clash in the feature event of the annual July Fourth dirt-track program at the Banning Speedway, and their showing, together with that of Jimmie Sharp at the local track in the inaugural A.A.A. night races here, presages a thrilling three-cornered battle at the Banning holiday event.

Quinn, Martino and Sharp probably will meet once more locally before the Banning program, in the second series of night auto races scheduled for the Glendale American Legion's track on Valley Boulevard, near Lincoln Park, Saturday, the 29th inst. Speed Hinkley, Walt May and Carl Ryder are other pilots who promise to make the going fast at Banning on July Fourth.

Miss Collins to Defend Title in

SAN FRANCISCO, June 18. (AP)—Glenna Collett, women's golf champion, announced today she will make her professional debut, announced she will title at Detroit.

MISSOURI CHAMPIONSHIP

Yonkers, N. Y., June 18. (AP)—The Missouri championship golf tournament, which will be held at the Yonkers Country Club, is scheduled to start today.

DICK RUSSELL'S
70 LEADS FIELDRio Hondo Star Wins Medal
at CaliforniaFirst Round of Match Play
Scheduled TodayBrilliant Field of 390 in
Invitation Event

(Continued from Thirteenth Page)

Scoring was excellent over the California course, which is in perfect condition. Just how the boys played in indicated by the fact that five golfers with scores of 79 failed to qualify in the low thirty-two of the championship flight. Gene Brown, runner-up in the California Country Club championship, who shot a 73, was selected as the thirty-second man.

Some "hot" matches are on tap today with Russell meeting Lester Coleman of California in what should prove to be the feature. Lester plays his home course in close to par figures and should give the medalist a battle royal from tee to green. Brown faces Russell (Bud) Thompson of Oakland, Southern California intercollegiate champion. Other good matches should result from Pay Coleman and Milo M. Marchetti of Rancho, Coombs and Paul R. Jones of Rancho, Paul LaVelle of Fox Hills and George Arsenault of Gilard, and Gaines and F. M. Slade of California.

CONSOLATION ROUND
Defeated sixteen of the championship flight automatically become the first flight, while golfers defeated in their first-round matches in other flights and those who failed to qualify are eligible to play in the consolation round on Friday.

The tenth flight is scheduled to start at 8 a.m. sharp, with championship flight starting times between 1:30 and 2:30. A. H. (Ollie) Palmer, starter, emphasized the point that golfers must be on time.

So far the California tourney has gone over with the proverbial "bump" and it looks like a big week if the match play is anything like the qualifying round. Every California member has been a true host, with George Rapp, chairman of the tournament committee, dispensing a large share of the hospitality. George's reputation has been somewhat debased, however, by his being seen continuously in the company of such low persons as Darius L. Darsie, Eddie Krauch, and others.

Following are yesterday's qualifying scores:

Dick Russell, 70; Lester Coleman, 71; Gene Brown, 73; Bud Thompson, 74; Paul LaVelle, 75; George Arsenault, 76; Paul R. Jones, 77; Milo M. Marchetti, 78; Pay Coleman, 79; Lester Coleman, 80; Gene Brown, 81; Bud Thompson, 82; Paul LaVelle, 83; George Arsenault, 84; Paul R. Jones, 85; Milo M. Marchetti, 86; Pay Coleman, 87; Lester Coleman, 88; Gene Brown, 89; Bud Thompson, 90; Paul LaVelle, 91; George Arsenault, 92; Paul R. Jones, 93; Milo M. Marchetti, 94; Pay Coleman, 95; Lester Coleman, 96; Gene Brown, 97; Bud Thompson, 98; Paul LaVelle, 99; George Arsenault, 100; Paul R. Jones, 101; Milo M. Marchetti, 102; Pay Coleman, 103; Lester Coleman, 104; Gene Brown, 105; Bud Thompson, 106; Paul LaVelle, 107; George Arsenault, 108; Paul R. Jones, 109; Milo M. Marchetti, 110; Pay Coleman, 111; Lester Coleman, 112; Gene Brown, 113; Bud Thompson, 114; Paul LaVelle, 115; George Arsenault, 116; Paul R. Jones, 117; Milo M. Marchetti, 118; Pay Coleman, 119; Lester Coleman, 120; Gene Brown, 121; Bud Thompson, 122; Paul LaVelle, 123; George Arsenault, 124; Paul R. Jones, 125; Milo M. Marchetti, 126; Pay Coleman, 127; Lester Coleman, 128; Gene Brown, 129; Bud Thompson, 130; Paul LaVelle, 131; George Arsenault, 132; Paul R. Jones, 133; Milo M. Marchetti, 134; Pay Coleman, 135; Lester Coleman, 136; Gene Brown, 137; Bud Thompson, 138; Paul LaVelle, 139; George Arsenault, 140; Paul R. Jones, 141; Milo M. Marchetti, 142; Pay Coleman, 143; Lester Coleman, 144; Gene Brown, 145; Bud Thompson, 146; Paul LaVelle, 147; George Arsenault, 148; Paul R. Jones, 149; Milo M. Marchetti, 150; Pay Coleman, 151; Lester Coleman, 152; Gene Brown, 153; Bud Thompson, 154; Paul LaVelle, 155; George Arsenault, 156; Paul R. Jones, 157; Milo M. Marchetti, 158; Pay Coleman, 159; Lester Coleman, 160; Gene Brown, 161; Bud Thompson, 162; Paul LaVelle, 163; George Arsenault, 164; Paul R. Jones, 165; Milo M. Marchetti, 166; Pay Coleman, 167; Lester Coleman, 168; Gene Brown, 169; Bud Thompson, 170; Paul LaVelle, 171; George Arsenault, 172; Paul R. Jones, 173; Milo M. Marchetti, 174; Pay Coleman, 175; Lester Coleman, 176; Gene Brown, 177; Bud Thompson, 178; Paul LaVelle, 179; George Arsenault, 180; Paul R. Jones, 181; Milo M. Marchetti, 182; Pay Coleman, 183; Lester Coleman, 184; Gene Brown, 185; Bud Thompson, 186; Paul LaVelle, 187; George Arsenault, 188; Paul R. Jones, 189; Milo M. Marchetti, 190; Pay Coleman, 191; Lester Coleman, 192; Gene Brown, 193; Bud Thompson, 194; Paul LaVelle, 195; George Arsenault, 196; Paul R. Jones, 197; Milo M. Marchetti, 198; Pay Coleman, 199; Lester Coleman, 200; Gene Brown, 201; Bud Thompson, 202; Paul LaVelle, 203; George Arsenault, 204; Paul R. Jones, 205; Milo M. Marchetti, 206; Pay Coleman, 207; Lester Coleman, 208; Gene Brown, 209; Bud Thompson, 210; Paul LaVelle, 211; George Arsenault, 212; Paul R. Jones, 213; Milo M. Marchetti, 214; Pay Coleman, 215; Lester Coleman, 216; Gene Brown, 217; Bud Thompson, 218; Paul LaVelle, 219; George Arsenault, 220; Paul R. Jones, 221; Milo M. Marchetti, 222; Pay Coleman, 223; Lester Coleman, 224; Gene Brown, 225; Bud Thompson, 226; Paul LaVelle, 227; George Arsenault, 228; Paul R. Jones, 229; Milo M. Marchetti, 230; Pay Coleman, 231; Lester Coleman, 232; Gene Brown, 233; Bud Thompson, 234; Paul LaVelle, 235; George Arsenault, 236; Paul R. Jones, 237; Milo M. Marchetti, 238; Pay Coleman, 239; Lester Coleman, 240; Gene Brown, 241; Bud Thompson, 242; Paul LaVelle, 243; George Arsenault, 244; Paul R. Jones, 245; Milo M. Marchetti, 246; Pay Coleman, 247; Lester Coleman, 248; Gene Brown, 249; Bud Thompson, 250; Paul LaVelle, 251; George Arsenault, 252; Paul R. Jones, 253; Milo M. Marchetti, 254; Pay Coleman, 255; Lester Coleman, 256; Gene Brown, 257; Bud Thompson, 258; Paul LaVelle, 259; George Arsenault, 260; Paul R. Jones, 261; Milo M. Marchetti, 262; Pay Coleman, 263; Lester Coleman, 264; Gene Brown, 265; Bud Thompson, 266; Paul LaVelle, 267; George Arsenault, 268; Paul R. Jones, 269; Milo M. Marchetti, 270; Pay Coleman, 271; Lester Coleman, 272; Gene Brown, 273; Bud Thompson, 274; Paul LaVelle, 275; George Arsenault, 276; Paul R. Jones, 277; Milo M. Marchetti, 278; Pay Coleman, 279; Lester Coleman, 280; Gene Brown, 281; Bud Thompson, 282; Paul LaVelle, 283; George Arsenault, 284; Paul R. Jones, 285; Milo M.
